Chambers's Journal, 1903 **The Deadly Balance** Adam Hart, 2023-02-02

The predators that can hunt, kill, and eat us occupy a unique place in the human psyche and for good reason. Whether it's lions in Africa, tigers in India, or sharks in the world's oceans, we are fascinated by and often terrified of predators. Animals that can hunt, kill, and eat us occupy a unique place in the human psyche and for good reason. Predation forms a big part of our evolutionary history, but in the modern world, there are many people who live alongside animals that can and sometimes do make them prey. In *The Deadly Balance*, biologist Adam Hart explores the complex relationships we have with predators and investigates what happens when humans become prey. From big cats to army ants, via snakes, bears, wolves, crocodiles, piranhas, and more, Hart busts some myths and explores the science behind such encounters. Despite their fearsome and often wildly exaggerated reputations, these animals have far more to fear from us than we do from them. By probing the latest conservation science, Hart explores how we might both conserve the world's predators and live safely alongside them. *Oh, Yuck!* Joy Masoff, 2000-01-02

Kids love stuff that's gross. From the liquids, solids, and gases, especially the gases, or their own bodies to the creepy, crawly, slimy, slithery, fetid, and feculent phenomena in the world at large, kids with a curious bent just can't get enough. *Oh Yuck! The Encyclopedia of Everything Nasty* brings together in one book all the good things about some of the baddest things on Earth. Exhaustively researched and impeccably scientific yet written with a lively lack of earnestness, *Oh Yuck!* is an ant to zits encyclopedic compendium covering people, animals, insects, plants, foods, and more. Here are vampire bats which sip blood and pee at the same time so that they'll always be light enough to fly away and slime eels wreathed in mucus and eating fellow fish from the inside out. *Oh Yuck!* explains why vomit smells, where dandruff comes from, what pus is all about, and why maggots adore rotting meat. Other features include gross recipes, putrid projects, 10 foods that make you

airborne and more With hundreds of cartoon illustrations and real life photographs Oh Yuck is the complete guide to the irresistible at least to an 8 to 12 year old underbelly of life Iguana Invasion!
