The Making of the Modern Mind. Revised Edition, Etc John Herman Randall (Jr.),1940 The Making of the Modern Mind. Revised Edition. A Survey of the Intellectual Background of the Present Age. John Herman Randall, Jr... John Herman Randall,1954 **The Trinitarian Theology of Dr. Samuel Clarke (1675-1729)** Thomas C.

Pfizenmaier,2022-07-04 This volume deals with the trinitarian debate in early eighteenth century England Samuel Clarke s trinitarian thought represents a reappraisal of that doctrine in the light of early modern philosophy and close Patristic study This work utilizes current studies on the fourth century debate recent evaluations of Latitudinarianism and previously unpublished theological manuscripts of Sir Isaac Newton s to shed light on Clarke s treatment of this central Christian doctrine The conclusion calls for a reclassification of Clarke s thought by historians of doctrine The volume is organized in three parts The first examines Clarke s intellectual milieu the second treats his use of sources and the third evaluates his role in the Trinitarian controversy Students of Latitudinarianism the doctrine of the Trinity and Isaac Newton s thought will all profit from this discussion In addition those interested in the relationship between science and religion will benefit

Fictions of Fact and Value Michael LeMahieu,2013-10-02 Fictions of Fact and Value argues that the philosophy of logical positivism considered the antithesis of literary postmodernism exerts a determining influence on the development of American fiction in the three decades following 1945 in what amounts to a constitutive encounter between literature and philosophy at mid century after the end of modernism as it was traditionally conceived but prior to the rise of postmodernism as it came to be known Two particular postwar literary preoccupations derive from logical positivist philosophy the fact value problem and the correlative distinction between sense and nonsense Even as postwar writers responded to logical positivism as a threat to the imagination their works often manifest its influence specifically with regard to emotive or meaningless terms Far from a straightforward history of ideas Fictions of Fact and Value charts a genealogy that is often erased in the very texts where it registers and disowned by the very authors that it includes LeMahieu complicates a predominant narrative of intellectual history in which a liberating postmodernism triumphs over a reactionary positivism by historicizing the literary response to positivism in works by John Barth Saul Bellow Don DeLillo Iris Murdoch Flannery O Connor Thomas Pynchon and Ludwig Wittgenstein As LeMahieu compelling demonstrates the centrality of the fact value problem to both positivism and postmodernism demands a rethinking of postwar literary history A trenchantly argued study that unearths an important part of postwar literary history Fictions of Fact and Value will interest anyone concerned with postmodernism modernist studies analytic philosophy or the history of ideas *Seeking Communion as Healing Dialogue* Margaret M. Mullan,2021-06-10 Seeking Communion as Healing Dialogue Gabriel Marcel s Philosophy for Today discusses society s problems with interpersonal communication arguing that these issues are more deeply rooted in problems in being Margaret M Mullan draws on the work of Gabriel Marcel to explore the meaning of body of being with and of being at all in today s

world answering questions about why we are often unable to dialogue with the people around us why we feel disconnected and alone even in an increasingly technological world and how these changing technologies expose and sometimes exacerbate our weak connections to others Engaging Marcel's reflective method and theory of communion Mullan explores how we seek communion amid technology and proposes that Marcel's reflections are generative contributions to the understanding and study of communication offering a way to seek healing dialogue in present day Scholars of communication philosophy conflict studies and media studies will find this book particularly useful *Montaigne and Bayle* Craig B. Brush,2012-12-06

It is traditional in the literature on Pierre Bayle to make some reference to Montaigne as one of the masters of skepticism in whose tracks he follows albeit hardly so closely as Charron had Time and again critics feel the need to mention Montaigne and Bayle in the same context sometimes to contrast their brands of Pyrrhonism more often to explain similarities in their ideas and methods which have frequently been regarded as important steps in the gradual evolution of un-Christian even anti-Christian thought Their names were already associated during Bayle's life for example in the mediocre work by Dom Alexis Gaudin *La Distinction et la Nature du Bien et du Mal Traite ou l'on combat l'erreur des Manicheens les sentimens de Jvfontaigne* and his name was inevitably linked with the essayist's In his Port Royal Sainte Beuve pictured Bayle as one of the avowed skeptics in Montaigne's funeral cortege and spoke of both men as *d'autant plus fourbes qu'ils ne le sont pas toujours* His later works show that he revised his opinion on each somewhat but in this he was unusual for his century

History of Philosophy Frederick Charles Copleston,1963 Challenges the complexities of German philosophy in the wake of post-Kantian idealism in the nineteenth century Christian Matthew Bowman,2018-04-02 Religious diversity is a defining feature of the United States But more remarkable than the range of faiths is the diversity of political visions embedded in them Matthew Bowman delves into the ongoing struggle over the potent word Christian not merely to settle theological disputes but to discover its centrality to American politics THE ROLE OF PHILOSOPHICAL FOUNDATIONS

Marian Apparitions, the Bible, and the Modern World Donal Anthony Foley, 2002 This groundbreaking book looks at the major approved Marian apparitions of the last five centuries and relates them to important historical moments the Reformation the French and Russian Revolutions the rise of Nazism These Marian apparitions and particularly Fatima are not historically unimportant events but rather follow a preordained plan they have a crucial role in helping us to see how the modern world with all its problems has developed Donal Foley makes clear the fascinating and intriguing connections between Marian apparitions and the Scriptural types of Mary found in the Bible a crucial element in the theology and exegesis of the early Church Fathers By understanding these biblical types and their symbolism we see that each of the apparitions has a much greater significance for both the Church and the modern world than has generally been recognised Here is a convincing demonstration that the future of the Church and the papacy is intimately bound up with a proper understanding of the role of Mary there will only be true peace in the world when her message is accepted and lived If you thought you really understood how the modern world developed and the role and meaning of Marian apparitions then this book will make you think again Donal Foley has written a book with an extraordinary message Aidan Nichols O P

Modernity and the Construction of Sacred Space Aaron French, Katharina Waldner, 2024-07-01 This volume focuses on the connection between modern design and architectural practices and the construction of sacred spaces Not only language and ritual but space place and architecture play a significant role in constructing special or religious spaces However this concept of a constructed sacred space remains undertheorized in religious studies and the history of art and architecture in general This volume therefore revisits the question of a modern sacred space from an interdisciplinary perspective focusing on religion space and architecture during the emergence of the modern period and up until contemporary times Revisiting the ways in which modern architects and artists have endeavored to create sacred spaces and buildings for the modern world will address the underlying questions of how religious ideas especially those related to esotericism and to alternative religiosities have transformed the way sacred spaces are conceptualized today

History of Education V.k.rao, **The Ingenuity Gap** Thomas Homer-Dixon, 2001-05-15 Human beings have been smart enough to turn nature to their ends generate vast wealth for

themselves and double their average life span But are they smart enough to solve the problems of the 21st century Thomas Homer Dixon In *The Ingenuity Gap* Thomas Homer Dixon global guru the Toronto Star asks is our world becoming too complex too fast paced to manage The challenges facing us converge intertwine and remain largely beyond our ken Most of us suspect the experts don't really know what's going on that as a species we've released forces that are neither managed nor manageable We are fast approaching a time when we may no longer be able to control a world that increasingly exceeds our grasp This is the ingenuity gap the term coined by Thomas Homer Dixon the critical gap between our need for practical innovative ideas to solve complex problems and our actual supply of those ideas Through gripping narrative stories and incidents that exemplify his arguments he takes us on a world tour that begins with a heartstopping description of the tragic crash of United Airlines Flight 232 from Denver to Chicago and includes Las Vegas in its desert a wilderness beach in British Columbia and his solitary search for a little girl in Patna India He shows how in our complex world while poor countries are particularly vulnerable to ingenuity gaps our own rich countries are not immune and we are caught between a requirement for ingenuity and an increasingly uncertain supply When the gap widens political disintegration and violent upheaval can result reaching into our own economies and daily lives in subtle ways In compelling lucid prose he makes real the problems we face and suggests how we might overcome them David Hume's Argument Against Miracles Francis

Beckwith,1989-09-30 In this book the author offers a critical analysis of David Hume's argument against miracles from his *Enquiry Concerning Human Understanding* Of Miracles is one of the most influential works written in defense of the position that belief in supernatural occurrences is not reasonable Using Hume's work as a point of departure the author addresses the two most important epistemological questions asked about miracles Is it ever reasonable to ascribe a divine source to an anomalous event in order to identify it as miraculous and What theoretically entails sufficient evidence that a miracle has actually taken place Contemporary rehabilitations of Hume's argument as put forth by Antony Flew Alastair McKinnon and Patrick Nowell Smith are evaluated Contents Defining the Miraculous Hume's Argument Part 1 Hume's Argument Part 2 The Rationality of Belief and the Existence of God Contemporary Rehabilitations of Hume's Argument and Miracles and Evidence

Modern Christian Thought, Second Edition James C. Livingston, Francis Schüssler Fiorenza, This widely acclaimed introduction to modern Christian thought formerly published by Prentice Hall provides full scholarly accounts of the major movements and thinkers theologians and philosophers in the Christian tradition since the eighteenth century Enlightenment together with solid historical background and critical assessments **Educational Administration & Supervision** ,1929

The Naturalists and the Supernatural William M. Shea,1984 Prentice-Hall Handbook for Writers Glenn H. Leggett,1954 *Winning the Unwinnable War* Elan Journo,2009-09-29 Eight years after 9/11 and in the shadow of two protracted U.S. military campaigns in the Middle East the enemy is not only undefeated but emboldened and resurgent What went wrong and what should we do going forward *Winning the Unwinnable War* shows how our own policy ideas led to 9/11

and then crippled our response in the Middle East and it makes the case for an unsettling conclusion By subordinating military victory to perverse allegedly moral constraints Washington's policy has undermined our national security Owing to the significant influence of Just War Theory and neoconservatism the Bush administration consciously put the imperative of shielding civilians and bringing them elections above the goal of eliminating real threats to our security Consequently this policy left our enemies stronger and America weaker than before The dominant alternative to Bushesque idealism in foreign policy so called realism has made a strong comeback under the tenure of Barack Obama But this nonjudgmental supposedly practical approach is precisely what helped unleash the enemy prior to 9 11 The message of the essays in this thematic collection is that only by radically re thinking our foreign policy in the Middle East can we achieve victory over the enemy that attacked us on 9 11 We need a new moral foundation for our Mideast policy That new starting point for U S policy is the moral ideal championed by the philosopher Ayn Rand rational self interest Implementing this approach entails objectively defining our national interest as protecting the lives and freedoms of Americans and then taking principled action to safeguard them The book lays out the necessary steps for achieving victory and for securing America's long range interests in the volatile Middle East

Development Betrayed Richard B Norgaard, 2006-05-18 Modernity promised control over nature through science material abundance through technology and effective government through rational social organization Instead of leading to this promised land it has brought us to the brink of environmental and cultural disaster Why has there been this gap between modernity's aspirations and its achievements Development Betrayed offers a powerful answer to this question Development with its unshakeable commitment to the idea of progress is rooted in modernism and has been betrayed by each of its major tenets Attempts to control nature have led to the brink of environmental catastrophe Western technologies have proved inappropriate for the needs of the South and governments are unable to respond effectively to the crises that have resulted Offering a thorough and lively critique of the ideas behind development Richard Norgaard also offers an alternative co evolutionary paradigm in which development is portrayed as a co evolution between cultural and ecological systems Rather than a future with all peoples merging to one best way of knowing and doing things he envisions a future of a patchwork quilt of cultures with real possibilities for harmony
