Subject: Icelandic glacier mask update in IFS cycle 38r2

1 Introduction

ECMWF revised the IFS glacier mask over Iceland. The new glacier mask was implemented on the fly on 8 May 2013 in the suite 38r2, both in HRES and EDA. It became operational on 25 June 2013.

This research memorandum presents the motivations for this update and it shows the updated glacier mask at different resolutions used in operations. The implementation procedure is presented as well as results from experiments. The Icelandic glacier mask update has a local impact on surface and near surface weather parameters over Iceland. Comparisons between the suite 38r2 and the suite 38r1 are shown and impact on the EFI and ENS products is discussed as well as ongoing actions to account for the revised glacier mask in the re-forecast ENS. This work was conducted in close collaboration between ECMWF and the Icelandic Meteorological Office.

2 Motivations and updated glacier mask over Iceland

The Icelandic Meteorological Office (IMO) reported in 2012 systematic unrealistic cold two-metre temperature forecasts in the highland of Iceland in the ECMWF products. The bias, also present in the previous years, was particularly important in summer. It was due to an overestimation of the glacier extent in the IFS, and resulted in a permanent snow depth of 10 m (water equivalent) present in areas of Iceland which are in reality

Research Memorandum on Social Aspects of Relief Policies in the Depression Reuel Clyde White, Mary K. White, 1937 **Social Aspects of Crime in England between the Wars** Hermann Mannheim, 2019-03-11 Originally published in 1940 This ground breaking work formed the foundation for modern criminology becoming an academic discipline within UK sociological studies It concerns the history of crime its causes and treatment in England during the preceding twenty five years or so Mannheim through this and later studies went on to found the criminology department at LSE The book offers an evaluation of the criminological implications of the War and early post War period as well as an examination of the practical working of the new penal machinery built up by the Reform Acts passed just prior to the War The author produced a scientific account of the post War state of crime beginning with a critical examination of the structure and interpretation of English Criminal Statistics followed by a survey of the principal criminological features of the period between the two Wars Significant aspects are dealt with in a separate chapters four devoted to problems of work and leisure Unemployment and Strikes Business Administration Alcoholism and Gambling four others to those of certain specific sections of the population Juvenile Delinquency Female Delinquency and Prostitution Recidivism This is a fascinating read for both the historian and the criminologist **Research Memorandum on Social Aspects of Reading in the Depression**

Douglas Waples, 1937 **An All-Consuming Century** Gary Cross, 2000-09-14 The unqualified victory of consumerism in America was not a foregone conclusion The United States has traditionally been the home of the most aggressive and often thoughtful criticism of consumption including Puritanism Prohibition the simplicity movement the 60s hippies and the consumer rights movement But at the dawn of the twenty first century not only has American consumerism triumphed there isn't even an ism left to challenge it An All Consuming Century is a rich history of how market goods came to dominate American life over that remarkable hundred years between 1900 and 2000 and why for the first time in history there are no practical limits to consumerism By 1930 a distinct consumer society had emerged in the United States in which the taste speed control and comfort of goods offered new meanings of freedom thus laying the groundwork for a full scale ideology of consumer's democracy after World War II From the introduction of Henry Ford's Model T so low in price that no man making a good salary will be unable to own one and the innovations in selling that arrived with the department store window displays self service the installment plan to the development of new arenas for spending amusement parks penny arcades baseball parks and dance halls Americans embraced the new culture of commercialism with reservations However Gary Cross shows that even the Depression the counterculture of the 1960s and the inflation of the 1970s made Americans more materialistic opening new channels of desire and offering opportunities for more innovative and aggressive marketing The conservative upsurge of the 1980s and 90s indulged in its own brand of self aggrandizement by promoting unrestricted markets The consumerism of today thriving and largely unchecked no longer brings families and communities together instead it

increasingly divides and isolates Americans Consumer culture has provided affluent societies with peaceful alternatives to tribalism and class war Cross writes and it has fueled extraordinary economic growth The challenge for the future is to find ways to revive the still valid portion of the culture of constraint and control the overpowering success of the all consuming twentieth century **Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971** New York Public Library.
