Sollod,Christopher F. Monte,2008-01-22 Beneath the Mask presents classic theories of human nature much as each theorist might if the theorist were to teach his or her ideas to people encountering them for the first time Through a theorist by theorist approach this Eighth Edition continues to explore the ideas of personality theorists developmentally incorporating the personal origins of ideas to illuminate links between the psychology of each theorist and that theorist s own psychology of persons Beneath the Mask presents the sequence of thinking for more than 20 theorists and demonstrates how the thinking that led to major theories is nested in the life experience of the theorists within the context of the surrounding culture The authors emphasize each theorist s life history as the basis for the ideas that constitute his or her theories making them easier to understand as pictures of human nature John P Wilson has revised the text in a manner that preserves and improves upon the best features of the late Robert N Sollod and Christopher Monte s work      Orientation to College Learning Dianna L. Warren,1996 Carpe Diem was written to transform student attitudes about their studies from those of hourly workers sitting in lectures and dutifully taking notes to an attitude which reflects student ownership of their education The motivation for this book comes from compelling evidence that being an active rather than a passive learner will make a significant difference in life s successes This book emphasizes that acquiring factual information is critically important but knowing facts is not enough Successful people must also acquire broad skills including writing speaking interpersonal skills initiative time management assertiveness and reasoning ability The specific teaching and learning techniques discussed include the discussion method computer assisted instruction laboratory instruction simulation the case method intensive reading and writing student journals and cooperative learning including student affairs activities Carpe Diem also provides the rationale for these learning techniques In addition it helps students develop a personal plan and connects that plan with active learning outcomes Finally the book offers appendices on the relevance of specific general education subjects and on how to choose a college that supports active learning      *The College Learner* Mary Renck Jalongo,1996      *Toolkit for College Success* Daniel R.
