New France and New England John Fiske, 1902 It is my purpose to deal with the rise and fall of New France and the development of the English colonies as influenced by the prolonged struggle with that troublesome and dangerous neighbour Here find a comprehensive history that will interest anyone *New France and New England* John Fiske, 2015-06-17

Excerpt from *New France and New England* I hope to have it ready in about two years from now This preface bears the date of Mayday 1899 It will be seen that *New France and New England* completes the story of the settlement and development of the colonies up to the point where Mr Fiske's American Revolution has already taken up the narrative It therefore gives a final unity to the sequence of remarkable volumes which he has devoted to American history The lamented death of the brilliant author prevented him from giving the final touches to his work Most of the material for it was delivered as lectures before the Lowell Institute during the last winter of his life but only the first two chapters received his definite revision for the press The third chapter was unfinished but has been completed by a few pages enclosed in brackets and prepared in accordance with Mr Fiske's own memoranda indicating what incidents he proposed to include in the remaining paragraphs The other chapters were in the form of carefully prepared lectures but were not equipped with the side notes and annotations calling attention to authorities such as Mr Fiske supplied freely in his *Discovery of America* and other volumes About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [Historical Works ...: New France and New England](#) John Fiske, 1902 [New England](#)

Education in New France Roger Magnuson, 1992-06-22 The first priority of French missionaries was the conversion of the native population Education was an important tool in the evangelization campaign because they believed that conversion was best secured when preceded and underscored by religious instruction As Canada evolved into a French colony the religious orders increasingly turned their attention to the education of the children of French settlers The period saw the establishment of a number of petites coles elementary schools a Jesuit college for boys and several trade schools As Magnuson demonstrates provision for education in the colony declined during the eighteenth century First membership in religious orders dwindled reducing their capacity to serve the educational needs of an expanding population Second as the population of the colony grew with more inhabitants born in Canada than in France different values and priorities developed The written word notes Magnuson held less attraction for the Canadian who preferred the active life of the frontier
