Functional Psychiatric Disorders of the Elderly Edmond Chiu, David Ames, 1994-09-22 Until recently the literature has sadly neglected the commonest disorders of old age which lacking a demonstrable organic basis have tended to be called functional Professor Chiu and Dr Ames provide us with the first comprehensive text to deal with all the non dementing psychiatric disorders in a practical guide and exhaustive reference Interfacing psychiatry and somatic medicine and confronting the issues of co morbidity this text clearly outlines our core knowledge about clinical problems discussing appropriate treatments and highlighting areas for future research Along with case histories which bring much of the detail into lively focus chapters are neatly cross referenced and are rich in practical advice for multidisciplinary management strategies A unique group of contributors of international renown includes members of a number of allied health disciplines relevant to old age psychiatry This text is sure to be of widespread interest to all professionals concerned with the health of older people

Geriatric Psychiatry Indian Psychiatric Society, 2007 *Fundamentals of Geriatric Psychiatry* Rajesh R. Tampi, Deena Williamson, 2013 The number of people over the age of 65 years in the United States is growing steadily Currently they constitute thirteen percent of the population of the United States This number will double over the next thirty years Psychiatric disorders are not uncommon in older adults Dementia depression anxiety psychotic disorders and substance abuse disorders are often encountered in this population Substantial increase in the number of older adults with mental health issues and a sluggish economic climate has resulted in our healthcare system being overburdened Adding to this critical situation is the fact that the growth in the number of trained clinicians caring for older adults with psychiatric disorders has not kept pace with the healthcare needs of this population Available evidence indicates that although there has been an increase in the research database on psychiatric disorders in older adults the translation of this latest research data into clinical practice occurs less frequently than desired Keeping these issues in mind the authors have written a concise textbook on geriatric psychiatry which encompasses the latest information on psychiatric disorders in late life It is written by experienced professionals who specialise in the care of older adults with psychiatric disorders This book has the latest data in geriatric psychiatry interpreted and translated in an easy to read manner There is also a practice test at the end of this book for clinicians taking certification examinations in geriatric psychiatry This book is a must have for anyone who cares for older adults with mental illness be it a caregiver a student a trainee a novice clinician or a seasoned academic

Geriatric Psychiatry Ana Hategan, James A. Bourgeois, Calvin H. Hirsch, Caroline Giroux, 2024-03-29 This textbook presents real world cases and discussions that introduce the various psychiatric syndromes found in the aging population before delving into the core concepts covered by geriatric psychiatry curricula The text follows each case study with the vital information necessary for physicians in training including key features of each disorder and its presentation practical guidelines for diagnosis and treatment clinical pearls and other devices that are essential to trainees in geriatric psychiatry With the latest DSM 5 TR

guidelines and with rich learning tools that include key points review questions tables and illustrations this text is the only resource that is specifically designed to train both US and Canadian candidates for specialty and subspecialty certification or recertification in geriatric psychiatry It will also appeal to audiences worldwide as a state of the art resource for practice guidance The text meets the needs of the future head on with its straightforward coverage of the most frequently encountered challenges including neuropsychiatric syndromes psychopharmacology elder care and the law substance use disorders psychiatric comorbidities in systemic medical illness consultation liaison psychiatry palliative care climate change and health and equity diversity inclusion matters in the care of older adults Written by experts in the field Geriatric Psychiatry A Case Based Textbook 2nd edition will be the ultimate resource for graduate and undergraduate medical students and certificate candidates providing mental health care for aging adults including psychiatrists psychologists geriatricians primary care and family practice doctors neurologists social workers nurses and others **Porth's**

Pathophysiology Sheila Grossman, 2013-08-13 Featuring brilliant art engaging new case studies and dynamic new teaching and learning resources this 9th edition of Porth's Pathophysiology Concepts of Altered Health States is captivating accessible and student friendly while retaining the comprehensive nursing focused coverage that has made it a market leader The book's unique emphasis on concepts of altered health states as opposed to factual descriptions of diseases and disorders helps students grasp both the physical and psychological aspects of altered health Drawing on the expertise of new co author Sheila Grossman the Ninth Edition maintains its comprehensive depth while paring down content where appropriate and replacing descriptive content with striking art Approximately 600 illustrations are new or have been re-rendered in a consistent modern style Also new to this edition are advanced 3D narrated animations that address the most clinically relevant and difficult to understand disorders engaging unit opening case studies that reinforce critical thinking and set the tone for the content to come and a wide range of built in study tools Now for the first time Porth's Pathophysiology is supported by PrepU an adaptive learning system that help students learn more while giving instructors the data they need to monitor each student's progress strengths and weaknesses **Psychogeriatric Service Delivery** Brian Draper, Pamela S.

Melding, Henry Brodaty, 2005-03-31 An ageing population places ever greater demands on health services The delivery of efficient and effective psychiatric care for older people is a big concern for health service providers in both developed and developing countries This book brings together the theory and practice of psychogeriatric service delivery from an international perspective For both clinicians and service planners this volume will be invaluable in helping them cope with the increasing demands they face and optimise the service that they provide
