#### Message In A Bottle The Making Of Fetal:

Message in a Bottle Janet Lynne Golden, 2009-07-01 This book raises key questions about public policy the politicization of medical diagnosis and the persistent failure to address the treatment needs of pregnant alcoholic women The author traces the history of FAS from a medical problem to moral judgment that stigmatizes certain mothers but falls to extend to them the services that might actually reduce the incidence of this diagnosis **Diet for a Large Planet** Chris Otter, 2023-06-05 In this magisterial study Chris Otter traces Britain s transition to a diet rich in animal proteins and refined carbohydrates like wheat and sugar a diet that required more acreage than that of Britain itself and that if followed everywhere would soon deplete the planet's resources as the title announces this was truly a diet for a large planet From the late 1700s to the end of World War II Otter accounts for the structures practices and ideologies generated by Britain s nutrition transition He shows how Britain was the first nation to undergo the population explosion urbanization and industrialization we associate with modernity and how it managed the unprecedented problem of how to feed its growing population Its radical solution would be to outsource its food production leading away from a locally produced plant based diet to one reliant on global markets international trade networks and enormous agro food systems that would have planetary effects on famine war the world economy and the wider earth system Not only did this phase in Britain's history make the consumption of meat white bread sugar and butter a coveted diet linked to development luxury and power it also opened up a new phase in economic history one whose dramatic effects endure to this day whether in terms of health problems eating **Privacy and the Past** Susan C. Lawrence, 2016-05-11 When the new disorders or the seemingly endless world food crisis HIPAA privacy rules regarding the release of health information took effect medical historians suddenly faced a raft of new ethical and legal challenges even in cases where their subjects had died years or even a century earlier In Privacy and the Past medical historian Susan C Lawrence explores the impact of these new privacy rules offering insight into what historians should do when they research write about and name real people in their work Lawrence offers a wide ranging and informative discussion of the many issues involved She highlights the key points in research ethics that can affect historians including their ethical obligations to their research subjects both living and dead and she reviews the range of federal laws that protect various kinds of information The book discusses how the courts have dealt with privacy in contexts relevant to historians including a case in which a historian was actually sued for a privacy violation Lawrence also questions who gets to decide what is revealed and what is kept hidden in decades old records and she examines the privacy issues that archivists consider when acquiring records and allowing researchers to use them She looks at how demands to maintain individual privacy both protect and erase the identities of people whose stories make up the historical record discussing decisions that historians have made to conceal identities that they believed needed to be protected Finally she encourages historians to vigorously resist any expansion of regulatory language that extends privacy protections to the dead Engagingly written and

powerfully argued Privacy and the Past is an important first step in preventing privacy regulations from affecting the historical record and the ways that historians write history Fostering Nation? Veronica Strong-Boag, 2011-09-28 Fostering Nation Canada Confronts Its History of Childhood Disadvantage explores the missteps and the promise of a century and more of child protection efforts by Canadians and their governments It is the first volume to offer a comprehensive history of what life has meant for North America's most disadvantaged Aboriginal and newcomer girls and boys Gender class race and dis ability are always important factors that bear on youngsters access to resources State fostering initiatives occur as part of a broad continuum of arrangements from social assistance for original families to kin care and institutions Birth and foster parents of disadvantaged youngsters are rarely in full control Children most distant from the mainstream ideals of their day suffer and that suffering is likely to continue into their own experience of parenthood That trajectory is never inevitable however Both resilience and resistance have shaped Canadians engagement with foster children in a society dominated by capitalist colonial and patriarchal power Fostering Nation breaks much new ground for those interested in social welfare history and the family It offers the first comprehensive perspective on Canada's provision for marginalized youngsters from the nineteenth to the twenty first century Its examination of kin care institutions state policies birth parents foster parents and foster youngsters provides ample reminder that children's welfare cannot be divorced from that of their parents and communities and reinforces what it means when women bear disproportionate responsibility for caregiving

Daily Life of Women in Postwar America Nancy Hendricks, 2021-02-15 From Beatniks to Sputnik and from Princess Grace to Peyton Place this book illuminates the female half of the U S population as they entered a brave new world that revolutionized women's lives After World War II the United States was the strongest most powerful nation in the world Life was safe and secure but many women were unhappy with their lives What was going on behind the closed doors of America's picture perfect houses This volume includes chapters on the domestic economic intellectual material political recreational and religious lives of the average American woman after World War II Chapters examine topics such as the entertainment industry's evolving concept of womanhood Supreme Court decisions the shifting idea of women and careers advertising rural urban and suburban life issues women of color faced and child rearing and other domestic responsibilities A timeline of important events and glossary help to round out the text along with further readings and a bibliography to point readers to additional resources for their research Ideal for students in high school and college this volume provides an important look at the revolutionary transformation of women s lives in the decades following World War II Experiments in Rethinking History Alun Munslow, Robert A. Rosenstone, 2004 History is a narrative discourse full of unfinished stories This collection of innovative and experimental pieces of historical writing shows there are fascinating and important new ways of thinking and writing about the past Transforming Addiction Lorraine Greaves, Nancy Poole, Ellexis Boyle, 2015-04-10 Choice Highly Recommended Read Addiction is a complex problem that requires more nuanced responses Transforming Addiction advances

addictions research and treatment by promoting transdisciplinary collaboration the integration of sex and gender and issues of trauma and mental health The authors demonstrate these shifts and offer a range of tools methods and strategies for responding to the complex factors and forces that produce and shape addiction In addition to providing practical examples of innovation from a range of perspectives the contributors demonstrate how addiction spans biological social environmental and economic realms Transforming Addiction is a call to action and represents some of the most provocative ways of thinking about addiction research treatment and policy in the contemporary era Children and Youth in Sickness and in Health Janet Golden, Richard Meckel, Heather Munro Prescott, 2004-04-30 Six original essays reflect the growing scholarly interest in the history of childhood and youth particularly issues affecting child health and welfare These important new essays show how changing patterns of health and disease have responded to and shaped notions of childhood and adolescence as life stages Until the early 20th century life threatening illnesses were a sinister presence in the lives of children of all social classes Today many diseases and threats to child health have been eliminated or alleviated Yet critical problems remain New threats such as AIDS and violence take a steady toll Child health remains an active concern for all families Despite the development of health care policies social welfare policies and effective medication the home remains as it was in the Colonial period the most critical site of care Parents are still central to the preservation of children's health This work imposes a holistic view of this experience for children and families By examining the child's perspective of illness the authors make an important contribution to the understanding of illness as part of the developmental process of growing up

Reproduction Nick Hopwood, Rebecca Flemming, Lauren Kassell, 2018-12-06 From contraception to cloning and pregnancy to populations reproduction presents urgent challenges today This field defining history synthesizes a vast amount of scholarship to take the long view Spanning from antiquity to the present day the book focuses on the Mediterranean western Europe North America and their empires It combines history of science technology and medicine with social cultural and demographic accounts Ranging from the most intimate experiences to planetary policy it tells new stories and revises received ideas An international team of scholars asks how modern reproduction an abstract process of perpetuating living organisms replaced the old generation the active making of humans and beasts plants and even minerals Striking illustrations invite readers to explore artefacts from an ancient Egyptian fertility figurine to the announcement of the first test tube baby Authoritative and accessible Reproduction offers students and non specialists an essential starting point and sets fresh agendas for research *Parenting Culture Studies* Ellie Lee, Jennie Bristow, Charlotte Faircloth, Jan Macvarish, 2023-12-26 Now in its second edition Parenting Culture Studies seeks to understand how parenting is taken as a particular mode of childrearing that reflects broader social trends Ten years after the initial volume s groundbreaking publication the authors once again closely examine how the main aspects of parenting have been established explored and critically evaluated Chapters revisit phenomena such as intensive parenting and politics around parenting as well as

controversial issues including policing pregnant women s bodies and parental determinism In addition to updates throughout the volume including those addressing literature that has built from the book s original publication the book features a new third part discussing parents dealing with risk assessment school closures contradictory care arrangements and vaccine hesitancy during the COVID 19 pandemic One for the Road Barron H. Lerner, 2011-10-14 Don t drink and drive It s a deceptively simple rule but one that is all too often ignored And while efforts to eliminate drunk driving have been around as long as automobiles every movement to keep drunks from driving has hit some alarming bumps in the road Barron H Lerner narrates the two strong and vocal sides to this debate in the United States those who argue vehemently against drunk driving and those who believe the problem is exaggerated and overregulated A public health professor and historian of medicine Lerner asks why these opposing views exist examining drunk driving in the context of American beliefs about alcoholism driving individualism and civil liberties Angry and bereaved activist leaders and advocacy groups like Mothers Against Drunk Driving campaign passionately for education and legislation but even as people continue to be killed many Americans remain unwilling to take stronger steps to address the problem Lerner attributes this attitude to Americans love of drinking and love of driving an inadequate public transportation system the strength of the alcohol lobby and the enduring backlash against Prohibition The stories of people killed and maimed by drunk drivers are heartrending and the country's routine rejection of reasonable strategies for ending drunk driving is frustratingly inexplicable This book is a fascinating study of the culture of drunk driving grassroots and professional efforts to stop it and a public that has consistently challenged and tested the limits of individual freedom Why despite decades and decades of warnings do people still choose to drive while intoxicated One for the Road provides crucial historical lessons for understanding the old epidemic of drunk driving and the new epidemic of distracted driving **Taking Children** Laura Briggs, 2021-08-03 You have to take the children away Donald Trump Taking Children argues that for four hundred years the United States has taken children for political ends Black children Native children Latinx children and the children of the poor have all been seized from their kin and caregivers As Laura Briggs s sweeping narrative shows the practice played out on the auction block in the boarding schools designed to pacify the Native American population in the foster care system used to put down the Black freedom movement in the US s anti Communist coups in Central America and in the moral panic about crack babies In chilling detail we see how Central Americans were made into a population that could be stripped of their children and how every US administration beginning with Reagan has put children of immigrants and refugees in detention camps Yet these tactics of terror have encountered opposition from every generation and Briggs challenges us to stand and resist in this powerful corrective to American history Rest Uneasy Brittany Cowgill, 2018-05-07 Tracing the Sudden Infant Death Syndrome SIDS diagnosis from its mid century origins through the late 1900s Rest Uneasy investigates the processes by which SIDS became both a discrete medical enigma and a source of social anxiety construed differently over time and according to varying perspectives American medicine

reinterpreted and reconceived of the problem of sudden infant death multiple times over the course of the twentieth century Its various approaches linked sudden infant deaths to all kinds of different causes biological anatomical environmental and social In the context of a nation increasingly skeptical yet increasingly expectant of medicine Americans struggled to cope with the paradoxes of sudden infant death they worked to admit their powerlessness to prevent SIDS even while they tried to overcome it Brittany Cowgill chronicles and assesses Americans fraught but consequential efforts to explain and conquer SIDS illuminating how and why SIDS has continued to cast a shadow over doctors and parents A Woman's Right to Know Jesse Olszynko-Gryn, 2023-12-12 The history of pregnancy testing and how it transformed from an esoteric laboratory tool to a commonplace of everyday life Pregnancy testing has never been easier Waiting on one side or the other of the bathroom door for a positive or negative result has become a modern ritual and rite of passage Today the ubiquitous home pregnancy test is implicated in personal decisions and public debates about all aspects of reproduction from miscarriage and abortion to the biological clock and IVF Yet only three generations ago women typically waited not minutes but months to find out whether they were pregnant A Woman's Right to Know tells for the first time the story of pregnancy testing one of the most significant and least studied technologies of reproduction Focusing on Britain from around 1900 to the present day Jesse Olszynko Gryn shows how demand shifted from doctors to women and then goes further to explain the remarkable transformation of pregnancy testing from an obscure laboratory service to an easily accessible though fraught tool for every woman Lastly the book reflects on resources the past might contain for the present and future of sexual and reproductive health Solidly researched and compellingly argued Olszynko Gryn demonstrates that the rise of pregnancy testing has had significant and not always expected impact and has led to changes in the ways in which we conceive of pregnancy itself

Diabetes Arleen Marcia Tuchman, 2020-08-05 Who gets diabetes and why An in depth examination of diabetes in the context of race public health class and heredity Who is considered most at risk for diabetes and why In this thorough engaging book historian Arleen Tuchman examines and critiques how these questions have been answered by both the public and medical communities for over a century in the United States Beginning in the late nineteenth century Tuchman describes how at different times Jews middle class whites American Indians African Americans and Hispanic Americans have been labeled most at risk for developing diabetes and that such claims have reflected and perpetuated troubling assumptions about race ethnicity and class She describes how diabetes underwent a mid century transformation in the public s eye from being a disease of wealth and civilization to one of poverty and primitive populations In tracing this cultural history Tuchman argues that shifting understandings of diabetes reveal just as much about scientific and medical beliefs as they do about the cultural racial and economic milieus of their time Neuroparenting Jan Macvarish, 2016-09-20 This book traces the growing influence of neuroparenting in British policy and politics Neuroparenting advocates claim that all parents require training especially in how their baby s brain develops Taking issue with the claims that the first years last forever and that

infancy is a critical period during which parents must strive ever harder to stimulate their baby s brain just to achieve normal development the author offers a trenchant and incisive case against the experts who claim to know best and in favour of the privacy intimacy and autonomy which makes family life worth living The book will be of interest to students and scholars of Sociology Family and Intimate Life Cultural Studies Neuroscience Social Policy and Child Development as well as individuals with an interest in family policy making Hillybilly Drug Baby: The Story Andrea Brunais, 2018-12-01 Jesse Ray Lewis 19 enters a West Virginia safe house with few possessions beyond the kerchiefs that identify him as a gang member An aged out foster child he lands in Bluefield where a charity gives him food What follows is the personal dramatic story of two people who intervene in the life of a homeless drug abusing teen with a background of violence and neglect In their next door suite called the safe house they impose three rules No alcohol or drugs You have to work You have to go to school Jesse Ray expresses gratitude for shelter and a middle aged couple concerned with his welfare But what does he want The couple struggle to determine his true motives especially after he admits being high on meth at their first meeting At night he writes verse reflecting trauma and violence shame and love even despair Author Andrea Brunais sees more than just a street smart boy who can write She sees a soul who can be saved from a downward spiral But will Jesse Ray accept the help of strangers as glimmers of hope expressed in his writings suggest Will the couple succeed in steering him toward a new life And how will the ordeal transform everyone Humanities ,2006 Nursing History Review, Volume 26 Patricia D'Antonio, PhD, RN, FAAN, 2017-08-15 Nursing History Review an annual peer reviewed publication of the American Association for the History of Nursing is a showcase for the most significant current research on nursing history Regular sections include scholarly articles over a dozen book reviews of the best publications on nursing and health care history that have appeared in the past year and a section abstracting new doctoral dissertations on nursing history Historians researchers and individuals fascinated with the rich field of nursing will find this an important resource Included in Volume 26 Different Places Different Ideas Reimagining Practice in American Psychiatric Nursing After World War II Evolving as Necessity Dictates Home and Public Health in the 19th and 20th Centuries Women s Mission Among Women Unacknowledged Origins of Public Health Nursing The Triumph of Proximity The Impact of District Nursing Schemes in 1890s Rural Ireland More than Educators New Zealand s Plunket Nurses 1907 1950 To Care and Educate The Continuity Within Queen s Nursing in Scotland c 1948 2000 Small Matters Mona Gleason, 2013 An innovative study of the struggle for healthy children in early twentieth century Canada
