We Are Not Born Submissive Manon Garcia, 2023-01-24 We Are Not Born Submissive is the first in depth philosophical exploration of female submission Focusing on Simone de Beauvoir and more recent feminist thinkers Manon

Garcia argues that to understand female submission we must invert how we examine power and see it from the woman's point of view. Historically, philosophers, psychoanalysts, and even some radical feminists have conflated femininity and submission. But we can grasp the ways gender hierarchies shape women's experiences only by taking account of women's lived experiences, their economic, social, and political situations, and how women adapt their preferences to maintain their well-being. Ultimately, Garcia says, women don't actively choose submission. Rather, they consent to and sometimes take pleasure in what is prescribed to them through social norms within a patriarchy.

ANTI HOROSCOPE HUMAN SOFTWARE Series of 12 books. Did you know that people born on February 17 of leap years or February 18 of common years not only consider themselves guardians of the very principles of existence, the concentration of all processes without which nothing in the world can exist, but are also obsessed with the golden calf? Did you know that money for them is everything, their life, their passion, the basis of their existence? Did you know that those people who were born on February 6th of leap years or on February 7th of common years are not at all capable of going through life alone; they necessarily need a partner or partners. At the same time, they will remain in contact with any person only until they learn and know how to do everything that that person knows, and then they quickly lose interest. Hence the question: are you sure that you know people whom you think you know as your own self? Yes, of course you know them if we take word play into account. You really do know them like you know yourself; that is just as bad. You know your own and other people's masks and roles, but that is all. You do not believe this. Then open this book and see for yourself. This book is for those people who are fed up with horoscopes, who are tired of listening to nonsense about themselves and other people from psychologists or their all-knowing relatives, friends, and acquaintances. It will help you save not just some time in your life, but your whole life, because otherwise you will spend your entire life on something that is a priori impossible. And it is impossible not because you are idiots, but because *Homo sapiens* cannot fully know themselves and other people without an external and most importantly objective source. Perhaps that is the reason why humanity was left factory instructions to each one of us: the Catalog of Human Population. Yes, that is right. There exists the Catalog of Human Population, which you can open and find out everything about any person you are interested in, including yourself. Information about people presented in this book and in other eleven books in the series titled *Anti Horoscope Human Software* is from there and not from your favorite horoscope.

Post-Apocalyptic Culture Teresa Heffernan,2008-12-04 In Post Apocalyptic Culture Teresa Heffernan poses the question what is at stake in a world that no longer believes in the power of the end Although popular discourse increasingly understands apocalypse as synonymous with catastrophe historically in both its religious and secular usage apocalypse was

intricately linked to the emergence of a better world to revelation and to disclosure In this interdisciplinary study Heffernan uses modernist and post modernist novels as evidence of the diminished faith in the existence of an inherently meaningful end Probing the cultural and historical reasons for this shift in the understanding of apocalypse she also considers the political implications of living in a world that does not rely on revelation as an organizing principle With fascinating readings of works by William Faulkner Don DeLillo Ford Madox Ford Toni Morrison E M Forster Salman Rushdie D H Lawrence and Angela Carter *Post Apocalyptic Culture* is a provocative study of how twentieth century culture and society responded to a world in which a belief in the end had been exhausted
