Carceral Logics Lori Gruen, Justin Marceau, 2022-04-14 Carceral logics permeate our thinking about humans and nonhumans We imagine that greater punishment will reduce crime and make society safer We hope that more convictions and policing for animal crimes will keep animals safe and elevate their social status The dominant approach to human animal relations is governed by an unjust imbalance of power that subordinates or ignores the interest nonhumans have in freedom In this volume Lori Gruen and Justin Marceau invite experts to provide insights into the complicated intersection of issues that arise in thinking about animal law violence mass incarceration and social change Advocates for enhancing the legal status of animals could learn a great deal from the history and successes and failures of other social movements Likewise social change lawyers as well as animal advocates might learn lessons from each other about the interconnections of oppression as they work to achieve liberation for all This title is also available as Open Access on Cambridge Core
