New Left The Anti Industrial Revolution:

THE NEW LEFT: THE ANTI-INDUSTRIAL REVOLUTION AYN RAND, **The Return of the Primitive** Ayn Rand, 1999-01-01 In the tumultuous late 60s and early 70s a social movement known as the New Left emerged as a major cultural influence especially on the youth of America It was a movement that embraced flower power and psychedelic consciousness expansion that lionized Ho Chi Minh and Fidel Castro and launched the Black Panthers and the Theater of the Absurd In *Return Of The Primitive* originally published in 1971 as *The New Left* Ayn Rand bestselling novelist and originator of the theory of Objectivism identified the intellectual roots of this movement She urged people to repudiate its mindless nihilism and to uphold instead a philosophy of reason individualism capitalism and technological progress Editor Peter Schwartz in this new expanded version of *The New Left* has reorganized Rand s essays and added some of his own in order to underscore the continuing relevance of her analysis of that period He examines such current ideologies as feminism environmentalism and multiculturalism and argues that the same primitive tribalist anti industrial mentality which animated the New Left a generation ago is shaping society today *Ayn Rand , A Philosopher's Guide to Natural Capitalism* Wayne I. Henry, 2023-07-07 This book posits that a sustainable future is possible without abandoning Capitalism In its current form as Consumer Capitalism the organization of the global economy is clearly unsustainable But Capitalism is a malleable concept that has assumed a variety of forms since the 17th century and it can be altered as needed In Part I of this book the author sets out an economic model for a sustainable form of Capitalism referred to in the literature as Natural Capitalism In Part II he abandons exposition in favour of rigorous philosophical analysis and critiques the older but still dominant narrative that underlies Classical Liberalism The narrative will be reconstructed with great care and analysed to understand why it has been so powerful and enduring and of course why it is no longer appropriate for our current circumstances In Part III he investigates from a normative perspective Classical Liberalism and globalized Capitalism and the economic system it licenses Finally in the conclusion the author draws the threads of the discussion together in a way that emphasizes the differences between the two narratives Classical Liberalism on the one hand and the contemporary version of Progressive Liberalism that nurtures and supports Natural Capitalism on the other This book will be of interest to a broad range of scholars and curious laypersons interested in a clear and interdisciplinary presentation of the issues arising out of climate change including corporate governance social and environmental policy declining social capital and the capacity of democratic institutions to deal effectively with sustainability It will be particularly relevant for students and instructors of philosophy history economics political science social policy and environmental sociology <https://wayneihenry.com> **Markets Don't Fail!** Brian P. Simpson, 2005-01-01 *Markets Don't Fail* addresses many of the popular arguments made by economists and other intellectuals against the free market Using numerous examples as well as moral and epistemological arguments this book claims that free market economies raise the standard of living of all individuals who live in them and allow human

life to flourish **Intercourse** Andrea Dworkin, 2008-08-01 Andrea Dworkin once called Feminism's Malcolm X has been worshipped reviled criticized and analyzed but never ignored The power of her writing the passion of her ideals and the ferocity of her intellect have spurred the arguments and activism of two generations of feminists Now the book that she is best known for in which she provoked the argument that ultimately split apart the feminist movement is being reissued for the young women and men of the twenty first century Intercourse enraged as many readers as it inspired when it was first published in 1987 In it Dworkin argues that in a male supremacist society sex between men and women constitutes a central part of women's subordination to men This argument was quickly and falsely simplified to all sex is rape in the public arena adding fire to Dworkin's already radical persona In her introduction to this twentieth anniversary edition of Intercourse Ariel Levy the author of Female Chauvinist Pigs discusses the circumstances of Dworkin's untimely death in the spring of 2005 and the enormous impact of her life and work Dworkin's argument she points out is the stickiest question of feminism Can a woman fight the power when he shares her bed Ayn Rand Mimi R. Gladstein, 2013-02-14 The novelist and philosopher Ayn Rand was one of the most influential 20th century advocates of free market capitalism Her work inspired Objectivism a philosophical movement and former US Federal Reserve Chairman Alan Greenspan cited Rand as a formative intellectual influence In this outstanding volume Mimi Gladstein details Rand's belief in the moral supremacy of individualism over collectivism highlighting her contribution to libertarian thought **Ayn Rand Reader** Ayn Rand, 1999-01-01 The Fountainhead which became one of the most influential and widely read philosophical novels of the twentieth century made Ayn Rand famous An impassioned proponent of reason rational self interest individualism and laissez faire capitalism she expressed her unique views in numerous works of fiction and non fiction that have been brought together for the first time in this one of a kind volume Containing excerpts from all her novels including Atlas Shrugged Anthem and We The Living The Ayn Rand Reader is a perfect introduction for those who have never read Rand and provides teachers with an excellent guide to the basics of her viewpoint **Russell Kirk** Bradley J. Birzer, 2015-11-09 Emerging from two decades of the Great Depression and the New Deal and facing the rise of radical ideologies abroad the American Right seemed beaten broken and adrift in the early 1950s Although conservative luminaries such as T S Eliot William F Buckley Jr Leo Strauss and Eric Voegelin all published important works at this time none of their writings would match the influence of Russell Kirk's 1953 masterpiece The Conservative Mind This seminal book became the intellectual touchstone for a reinvigorated movement and began a sea change in Americans attitudes toward traditionalism In Russell Kirk Bradley J Birzer investigates the life and work of the man known as the founder of postwar conservatism in America Drawing on papers and diaries that have only recently become available to the public Birzer presents a thorough exploration of Kirk's intellectual roots and development The first to examine the theorist's prolific writings on literature and culture this magisterial study illuminates Kirk's lasting influence on figures such as T S Eliot William F Buckley Jr and Senator Barry Goldwater who persuaded a reluctant Kirk to

participate in his campaign for the presidency in 1964 While several books examine the evolution of postwar conservatism and libertarianism surprisingly few works explore Kirk s life and thought in detail This engaging biography not only offers a fresh and thorough assessment of one of America s most influential thinkers but also reasserts his humane vision in an increasingly inhumane time *A Companion to Ayn Rand* Allan Gotthelf, Gregory Salmieri, 2021-11-08 The first volume to offer a comprehensive scholarly treatment of Rand s entire corpus including her novels her philosophical essays and her analysis of the events of her times this Companion provides vital orientation and context for scholars and educated readers grappling with a controversial and understudied thinker whose enduring influence on American and world culture is increasingly recognized The first publication to provide an in depth scholarly treatment ranging over the whole of Rand s corpus Provides informed contextual analysis for scholars in a variety of disciplines Presents original research on unpublished material and drafts from the Rand archives in California Features insightful and fair minded interpretations of Rand s controversial positions *100 Voices* Scott McConnell, 2010-11-02 An extensive collection of never before published interviews reflecting on Ayn Rand s life and character Drawing on 100 never before published interviews Scott McConnell presents a unique portrait of a larger than life literary giant and a fascinating individual Ayn Rand Focusing on the private Rand McConnell talked to the author s family friends fans and associates as well as Hollywood stars university professors fiction writers and many more Arranged in chronological order these interviews cover a broad range of years contexts relationships and observations on one of the most influential and controversial figures of the twentieth century From Ayn Rand s youngest sister to the woman who inspired the character of Peter Keating in *The Fountainhead* the subjects interviewed offer fresh sometimes surprisingly candid affectionate and intriguing insights into a complex and remarkable writer philosopher and human being **Shapers of the Great Debate on Conservation** Rachel W. White, 2004-09-30 Through biographical examinations of some of the key figures in the debate on conservation this book seeks to explore a range of subjects such as the evolution of the conservation movement its implications for policy makers and how it impacts the daily lives of people everywhere The varying approaches taken by these individuals will serve to emphasize that there are many definitions of conservation and that many viewpoints are valid Detailed observations of important figures on both sides of the debate including some of the most famous and familiar and some less so provide readers with the knowledge they need to form their own opinions on this topic Major biographies include individuals such as Rachel Carson Dixy Lee Ray John Muir and James Watt An introductory essay an appendix of shorter entries on additional figures and a bibliography are also included *Technology, Mythology and the Search for Meaning* Douglas Francis, 2023-11-15 This book offers a big picture look at the evolution of Western thought on technology by focusing on seven periods when there was a paradigm shift in perspective A techno myth is used to identify shape and capture the beliefs of each era Drawing from philosophy literature social sciences physical sciences mythology and cultural history the book brings to life the ideas of the great thinkers and the

ancient myths What their message tells us is that we have failed to learn from the mistakes of the past We have allowed technology to take control of our lives and narrowed our thinking to a one dimensional materialistic perspective We have become prisoners in Max Weber s metaphoric iron cage But they also tell us how to free ourselves by humanizing technology so that humans are in control which is explored in depth in this book

History of American Political Thought Bryan-Paul Frost, Jeffrey Sikkenga, 2019-01-08 Revised and updated this long awaited second edition provides a comprehensive introduction to what the most thoughtful Americans have said about the American experience from the colonial period to the present The book examines the political thought of the most important American statesmen activists and writers across era and ideologies helping another generation of students scholars and citizens to understand more fully the meaning of America This new second edition of the book includes chapters on several additional historical figures including Walt Whitman Lyndon Baines Johnson and Ronald Reagan as well as a new chapter on Barack Obama who was not prominent in public life when the first edition was published Significant revisions and additions have also been made to many of the original chapters most notably on Antonin Scalia which now updates his full legacy increasing the breadth and depth of the collection

Total Freedom Chris Matthew Sciabarra, 2000 Building upon his previous books about Marx Hayek and Rand Total Freedom completes what Lingua Franca has called Sciabarra s epic scholarly quest to reclaim dialectics usually associated with the Marxian left as a methodology that can revivify libertarian thought Part One surveys the history of dialectics from the ancient Greeks through the Austrian school of economics Part Two investigates in detail the work of Murray Rothbard as a leading modern libertarian in whose thought Sciabarra finds both dialectical and nondialectical elements Ultimately Sciabarra aims for a dialectical libertarian synthesis highlighting the need not sufficiently

recognized in liberalism to think of the totality of interconnections in a dynamic system as the way to ensure human freedom while avoiding totalitarianism such as resulted from Marxism **No Requiem for the Space Age** Matthew D.

Tribbe,2014-06-06 This fluidly written first book uses Americans reactions to the Apollo moon landings to examine cultural and social trends in the 1960s and 70s **Objectivism** Leonard Peikoff,1993-12-01 THE 25TH ANNIVERSARY EDITION The definitive statement of Ayn Rand s philosophy as interpreted by her best student and chosen heir This brilliantly conceived and organized book is Dr Leonard Peikoff s classic text on the abstract principles and practical applications of Objectivism based on his lecture series The Philosophy of Objectivism Ayn Rand said of these lectures Until or unless I write a comprehensive treatise on my philosophy Dr Peikoff s course is the only authorized presentation of the entire theoretical structure of Objectivism that is the only one that I know of my knowledge to be fully accurate In Objectivism Peikoff covers every philosophic topic that Rand regarded as important from certainty to money from logic to art from measurement to sex Drawn from Rand s published works as well as in depth conversations between her and Peikoff these chapters illuminate Objectivism and its creator with startling clarity With Objectivism the millions of readers who have been transformed by Atlas Shrugged and The Fountainhead will discover the full philosophical system underlying Ayn Rand s work **The Dialectics of Liberty** Chris Matthew Sciabarra,Edward W. Younkins,Roger E. Bissell,2019-06-04 This collection of essays explores the ways in which the defense of liberty can be bolstered by use of a dialectical method that is a mode of analysis devoted to grasping the full context of philosophical cultural and social factors requisite to the sustenance of human freedom Its strength lies in the variety of disciplines and perspectives represented by contributors who apply explicitly dialectical tools to a classical liberal libertarian analysis of social and cultural issues In its conjoining of a dialectical method typically associated with the socialist left to a defense of individual liberty typically associated with the libertarian right this anthology challenges contemporary attitudes on both ends of the political spectrum Though this conjunction of dialectics and liberty has been explored before in several works including a trilogy of books written by one of our coeditors Chris Matthew Sciabarra this volume will be the first one of its kind to bring together accomplished scholars in political science economics philosophy aesthetics psychology law history education and rhetoric **Ayn Rand** Chris Matthew Sciabarra,2013-10-15 Author of The Fountainhead and Atlas Shrugged Ayn Rand 1905 1982 is one of the most widely read philosophers of the twentieth century Yet despite the sale of over thirty million copies of her works there have been few serious scholarly examinations of her thought Ayn Rand The Russian Radical provides a comprehensive analysis of the intellectual roots and philosophy of this controversial thinker It has been nearly twenty years since the original publication of Chris Sciabarra s Ayn Rand The Russian Radical Those years have witnessed an explosive increase in Rand sightings across the social landscape in books on philosophy politics and culture in film and literature and in contemporary American politics from the rise of the Tea Party to recent presidential campaigns During this time Sciabarra continued to work toward the reclamation of the

dialectical method in the service of a radical libertarian politics culminating in his book *Total Freedom Toward a Dialectical Libertarianism* Penn State 2000 In this new edition of *Ayn Rand* Chris Sciabarra adds two chapters that present in depth analysis of the most complete transcripts to date documenting Rand's education at Petrograd State University A new preface places the book in the context of Sciabarra's own research and the recent expansion of interest in Rand's philosophy Finally this edition includes a postscript that answers a recent critic of Sciabarra's historical work on Rand Shoshana Milgram Rand's biographer has tried to cast doubt on Rand's own recollections of having studied with the famous Russian philosopher N O Lossky Sciabarra shows that Milgram's analysis fails to cast doubt on Rand's recollections or on Sciabarra's historical thesis
