Seas And Inland Journeys Landscape And Consciousness From Wordsworth To Roethke:

Seas and Inland Journeys James Applewhite, 1985-01 *Riverbank and Seashore in Nineteenth and Twentieth Century British Literature* Gillian Mary Hanson, 2005-11-17 The waters of river and sea represent a kind of freedom a liberty which as Iris Murdoch writes enables man to exist sanely without fear and to perceive what is real As settings in fiction the riverbank and seashore are rich in potential offering a sense of destiny and suggesting the possibility of self truth and self knowledge In British literature the rural coastal setting shadowed by cliffs tugged by the constant movement of the sea becomes the site of revelation and generates the energy that brings characters to a new level of self awareness The river s embankments bridges and tunnels often mark specific stages of revelation and movement in plot Entrapment and isolation contingency and communication are themes that seem born of such settings This book examines the ways in which 21 modern and postmodern writers from Tennyson to Ted Hughes from Jane Austen to Jane Gardam have made use of the physical environment of riverbank and seashore in their work It considers how each author employs the physical settings in the service of plot and character development and how those settings are used to connect with some of the major intellectual concerns of the late 19th and 20th centuries Appendices offer significant quotations from the texts under discussion arranged according to the location they describe the rural river the urban river river into sea the rural shore and the urban shore

Rivermen Frederic S. Colwell, 1989-09-01 Rivermen examines the mythic context and psychological dimensions of the river and its source through an investigation of the recurring motifs associated with the source in classical and English literature the heroic quest the river journey and the naiad or muse Frederic Colwell focuses on the writings of those redoubtable rivermen the English Romantic poets He explores poems by Wordsworth Coleridge Keats and Shelley showing that the image of the river is used in their work as a compelling archetype and a metaphor for the nature and process of the creative impulse From the preface Unlike the rhythms of oceans rivers have direction and a purposive flow The river s will is always its own not laid down by man for whom the river passage demands a surrender to its will its currents and eddies To move with the flow is to course with time and change to stand astride or view it from a height offers the prophetic stance by which we contemplate its entire passage its past present and the brightening waters or rippling shoals ahead **Elements** Casey Clabough, 2002 Elements The Novels of James Dickey draws upon previously undiscussed manuscripts and notes to articulate Dickey s fictional vision as it appears in his three published novels while also examining his early unpublished fiction and post deliverance screenplays The book s thesis follows Dickey s philosophical and verbal theory for his published fiction the practice of merging illustrating the multifaceted and layered manner in which it functions encompassing protagonist and environment and reader and text Just as Ed Gentry Joel Cahill and Muldrow assume the essence of their respective environments the reader is subtly asked to become a part of the text while retaining cognitive independence to blend in the place your re in but with a mind to do something To the White Sea 273 Having explored the connective qualities

of Dickey's published novels the book's final chapter turns to a summary of Dickey's unpublished and largely unknown fiction. Discussing a novel manuscript, four short stories, three screenplays, and five screenplay prospects, the chapter seeks to summarize these heretofore undiscussed works while also tracing their similarities with the published texts. *Jacques Derrida (Routledge Revivals)* William Schultz, Lewis L.B. Fried, 2016-06-17 First published in 1992, this book represents the first major attempt to compile a bibliography of Derrida's work and scholarship about his work. It attempts to be comprehensive rather than selective, listing primary and secondary works from the year of Derrida's Master's thesis in 1954 up until 1991 and is extensively annotated. It arranges, under article type, a huge number of works from scholars across numerous fields, reflecting the interdisciplinary and controversial nature of Deconstruction. The substantial introduction and annotations also make this bibliography in part a critical guide, and as such will make a highly useful reference tool for those studying his philosophy.

Southern Writers Joseph M. Flora, Amber Vogel, 2006-06-21 This new edition of *Southern Writers* assumes its distinguished predecessor's place as the essential reference on literary artists of the American South. Broadly expanded and thoroughly revised, it boasts 604 entries, nearly double the earlier edition's, written by 264 scholars. For every figure, major and minor, from the venerable and canonical to the fresh and innovative, a biographical sketch and chronological list of published works provide comprehensive, concise, up-to-date information. Here, in one convenient source, are the South's novelists and short story writers, poets and dramatists, memoirists and essayists, journalists, scholars, and biographers from the colonial period to the twenty-first century. What constitutes a southern writer is always a matter for debate. Editors Joseph M. Flora and Amber Vogel have used a generous definition that turns on having a significant connection to the region in either a personal or literary sense. New to this volume are younger writers who have emerged in the quarter century since the dictionary's original publication, as well as older talents previously unknown or unacknowledged. For almost every writer found in the previous edition, a new biography has been commissioned. Drawn from the very best minds on southern literature and covering the full spectrum of its practitioners, *Southern Writers* is an indispensable reference book for anyone intrigued by the subject.

Towers of Myth and Stone Deborah Fleming, 2015-09-15 In this critical study of the influence of W.B. Yeats (1865-1939) on the poetry and drama of Robinson Jeffers (1887-1962), Deborah Fleming examines similarities in imagery, landscape belief, in eternal recurrence, use of myth, distrust of rationalism, and dedication to tradition. Although Yeats's and Jeffers's styles differed widely, *Towers of Myth and Stone* examines how the two men shared a vision of modernity, rejected contemporary values in favor of traditions, some of their own making, and created poetry that sought to change those values. Jeffers's well-known opposition to modernist poetry forced him, for decades, to the margins of critical appraisal, where he was seen as an eccentric without aesthetic content. Yet both Yeats and Jeffers formulated social and poetic philosophies that continue to find relevance in critical and cultural theory. Engaging Yeats's work enabled Jeffers to develop a related, though distinct, sense of what themes and subject matter were

best suited for poetic endeavor His connection to Yeats helps to explain the nature of Jeffers s poetry even as it helps to clarify Yeats s influence on those who followed him Moreover Fleming argues Jeffers s interest in Yeats suggests that critics misunderstand Jeffers if they take his rejection of modernism as exemplified by Wallace Stevens William Carlos Williams and Ezra Pound as a rejection of contemporary poetry or the process by which modern poetry came into being **The Princeton Encyclopedia of Poetry and Poetics** Roland Greene,Stephen Cushman,Clare Cavanagh,Jahan Ramazani,Paul Rouzer,Harris Feinsod,David Marno,Alexandra Slessarev,2012-08-26 Rev ed of The Princeton encyclopedia of poetry and poetics Alex Preminger and T V F Brogan co editors Frank J Warnke O B Hardison Jr and Earl Miner associate editors 1993

Theodore Roethke, William Stafford, and Gary Snyder Lars Nordström,1989 This study examines the new ecological dimensions of the regional impulse in the poetry of three major contemporary poets of the Pacific Northwest of the United States The study opens with a survey and analysis of the discussion of a general regional aesthetic in poetry in the Northwest during the 20th century and argues that the important development visible in the regional impulse since World War II in these poets has less to do with an earlier regional aesthetic than with the elements of an ecological metaphor strategies of expressing the metaphor within the context of their common region is explored It is argued that in the poetry the ecological metaphor conveys a new view of the relationship between man and non human nature between man and place in which man is seen as an integrated and inseparable part of the natural systems of a region This poetic metaphor is ethical in that it voices a concern about the destruction of the natural environment suggests a model of ecologically correct behaviour and envisages a harmonious balance where the human and non human meet as equals integrity of the non human world the poetry tends to reject images and emblems of our contemporary industrial technological society and to harken back not only to earlier Romantic and Transcendental currents in poetry but more significantly to the vision of man's place in nature as traditionally perceived by native Americans Finally the study concludes with a brief survey of other Northwest poets who emphasize regional and or ecological themes including a glance at three prominent Northwest Native American poets and a brief discussion of the political dimensions of this metaphor **The Problematic of Self in Modern Chinese Literature**

Contemporary Poets, Dramatists, Essayists, and Novelists of the South Robert A. Bain, Joseph M. Flora, 1994-11-07 From the early 20th century to the present Southern literary talent has flourished. The newer poets, dramatists, essayists, and novelists of this region often use their writings to explore the changing social values of the South while also drawing upon traditional Southern values and culture. This reference work is a guide to the writings of 50 contemporary Southern poets, dramatists, essayists, and novelists. Many of the authors profiled in this volume have established themselves as writers of lasting significance. However, the book also profiles the careers and work of authors who are emerging only now as masters of their art. Each chapter in this book is devoted to a single author and arranged alphabetically for the reader's convenience. Each is written by an expert on the author and includes a biographical sketch, a discussion of major themes, a survey of criticism, and a bibliography of works by and about the author. An introductory essay overviews modern Southern writing and a selected general bibliography concludes the work.
