Stalin's Slave Ships Martin J. Bollinger, 2003-09-30

Between 1932 and 1953 a fleet of ordinary cargo ships was pressed into extraordinary service

The fleet's task was to relocate approximately one million forced laborers to the Soviet Gulag in Kolyma located along the Arctic Circle in far northeastern Siberia

The Kolyma Gulag the most infamous in the Soviet Union was accessible only by sea and the fleet became the lifeblood of the entire operation

As one of the largest seaborne movements of people in history this transport took a devastating toll on human lives

Bollinger presents the often horrific stories of the Gulag fleet and its passengers and reveals the unwitting role of the United States government in the operation

U S shipyards built most of the Gulag fleet and the U S government sold many of the ships used in the transport directly to an agent of the Soviet Union

The United States also overhauled and repaired many ships in the Gulag fleet free of charge at the midpoint of their Gulag careers

In some cases free ships provided to the Soviet Union under the Lend Lease military assistance program were diverted into Gulag transport duties

How much did Washington know about the deadly duty of these ships

How many prisoners made the voyage

How many never made it out alive

Bollinger details this tragic tale using firsthand testimony from those involved in the operation and materials from both American and Russian archives

Control under Stalin and Khrushchev Immo Rebitschek,Aaron B Retish,2023-08-31 How did the Soviet Union control the behaviour of its people How did the people themselves engage with the official rules and the threat of violence in their lives In this book the contributors examine how social control developed under Stalin and Khrushchev Drawing on deep archival research from across the former Soviet Union they analyse the wide network of state institutions that were used for regulating individual behaviour and how Soviet citizens interacted with them Together they show that social control in the Soviet Union was not entirely about the monolithic state imposing its vision with violent force Instead a wide range of institutions such as the police the justice system and party sponsored structures in factories and farms tried to enforce control The book highlights how the state leadership itself adjusted its policing strategies and moved away from mass repression towards legal pressure for policing society Ultimately Social Control under Stalin and Khrushchev explores how the Soviet state controlled the behaviour of its citizens and how the people relied on these structures **Libertarian**
