Mexican Media Art, Ecologies, the Posthuman, and Politics Claudia Costa Pederson,2025-03-31 This volume focuses on the connection between ecological thought and the technological arts in Mexico in order to challenge assumptions that ecological thought is a domain exclusive to the arts of the Global North and reconceive it as an inventive nexus of materialist speculations into a global posthuman world Tracking the concept of ecology through a series of case studies taken from the histories of new media arts in Mexico over the last 50 years from the mid twentieth century to the present this book differs from ecological art histories that either ignore technological art or associate it exclusively with the Global North It includes artists and collectives working both in Mexico and transnationally and examines collaborative projects responding to anthropogenic environmental degradation in Mexico and elsewhere The book will be of interest to scholars working in art history Latin American studies media studies and environmental studies **Interactive Experience in the Digital Age** Linda Candy,Sam Ferguson,2014-03-28 The use of interactive technology in the arts has changed the audience from viewer to participant and in doing so is transforming the nature of experience From visual and sound art to performance and gaming the boundaries of what is possible for creation curating production and distribution are continually extending As a consequence we need to reconsider the way in which these practices are evaluated Interactive Experience in the Digital Age explores diverse ways of creating and evaluating interactive digital art through the eyes of the practitioners who are embedding evaluation in their creative process as a way of revealing and enhancing their practice It draws on research methods from other disciplines such as interaction design human computer interaction and practice based research more generally and adapts them to develop new strategies and techniques for how we reflect upon and assess value in the creation

and experience of interactive art With contributions from artists scientists curators entrepreneurs and designers engaged in the creative arts this book is an invaluable resource for both researchers and practitioners working in this emerging field

Post-Apocalyptic Cultures Julia Urabayen,Jorge León Casero,2024-03-19 This book advocates for the necessity of recovering the value of utopias as political projects that open new channels of action The criticism of modern political utopias is based on the supposed impossibility of creating for the future because there is no longer a future apocalyptic ideology However this edited collection seeks to show that the post apocalyptic world in which we live entails a renewed freedom of design for the radical reorganization of institutions Post apocalyptic cultures are not obligated to follow the capitalist anthropocentric correlationist and sovereign modes of the old political project of emancipation the Western enlightenment that has started to collapse With this in mind this book is divided into four sections dedicated to the main themes from which to rethink the projects of political emancipation that are possible nowadays technopolitics posthumanist biopolitics non western politicsl and the crossover between arts and politics   Applications of Evolutionary Computation Cecilia Di Chio,Anthony Brabazon,Marc Ebner,Muddassar Farooq,Andreas Fink,Jörn Grahl,Gary Greenfield,Penousal Machado,Michael O'Neill,Ernesto Tarantino,Neil Urquhart,2010-04-03 Evolutionary computation EC techniques are e cient nature inspired me ods based on the principles of natural evolution and genetics Due to their ciency and simple underlying principles these methods can be used for a diverse rangeofactivitiesincludingproblemsolving optimization machinelearningand pattern recognition A large and continuously increasing number of researchers and professionals make use of EC techniques in various application domains This volume presents a careful selection of relevant EC examples combined with a thorough examination of the techniques used in EC The papers in the volume illustrate the current state of the art in the application of EC and should help and inspire researchers and professionals to develop e cient EC methods for design and problem solving All papers in this book were presented during EvoApplications 2010 which included a range of events on application oriented aspects of EC Since 1998 EvoApplications formerly known as EvoWorkshops has provided a unique opportunity for EC researchers to meet and discuss application aspects of EC and has been an important link between EC research and its application in a variety of domains During these 12 years new events have arisen some have disappeared whileothershavematuredtobecomeconferencesoftheirown such as EuroGP in 2000 EvoCOP in 2004 and EvoBIO in 2007 And from this year EvoApplications has become a conference as well   **A Companion to Contemporary Art Since 1945** Amelia Jones,2009-02-09 A Companion to Contemporary Art is a major survey covering the major works and movements the most important theoretical developments and the historical social political and aesthetic issues in contemporary art since 1945 primarily in the Euro American context Collects 27 original essays by expert scholars describing the current state of scholarship in art history and visual studies and pointing to future directions in the field Contains dual chronological and thematic coverage of the major themes in the art of our time politics culture wars public space diaspora the artist identity
