advert became a 6 billion lesson in what not to do Inside this brain bending journey you ll learn Why your reptilian brain acts like the world s most paranoid bouncer How to speak to all three brains in your customer s head yes they have three The neuroscience behind why people queue for hours to buy things they could order online Ethical influence techniques that make customers thank you instead of tolerate you Why that visual information is processed 60 000 times faster than text statistic is complete bollocks Perfect for Marketers tired of shouting into the digital void Business owners who want customers to actually listen Anyone curious about why humans make beautifully irrational decisions People who enjoy science served with a generous helping of wit This isn t about manipulation it s about communication that works with human nature instead of wrestling against it Because understanding minds isn t just good business it s good karma Warning May cause sudden clarity about why your previous marketing felt like performing Shakespeare to a room full of goldfish

Interpreting Technologies - Current and Future Trends Gloria Corpas Pastor,Bart Defrancq,2023-10-09 While interpreting long remained unaffected by the technological progress that transformed the translation industry recent years have witnessed a paradigm shift such that interpreters increasingly interact with technological tools that the delivery of interpreting services becomes increasingly dependent on technologies and finally that technologies start to emerge that might some day compete with interpreters This volume brings together a series of contributions on interpreting technologies focusing on each of these aspects Its goal is to inform and to empower interpreters as well as to spark new reflections on the future of technology in the interpreting industry With this volume we want to encourage interpreters to participate in that reflection and to become partners of technology rather than its victims The next generation of technologies will need a next generation of interpreters
