Pynchon's Poetics Interfacing Theory And Text:

Pynchon's Poetics Hanjo Berressem, 1993-01-01 An analysis of Pynchon's major works such as *V The Crying of Lot 49*, *Gravity's Rainbow*, and *Vineland*. This title examines these works in the light of poststructuralist thought and literary theory, investigating the notion of subjectivity and the relations between the subject, culture, and language.

Gravity's Rainbow, Domination, and Freedom Luc Herman, Steven C. Weisenburger, 2013 When published in 1973, *Gravity's Rainbow* expanded our sense of what the novel could be. Pynchon's extensive references to modern science, history, and culture challenged any reader while his prose bent the rules for narrative art and his satirical practices taunted U.S. obscenity and pornography statutes. His writing thus enacts freedom even as the book's great theme is domination: humanity's diminished chances for freedom in a global military industrial system birthed and set on its feet in World War II. Its symbol, the V-2 rocket, *Gravity's Rainbow: Domination and Freedom* broadly situates Pynchon's novel in long sixties history, revealing a fiction deeply of and about its time. Herman and Weisenburger put the novel's abiding questions about freedom in context with sixties struggles against war, restricted speech rights, ethno-racial oppression, environmental degradation, and subtle new means of social and psychological control. They show the text's close indebtedness to critiques of domination by key postwar thinkers such as Erich Fromm, Herbert Marcuse, and Hannah Arendt. They detail equally powerful ways that sixties countercultural practices—free speech resistance played out in courts, campuses, city streets, and raucously satirical underground presswork—provide a clearer bearing on Pynchon's own satirical practices and their implicit criticisms. If the System has jacketed humanity in a total domination, may not a solitary individual still assert freedom? Or has the System captured all, even supposedly immune elites in an irremediable dominion? Reading Pynchon's main characters and storylines, this study realizes a darker *Gravity's Rainbow* than critics have been willing to see.

Ethical Diversions Katalin Orban, 2013-09-13 First Published in 2005. This study focuses on a group of related texts which have struggled to rescue rather than eliminate the paradox of answering the original question: Why ethics rather than nothing?

Postmodern American Literature and Its Other W. Lawrence Hogue, 2009 Redefining postmodern American literature to include the voices of women and nonwhite writers.

Fiction and the Sixth Mass Extinction Jonathan Elmore, 2020-04-01 *Fiction and the Sixth Mass Extinction* is one of the first works to focus specifically on fiction's engagements with human-driven extinction. Drawing together a diverse group of scholars and approaches, this volume pairs established voices in the field with emerging scholars and traditionally recognized climate fiction (cli-fi) with texts and media typically not associated with Anthropocene fictions. The result is a volume that both engages with and furthers existing work on Anthropocene fiction, as well as laying groundwork for the budding subfield of extinction fiction. This volume takes up the collective insistence on the centrality of story to extinction studies. In various and disparate ways, each chapter engages with the stories we tell about extinction: about the extinction of animal and plant life, and about the extinction of human life itself. Answering the call to action of extinction studies, these

chapters explore what kinds of humanity caused this event and what kinds may live through it what cultural assumptions and values led to this event and which ones could lead out of it what relationships between human life and this planet allowed the sixth mass extinction and what alternative relationships could be possible

Dream Tonight of Peacock Tails Umberto Rossi,Paolo Simonetti,2015-09-04 Dream Tonight of Peacock Tails marks the first in depth examination of Pynchon's debut novel which was immediately recognized as a breakthrough masterpiece The eight essays collected in the volume provide both scholars and avid readers with new and original insights into a too often underestimated work that probably even more than Gravity's Rainbow established Pynchon as one of the great masters of twentieth century American literature This book deliberately privileges a multidisciplinary and transnational approach encompassing collaborations from a particularly international and diverse academic context As such this volume offers a multifaceted pattern of expanding investigation that tackles the novel's apparently chaotic but meticulously organized structure by rereading it in the light of recent US and European history and economics as well as by exploring its many real and imagined locations Not only are the essays brought together here revelatory of Pynchon's way of working but they also tell us something about our own ways of approaching his fiction

Tears of Rage Sheldon Brivic,2008 In this provocative study Shelly Brivic presents the history of the twentieth century American novel as a continuous narrative dialogue between white and black voices Exploring four of the most renowned and challenging works written between 1930 and 1990 William Faulkner's Absalom Absalom Richard Wright's Native Son Thomas Pynchon's V and Toni Morrison's Beloved Brivic traces how these works progress through the interaction of white and black perspectives toward confronting the calamity of slavery and its reverberating aftermath and continuing legacy Brivic shows how one novel leads ineluctably to the next and how the four works in a sense form one continuous narrative with Faulkner's attack on the racial system in Absalom Absalom in the 1930s a literary space opened for Wright's devastating novel of protest Through the character of Bigger Thomas Wright's Native Son exposes a virtually incurable division in American ideologies which leads to the multiplying perspectives of postmodernism in Pynchon's V Arriving at the crest of the civil rights movement V questions Western systems of control laying a foundation for a world outside the white one and so providing a basis for the African view of reality presented in Morrison's Beloved The emergence of African consciousness in American literature exemplified across these works has had and continues to have Brivic concludes the potential not only to redress ongoing injustices but to bring about a new conception of the American universe and its laws of reality Striking in both the selection of novels and the connections Brivic draws among them Tears of Rage advances understanding of the destructive nature of racism and the possibilities for overcoming its effects through literature
