Psychology For The Classroom:

Psychology for the Classroom Janice T. Gibson, Janice Gibson-Cline, 1976 **Psychology in the Classroom** Phillida Salmon, 1995 Phillida Salmon offers an alternative vision to the consumerist images of education which have prevailed in political thinking Using the approach of personal construct psychology she shows how meaning is centrally important This has profound implications for understanding how people learn and why they often fail to learn In tracing the logic of this approach in education the author considers the position of teachers and the possibilities and constraints of their own learning For pupils school learning is often unofficial and unintended In this the culture of school institutions plays a major part Differential pupil destinies are carried by special categorization The meaning of such labels is examined in this study
