Research Methods in Public Administration and Public Management Sandra van Thiel, 2021-08-29 Research in Public Administration and Public Management has distinctive features that influence the choices and application of research methods. The standard methodologies for researching from the social sciences can be difficult to follow in the complex world of the public sector. In a dynamic political context, the focus lies on solving societal problems whilst also using methodological principles to do scientifically sound research. The second edition of Research Methods in Public Administration and Public Management represents a comprehensive guide to undertaking and using research in Public Management and Administration. It is succinct but covers a wide variety of research strategies including action research, experiments, case studies, desk research, systematic literature reviews and more. It pays attention to issues of design, sampling, research ethics and data management. This textbook does explain the role of theory but also offers many international examples and practical exercises. It takes the reader through the journey of research starting with the problem definition, choice of theory, research design, options and tools to achieve impactful research. New and revised material includes but is not limited to: A closer look at popular methods like the experiment and the systematic literature review; A deeper examination of research ethics and data management; New examples from a wide range of countries; Updated Further Reading material and additional useful websites. This exciting new edition will be core reading for students at all levels as well as practitioners who are carrying out research on Public Management and Administration.

Research Methods in Public Administration and Nonprofit Management David E. McNabb, 2017-09-11 Now in a thoroughly revised and refreshed fourth edition, Research Methods in Public Administration and Nonprofit Management is beloved by students and professors alike for its exceptional clarity and accessibility and plentiful illustrations. This new edition integrates quantitative, qualitative and mixed methods approaches as well as specific up-to-date instruction in the use of statistical software programs such as Excel and SPSS. Changes to this edition include: A new section featuring two new chapters to explore mixed methods approaches to research including fundamentals, research design, data collection and analyzing and interpreting findings; A new dedicated chapter on Big Data research; Updated exhibits and examples throughout the book; A new companion website to accompany the book containing PowerPoint slides for each chapter; New exhibits, tables, figures and exercises as well as key terms and discussion questions at the end of each chapter. Research Methods in Public Administration and Nonprofit Management 4e is an ideal textbook for use in all research methods courses in undergraduate and graduate public administration, public affairs and nonprofit management courses.
