Making It Right A Common Sense Approach To Criminal Justice:

Making it Right Dennis A. Challeen,1986 **The Psychology of Restorative Justice** Dr Theo Gavrielides,2015-12-28

This collection takes the next step in the advancement of an autonomous inter disciplinary restorative justice field of study and articulates for the first time a psychological concept of restorative justice The book studies the power structures of the restorative justice movement and the psychology of the practitioners theoreticians and researchers who implement it as well as the psychology of the policy makers and politicians who fund it Furthermore it examines the strengths and weakness of our own societies and the communities that are called to participate as parties in restorative justice *The Little Book of Restorative Justice for Sexual Abuse* Judah Oudshoorn,Lorraine Stutzman Amstutz,Michelle Jackett,2015-10-27 Restorative justice is gaining acceptance for addressing harm and crime Interventions have been developed for a wide range of wrongdoing This book considers the use of restorative justice in response to sexual abuse Rather than a blueprint or detailing a specific set of programs it is more about mapping possibilities It allows people to carefully consider its use in responding to violent crimes such as sexual abuse Criminal justice approaches tend to sideline and re traumatize victims and punish offenders to the detriment of accountability Alternatively restorative justice centers on healing for victims while holding offenders meaningfully accountable Criminal justice responses tend to individualize the problem and catch marginalized communities such as ethnic minorities within its net Restorative justice recognizes that sexual abuse is a form of gender based violence Community based practices are needed sometimes in conjunction with and sometimes to counteract traditional criminal justice responses This book describes impacts of sexual abuse and explanations for sexual offending demonstrating how restorative justice can create hope through trauma **Trauma-Informed Juvenile Justice in the United States** Judah Oudshoorn,2016-08-23 Most youth who come in conflict with the law have experienced some form of trauma yet many justice professionals are ill equipped to deal with the effects trauma has on youth and instead reinforce a system that further traumatizes young offenders while ignoring the needs of victims By taking a trauma informed perspective this text provides a much needed alternative one that allows for interventions based on principles of healing and restorative justice rather than on punishment and risk assessment In addition to providing a comprehensive historical overview of youth justice in Canada Judah Oudshoorn addresses the context of youth offending by examining both individual trauma including its emotional cognitive and behavioural effects and collective trauma The author tackles some of the most difficult problems facing youth justice today especially the ongoing cycles of intergenerational trauma caused by the colonization of Indigenous peoples and patriarchal violence and demonstrates how a trauma informed approach to youth justice can work toward preventing crime and healing offenders victims and communities Featuring a foreword written by Howard Zehr case stories from the author s own work with victims and offenders questions for reflection and annotated lists of recommended readings this engaging text is the perfect resource for college and university students in the field of youth justice *Trauma-Informed*

Youth Justice Judah Oudshoorn, 2015-12-01 Most youth who come in conflict with the law have experienced some form of trauma yet many justice professionals are ill equipped to deal with the effects trauma has on youth and instead reinforce a system that further traumatizes young offenders while ignoring the needs of victims By taking a trauma informed perspective this text provides a much needed alternative one that allows for interventions based on principles of healing and restorative justice rather than on punishment and risk assessment In addition to providing a comprehensive historical overview of youth justice in Canada Judah Oudshoorn addresses the context of youth offending by examining both individual trauma including its emotional cognitive and behavioural effects and collective trauma The author tackles some of the most difficult problems facing youth justice today especially the ongoing cycles of intergenerational trauma caused by the colonization of Indigenous peoples and patriarchal violence and demonstrates how a trauma informed approach to youth justice can work toward preventing crime and healing offenders victims and communities Featuring a foreword written by Howard Zehr case stories from the author's own work with victims and offenders questions for reflection and annotated lists of recommended readings this engaging text is the perfect resource for college and university students in the field of youth justice

The Politics of Hiding, Invisibility, and Silence Rhys Dafydd Jones, James Robinson, Jennifer Turner, 2016-03-17 What is absence What is presence How are these two phenomena related Is absence merely not being present This book examines these and other questions relating to the role of absence and presence in everyday politics Absence and presence are used as political tools in global events and everyday life to reinforce ideas about space society and belonging Between Absence and Presence contains six empirically focussed chapters introducing case study locations and contexts from around the world These studies examine how particular groups relationships with places and spaces are characterized by experiences that are neither wholly present nor wholly absent Each author demonstrates the variety of ways in which absence and presence are experienced through silence forgetting concealment distance and the virtual and constituted through visual aural and technological Such accounts also raise philosophical questions about representation and belonging what must remain absent and what is allowed to be present Who decides and how Whose voices are heard Recognizing the complexity of these questions Between Absence and Presence provides a significant contribution in reconciling theorizations of absence with everyday life This book was published as a special issue of Space and Polity

Prison Shakespeare Rob Pensalfini, 2016-01-26 This book explores the development of the global phenomenon of Prison Shakespeare from its emergence in the 1980s to the present day It provides a succinct history of the phenomenon and its spread before going on to explore one case study the Queensland Shakespeare Ensemble's Australia Shakespeare Prison Project in detail The book then analyses the phenomenon from a number of perspectives and evaluates a number of claims made about the outcomes of such programs particularly as they relate to offender health and behaviour Unlike previous works on the topic which are largely individual case studies this book focuses not only on Prison Shakespeare's impact on the prisoners who directly participate but also on prison culture and on broader

Bearing Witness Sandra L Bloom, Michael Reichert, 2014-02-25

Bearing Witness Violence and Collective Responsibility offers a unique layperson's introduction to the scope and causes of violence and trauma theory and suggests ways we can all work to attack these causes. Upon completing this work you will have a better understanding of the social causes of the violence epidemic and concrete suggestions for its long term control. **Bearing Witness** addresses the cycle of violence by discussing some of the biological, psychological, social and moral issues that go into determining whether a person will end up as a victim, perpetrator or bystander to violent events and what happens to us when we are in one or all three of these roles. The authors look at a number of intersecting factors that play interdependent roles in creating a culture that promotes supports and even encourages violence. Specifically you will gain invaluable insight into trauma theory and traumatogenic forces, backdrops against which the chances of exposure to violence and the use of violence as a problem solver are increased, normal human development in the context of attachment theory and what occurs as a result of disrupted attachment bonds, how rapid changes in modern society and the breakdown of the traditional family structure contribute to a level of social stress that promotes violence in the family, in the workplace and in the schools, all places to which people turn for security, social responses to violence, the ways in which certain responses decrease or increase the likelihood of violence, the unhealthy balance of power between the genders and how violence or the threat of violence maintains this imbalance, how our cultural standard of disavowing our normal emotional experience sets the stage for repeated and regular empathic failure which leads to violence. A framework for understanding the various aspects of the problem of violence. **Bearing Witness** delves into the various aspects of trauma, what trauma does to the body, the mind, the emotions and relationships, before beginning to formulate proposals for initiating processes that lead to problem solving. Once this knowledge base has been established, the authors give you the beginnings of an outline for reorganizing society with the aim of establishing a community that is responsive to the basic human need for safety and peace.
