Merci Gonaives A Photographers Account Of Haiti And The February Revolution:

Merci Gonaives Danny Lyon,1994-05-01 **Merci Gonaïves** Danny Lyon,1988 This is a book about the past The events I describe here took place in January February and March of 1986 As Joe Treaster of the New York Times said then It is nice to be reporting on something you can feel good about There is not much to feel good about anymore I never returned to Haiti Page 7 The Sixties Peter Stine,1995 John Lewis s experiences with SNCC or Rosellen Brown s at Tougaloo College are moral light years removed from P J O Rourke s hilarious encounter with the Balto Cong in Baltimore It requires mind expansion to imagine Peter Najarian s first exposure to the counterculture in San Francisco as contemporaneous with Richard Currey s initiation into killing in Vietnam Visual Sociology Douglas Harper,2023-06-09 This new version of the authoritative textbook in the field of visual sociology focuses on the key topics of documentary photography visual ethnography collaborative visual research visual empiricism the study of the visual symbol and teaching sociology visually This updated and expanded edition includes nearly twice as many images and incorporates new in depth case studies drawing upon the author s lifetime of pioneering research and teaching as well as the often neglected experiences of women and people of color The book examines how documentary photography can be useful to sociologists both because of the topics examined by documentarians and as an example of how seeing is socially constructed Harper describes the exclusion of women through much of the history of documentary photography and the distinctiveness of the female eye in recent documentary a phenomenon he calls the gendered lens The author examines how a visual approach allows sociologists to study conventional topics differently while offering new perspectives topics and insights For example photography shows us how perspective itself affects what we see and know how abstractions such as ideal types can be represented visually how social change can be studied visually and how the study of symbols can lead us to interpret public art architecture and person made landscapes There is an extended study of how images can lead to cooperative research and learning how images can serve as bridges of understanding blurring the lines between researcher and researched The important topic of reflexivity is examined by close study of Harper s own research experiences Finally the author focusses on teaching offering templates for full courses assignments and projects and guides for teachers imagining how to approach visual sociology as a new practice This definitive yet accessible textbook will be indispensable to teachers researchers and professionals with an interest in visual sociology research methods cultural theory and visual anthropology *Danny Lyon* Julian Cox,Elisabeth Sussman,Alexander Nemerov,Danica Willard Sachs,Ed Halter,Alan Rinzler,2016-01-01 The first comprehensive overview of an influential American photographer and filmmaker whose work is known for its intimacy and social engagement Coming of age in the 1960s the photographer Danny Lyon b 1942 distinguished himself with work that emphasized intimate social engagement In 1962 Lyon traveled to the segregated South to photograph the civil rights movement Subsequent projects on biker culture the demolition and redevelopment of lower Manhattan and the Texas prison system and more recently on the

Occupy movement and the vanishing culture in China's booming Shanxi Province share Lyon's signature immersive approach and his commitment to social and political issues that concern those on the margins of society. Lyon's photography is paralleled by his work as a filmmaker and a writer. *Danny Lyon: Message to the Future* is the first in-depth examination of this leading figure in American photography and film and the first publication to present his influential bodies of work in all media in their full context. Lead essayists Julian Cox and Elisabeth Sussman provide an account of Lyon's five-decade career. Alexander Nemerov writes about Lyon's work in Knoxville, Tennessee. Ed Halter assesses the artist's films. Danica Willard Sachs evaluates his photomontages and Julian Cox interviews Alan Rinzler about his role in publishing Lyon's earliest works. With extensive back matter and illustrations, this publication will be the most comprehensive account of this influential artist's work.
