Vinter, 2004-08-11 Publisher Description *Rural Families and Reshaping Human Services* Jeanne Cook, Keith Alford, Jennifer Uhrich, Pat Conway, 2016-04-14 This collection presents creative strategies and programs designed to address needs of families in the context of rural communities Even before the most recent worldwide economic crisis many rural families in the United States struggled to meet basic needs As needs in rural communities have expanded services have shrunk This book identifies rural families needs including social supports during pregnancy identification of adolescent risk behaviours child safety and basic services such as food and health care using techniques such as Geographic Information Systems and needs and asset assessments Strategies to address those needs include program development the use of technology and community partnerships The book reminds readers of the sense of independence and self reliance found in many rural communities and the theme of diversity within rural communities runs throughout the book The chapters are organized by identification of the needs of rural families addressing disparities in rural areas practice in rural communities and human service organizations and professionals Through research practice and creative works the book contributes to a greater understanding of ways that service providers can advance their work with rural families and broaden their perspectives about realities experienced by families living in rural communities This book was originally published as a special issue of the *Journal of Family Social Work*

Reimagining the Human Service Relationship Jaber F. Gubrium, Tone A. Andreassen, Per K. Solvang, 2016-07-05 The traditional lines of demarcation between service providers and service users are shifting Professionals in managed service organizations are working to incorporate the voices of service users into their missions and the way they function and service

users with growing access to knowledge have taken on the semblances of professional expertise. Additionally, the human services environment has been transformed by administrative imperatives. The drive toward greater efficiency and accountability has weakened the bond between users and providers. Reimagining the Human Service Relationship is informed by the premise that the helping relationship should be seen as developing in the interactive space between those who provide human services and those who receive them. The contributors to this volume redefine the contours, roles, institutional divisions, means, and aims of providing and receiving services in a range of settings including child welfare, addiction treatment, social enterprise, doctoring, mental health, and palliative care. Though they advocate an experience near approach, they remain sensitive to the ambiguities and competing rationalities of the service relationship. Taken together, these chapters reimagine the service relationship by making visible the working relevancies of service delivery.

Behavior Change in the Human Services Martin Sundel, Sandra S. Sundel, 2017-01-13. Behavior Change in the Human Services Sixth Edition continues to provide a systematic introduction and overview of behavioral and cognitive principles and their applications to a wide range of problems and situations encountered in the human service professions. Designed for students and practitioners, the book uses a unique problem-solving framework to demonstrate how behavior change principles can be applied to practice situations. Martin and Sandra Sundel feature a detailed and sequential organization that encourages readers to move progressively through material of increasing complexity and to conduct self-assessments of their knowledge. The Fifth Edition includes eight clinical case studies and many new and engaging examples that address issues such as substance abuse, child behavior problems, assertiveness, marital discord, and developing appropriate social behaviors. The expanded chapter on intervention techniques incorporates empirically tested behavioral and cognitive strategies for addressing clinical problems such as phobias, anxiety disorders, depression, and other behavioral disorders. Current developments and trends in the field are discussed, including the movement toward evidence-based practice. This comprehensive yet accessible text also features figures, charts, and forms to demonstrate data collection and analysis. Any student pursuing a career in the helping professions, including social work, psychology, counseling, special education, nursing, and psychiatry, will find this book valuable.

Routledge International Handbook of Social Work Education Imogen Taylor, Marion Bogo, Michelle Lefevre, Barbra Teater, 2016-03-31. The Routledge International Handbook of Social Work Education provides an authoritative overview of current understanding through coverage of key debates, exploring the state of play in particular social work education fields and reflecting on where the future might be taking us. The overall aim of the Handbook is to further develop pedagogic research and scholarship for social work education. Drawing on medical education as an exemplar, the contributors view social work education as a specialism and a field of expertise that counts in the same way as research programmes in more traditional areas of social work practice. The chapters are concerned with the theory and practice of social work education at all levels; they are accessible, conceptually clear, research-based, where appropriate, critically reflective, and ethically

underpinned The Handbook is organised into seven sections that reflect the proposed themes and sub themes covering Social work education in context the western drivers Emerging and re emerging social work education The scholarship of learning and teaching New insights into field education New directions in learning and teaching Future challenges in social work education This handbook presents a contribution to the process of exchange and dialogue which is essential to global social work education It brings together professional knowledge and lived experience both universal and local and will be an essential reference for social work educators researchers students and professionals

*Environmental Practice in the Human Services* Bernard Neugeboren, 2013-01-11 *Environmental Practice in the Human Services* points to the need for the human services to return to their historic mission of environmental change It moves beyond the more general conceptual emphasis on person in environment toward the development of an environmental practice technology based on an intervention model which prescribes specific micro and macro roles and functions It may open the way to recapturing the conceptual breadth which characterized the first 40 years of social work as a professional and occupational entity The ecological perspective in social work has fostered an interest in the impact of social environments on service consumers *Environmental Practice in the Human Services* tries to rectify the historical imbalance in the human services that has emphasized people changing methods giving secondary emphasis to environmental change It instructs students preparing for practice in the human services as well as agency practitioners in the knowledge and skills necessary in environmental practice Cases in environmental practice are used to illustrate how these skills are utilized in actual practice situations The book's scope includes practice at the direct service administration planning and social policy levels it integrates micro and macro practice and shows how these two levels of practice are interdependent This enables human service practitioners to create and or modify social environments to enhance the functioning of clients being served in human service programs Topics covered include important skills in environmental practice including decisionmaking negotiating and leadership community practice and resource coordination social support the impact of organizational environments on practice environmental practice for the chronically disabled Author Neugeboren's approach is unique in its in depth focus on environmental practice applying concepts of social environment to specific practice roles This practice specific content which provides tools needed for environmental practice is in contrast to existing texts on the social environment which are very theoretical and not integrated with practice He includes material from the field of social ecology which has not been included in existing texts It shows how practitioners and administrators planners and policymakers can facilitate and support each other's work Reading *Environmental Practice in the Human Services* will enlighten students and practitioners with specific skills for impacting on different social environments to enhance client benefit It tells how a direct service practitioner can determine which organizational environments are suitable for particular client needs in making agency referrals It also provides administrators with information about designing planning and managing agencies with functional organizational

environments which achieve effective services
