Tipping Point for a Hollow Earth: How Asimov and Sagan Backed My Prophecy of a Polar Hole Shift to Europe Ruth Leedy Carr, 2025-05-14 An approaching Earth axis shift is the most pressing issue of our time and yet scientists have said almost nothing about it and the public is woefully ignorant You will see here why scientists have had so little to say about this coming disaster and also about the growing instability of hollow Mars The pictures of a lighted polar hole on the night side of Mars lighted by an internal sun will shock you The refusal of NASA to say one word about that night side light in response to a congressman s request is truly mystifying The willingness of all news media to sweep this issue under the rug must be seen as a betrayal of the first order Are we all lambs meekly heading for slaughter Isaac Asimov and Carl Sagan have provided a path that can lead us beyond the dismal future that has been marked out for us We are so lucky that they never gave up on us About the Author Ruth Leedy Carr gained some practice at science reporting while studying journalism at Indiana University Her second major was psychology and sociology also interested her and so the careful reporting of facts was central to almost all her college studies She began researching the cataclysmic prophecies of Edgar Cayce in relation to the hollow Earth theory in 1980 Her books of 1981 and 1983 were republished by Gray Barker of Saucerian Press who was the first publisher of Raymond Bernard s classic The Hollow Earth She was proclaimed by noted UFO researcher William L Moore to be the world s foremost proponent of the hollow Earth theory *Weird Science and Bizarre Beliefs* Gregory L. twilight borderlands of contemporary culture where at the outer edges of mainstream thought things become downright freaky and outlandish Taking his life in both hands the author explores a subterranean cavern reputed to be the home of elusive blue skinned troglodytes goes hiking in the backwoods for a glimpse of Bigfoot investigates the truth of Alternative Archaeology in search of Atlantis and tests for himself the time travel and anti gravity theories of famed inventor Nikola Tesla Unashamedly revelling in the unexplained Weird Science and Bizarre Beliefs is both a penetrating analysis of the hidden underbelly of science pseudo science and religion as well as an unforgettable journey into the innermost depths of the fantastic the extraordinary and the peculiar

Preface The Earth Walkers Helen Goldstein,2019-08-25 The Earth Walkers is a story of the relationship of horses humans and planet earth It is a simple story that over time we as humans have complicated Once all three lived in harmony but humans viewed this as primitive savage or wild And so we began to make our existence together more civilized In our interference we began to lose respect for our planet and all that lived upon it including ourselves One of the three though remained steadfast throughout the story Horses except in their physical appearance have neither changed nor tried to change anything just being themselves constantly at our sides Tracing the story of the relationship from the beginning of time the unique bond between humans and horses is explored through different civilizations and cultures up to present day It tracks the journey of the two species and the effect they had on earth as they walked around it It also tells the story of how when in times of disruption chaos and imbalance earth has spoken to us giving us signs and horses have always been there guiding us to a path back home It is a path to a home on earth where all can live in harmony and at peace a path that we will hopefully choose to walk together once again
