Searching For Certainty Inside The New Canadian Mindset:

How Ottawa Spends 2004-2005 G. Bruce Doern, 2004 Drawing on the work of academics and other experts from across Canada Carleton University's School of Public Policy and Administration's annual book takes a focused and robust look at an era where a political coronation seemed inevitable but high expectations had to be managed downwards almost immediately. A less than buoyant fiscal surplus escalating concerns about liberal ethics and corruption and a growing volatility in public opinion are examined as are Canadians' increasingly uncertain views about the new Liberal leadership versus the old Liberal Party's ten year hold on power. A new Conservative Party and a suddenly feisty New Democratic Party are also a central part of the new 2004-2005 Canadian political and policy milieu.

The World in Canada David Bercuson, 2008-02-07 Just as Canada is increasingly at home in the world the world is increasingly finding a home in Canada. The World in Canada confronts three questions: What are the implications of the dramatic and sustained shift in the Canadian ethnic mosaic for foreign policy? In what ways do diasporas influence Canadian foreign policy? What impact will and should Canada's demographic changes have on Canadian foreign policy in the long term.

The Canadian Alternative Klaus Martens, 2004
Medicine and the Market Daniel Callahan, Angela A. Wasunna, 2006-05-22 Outstanding Academic Title for 2007 Choice Magazine. Much has been written about medicine and the market in recent years. This book is the first to include an assessment of market influence in both developed and developing countries and among the very few that have tried to evaluate the actual health and economic impact of market theory and practices in a wide range of national settings. Tracing the path that market practices have taken from Adam Smith in the eighteenth century into twenty-first century health care, Daniel Callahan and Angela A. Wasunna add a fresh dimension: they compare the different approaches taken in the market debate by health care economists, conservative market advocates and liberal supporters of single payer or government regulated systems. In addition to laying out the market versus government struggle around the world from Canada and the United States to Western Europe, Latin America and many African and Asian countries, they assess the leading market practices such as competition, physician incentives and co-payments for their economic and health efficacy to determine whether they work as advertised. This timely and necessary book engages new dimensions of a development that has urgent consequences for the delivery of health care worldwide.

Leadership Mindsets Linda Kaser, Judy Halbert, 2009-03-04 This book outlines an alternative way of thinking about school leadership. It examines research evidence that leaders will find most useful and suggests how they might use this evidence to maximise their learning and the learning of their students.

The Oxford Handbook of Canadian Politics John Courtney, John Childs, Courtney, David Smith, 2010-04-29 The Oxford Handbook of Canadian Politics provides a comprehensive overview of the transformation that has occurred in Canadian politics since it achieved autonomy nearly a century ago, examining the institutions and processes of Canadian government and politics at the local, provincial and federal levels. It analyzes all aspects of the Canadian political system: the courts,

elections political parties Parliament the constitution fiscal and political federalism the diffusion of policies between regions and various aspects of public policy **The People's House of Commons** David E. Smith, 2007-04-21 Canada's House of Commons has come under considerable attack in recent years. Many critics have contended that the House has been unresponsive to public opinion and that its party leaders have too much control while leaving individual MPs essentially powerless. The House has also faced challenges by the courts since the introduction of the Charter, a powerful bureaucracy equipped with specialized knowledge and new telecommunications systems that are redefining the transfer of information. Through an examination of academic, judicial, political and legal commentary, *The People's House of Commons* explores the role of the House as a public institution. While addressing much of the criticism that has been levelled at the House, David E. Smith considers the competing political models and inherent tensions and their affect on public understanding. Smith maintains that court decisions are transforming the political system from one dominated by parties to one that promotes individual participation. He argues that reforms such as fixed election dates or stronger parliamentary committees have constitutional significance since their implementation would alter the practice of responsible government, which for more than a century has been a party government. A definitive work by one of Canada's foremost experts in the field of political science, *The People's House of Commons* explores the ramifications of many of the changes currently being proposed to Canada's political system with particular reference to their affect on prerogative power, parliamentary privilege, party discipline, bicameralism and the role of the opposition. Canadian Music and American Culture Tristanne

Connolly, Tomoyuki Iino, 2017-06-30 This collection explores Canadian music's commentaries on American culture. American Woman get away from me, one of the most resonant musical statements to come out of Canada, is a cry of love and hate for its neighbour. Canada's close inescapable entanglement with the superpower to the south provides a unique yet representative case study of the benefits and detriments of the global American culture machine. Literature scholars apply textual and cultural analysis to a selection of Anglo-Canadian music from Joni Mitchell to Peaches, via such artists as Neil Young, Rush and the Tragically Hip, to explore the generic borrowings and social criticism, the desires and failures of Canada's musical relationship with the USA. This innovative volume will appeal to those interested in Music, Canadian Studies and American Studies.

Diplomacy in the Digital Age Janice Gross Stein, 2011-10-11 Edited by Canada's premiere commentator on global affairs, this must read for political junkies will show the quality of M. The Professional Diplomat on Facebook. Personal Diplomacy in the Age of Twitter and Where is Headquarters? Contributors include professional diplomats, award-winning journalist Andrew Cohen, former Globe and Mail editor and author Ed Greenspon, and Allan Gotlieb's wife and partner in social diplomacy, Sondra Gotlieb.

Sharing Our Success David Bell, Kirk David Anderson, Society for the Advancement of Excellence in Education, 2004 The disturbing educational success rates for Aboriginal students in comparison with their peers have been documented for many years. Reducing this persistent achievement gap is one of Canada's most pressing

educational challenges Numerous reports commissioned by federal and provincial governments and Aboriginal authorities have offered detailed examinations of the complex social economic linguistic and cultural interrelationships that contextualize the educational environments of Aboriginal students Many of their families struggle with the legacy of residential schools that ripped families apart and caused immeasurable damage to the social fabric Schools serving these communities work within a context that may include poverty learned helplessness despair and high levels of abuse addictions and violence For some communities student suicide rates may exceed graduation rates Yet despite many extraordinary challenges some schools are producing tangible progress for their Aboriginal students This report springs from a study of ten such schools in an effort to identify practices that appear to contribute to their success
