come out and face the music That means they must come out and change the way they do business in order to fit into the turbulent world Change is no longer an option but change the way they do business to what Companies coming out have two options options that are as different as night and day Surviving The intuitively obvious way The focus of doing business just to survive is logical and intuitively obvious It has companies adopting and or adapting survival tactics as the core of their new way They limit the changes they make to just get over the survival threshold Process changes are most likely very conservative patches glue ons work arounds tweaks fix and repair rather than replace emergency repairs rather than preventive maintenance etc all pursued in an atmosphere of severe cost cutting and staffing layoffs While risk management may be a goal survival oriented companies try to dodge every risk regardless of the risk rewards taking away almost all of their undeveloped opportunities that might be sources of new life for the company Unfortunately the slogan of this new way of doing business might be out of the frying pan and into the fire Thriving The straight and narrow way The focus of this new way of doing business will be positioning the organization so that it will thrive even in a nasty business environment The first step in moving toward a thriving business will be to set a vision that is designed to separate the company from the middle of the road pack of competitors This way of doing business will require the company to improve all work processes that could translate into a competitive edge Processes must be advanced beyond best practices to an industry leading position This way of doing business calls for investment in the best available technology that enables the companys core processes in equipment upgrades where possible expansion of employee responsibilities provision of aggressive training on key skills that support core work processes and more All of these actions will require energy and resources as the straight and narrow way calls for an investment and opportunity mindset However the largest investment will need to be in innovation not innovation you pay for but innovation from
