method is not used at all The aim of the BOSS is to win a certain number average of 3 units per Baccarat Shoe over long term play and overtime increasing flat betting wagers to thus win more The BOSS strategy has been fully tested on thousands of live Baccarat Shoes and over many thousands of outcomes Although the BOSS is straight forward the concept behind the strategy is very advanced thus making this it one of the best Baccarat strategies in the world It follows some of the Author's bestselling books on Baccarat including The Ultimate Golden Secret Baccarat Winning Strategy 3 0 In the BOSS book the Author uses a certain indicator that shows readers how to spot the most productive Baccarat Shoes for the strategy There's lots of tips and important information that'll improve a bettor's game and overall Baccarat experience The BOSS is a Baccarat strategy that is designed to remove the psychological burden from a bettor when trying to work out what Side Banker or Player to bet on Any regular Baccarat bettor knows the stressful feeling of making wagering decisions for each outcome A completed 6 or 8 deck Baccarat Shoe will have 60 to 80 ish outcomes thus there are lots of decisions to make should a bettor play to the end of a Shoe Patterns will form and change within a few outcomes trends can thus only begin to become clear sometimes well into a Shoe depending on the trend type forming With the red Banker and blue Player dots forming on a scoreboard a bettor can become confused and will often make wrong decisions because the forming trend of Shoes are in constant change thus showing different signals from outcome to outcome The BOSS takes an objective view And this is one of the important strengths of Tabone's strategy Its focus for the most part steers away from forming patterns and the trends those patterns form and aims at winning a percentage of what will be the difference in the stats between the Banker and Player Sides during the forming of a Shoe i.e. the winning number difference that one Side gains while the Shoe is being played out This book contains a complete strategy with stop losses and a bet again trigger It is a flat betting strategy which means no double down is required in order to win Contents Introduction What is the game of Baccarat Why the Banker Side does not have a true profitable advantage in and of itself What is The Baccarat One Sided Strategy The BOSS What Side to take Making further savings in the long term The BOSS in action How many units should you aim at winning per Shoe How many units should you aim at winning per day Doubling down doubling up and increasing wagers In game play stop loss Bet again trigger Bankroll Overall stop loss Pros and cons of the BOSS in game play Ending statement **The Basics of**

Winning Baccarat Avery Cardoza,1992 *Baccarat Betting Strategy : Simple +2 Bet* Hedy Kurniawan,2025-07-29 The Simple 2 Betting System challenges this common mistake by focusing on pattern disruption instead of pattern chasing Baccarat is a simple fast paced game with three betting options The game is purely probabilistic chasing streaks often results in losses A solid system like the Simple 2 method adds structure and discipline to betting *The Baccarat Two-Sided Strategy (BTSS)* Stephen Tabone,2019-05-08 The Baccarat Two Sided Strategy BTSS is one of the safest ways to wager real money in the game of Baccarat This strategy will protect your bankroll using hedging tactics whilst still making it possible to gain an edge over the disordered nature of Banker and Player outcomes so you can stand a good chance of leaving a Shoe

with your bankroll in a winning state This strategy is hedge based which means up until the point when one of the Sides is no longer bet on the dual power of betting on Two Sides will not expose your bankroll to risk of loss You might ask how it is still possible to win when betting on both Sides It is possible and in this book I will show you how and explain why the strategy works Moreover profits can be extended and I cover how in the Tweaks chapter Not only have I tested retested and tweaked BTSS to its optimum in game play I and my assistants have tried it out in bricks and mortar casinos with good results After developing this strategy when we first tested it out in a brick and mortar casino in London England a Baccarat player raised an eyebrow as he saw how many chips we stacked up Shoe after Shoe He had no clue how this was possible The dealer and his jaw dropping supervisor knew we were playing a strategy but did not know the rules of it When we were losing on some Shoes he was amazed at how we could recover and on many of the Shoes go back into profit thus proving the power of the strategy It feels like plain sailing when you are winning with ease and they cannot work out how Can a strategy that bets on both Sides in the same Shoe really work Surely wagering on the Two Sides ensures failure Well let's put it this way When you start to bet in a new Baccarat Shoe the first few outcomes there are few outwardly signs to suggest any dominance between the Bank Side and Player Side In most Shoes on average both seem to be neck and neck Yet one Side within its inanimate objective through the combination of the shuffled and cut cards will at some stage during a Shoe surge ahead of the other Side If I were to ask you to say which Side will dominate a Shoe you really could not say other than looking for subtle signs that for the most part are signs that are in flux By the time you might have hit upon what you might believe to be a solid sign you have lost your chance to profit from it since the trend would have faded or will begin to Baccarat is all smoke and mirrors the game seems simple yet gamblers find it difficult to secure long term profits and their decisions as to what Side to bet on turns out to be a complex process In this book I show you how to avoid the dance of the Sides that get you guessing so that you can bet in a sophisticated rule based manner to make gains and make those gains from both Sides I have done all the hard work of observing the behaviour of the Two Sides the Banker Side and the Player Side I have analysed many hundreds of Shoe results patterns and trends and many thousands of Banker and Player outcomes I am a casino games professional pattern player and outcomes systemiser I work on what makes games tick and investigate how outcomes form so bettors can profit from the weaknesses I discover in the way Baccarat Shoe outcomes play out in the forming of patterns and trends I also consider betting structures in relation to casino odds and wagering tactics that bettors are able to make As an example of my work I wrote the bestselling Baccarat book title *The Ultimate Golden Secret Baccarat Winning Strategy 3 0* The strategy in that book stands as one of the best Baccarat strategies in the world Moreover it is very useful for high rollers

Silver Bullet Proof Baccarat Winning Strategy 2 1 Book 2 The Ultimate Golden Secret Baccarat Winning Strategy 3 0 The strategies are unique They have a narrow focus on key outcomes therefore ideal for high value wagers where bettors want a higher degree of certainty given the number of outcomes there are in a shoe This is more true of the Golden Secret Lots of Baccarat bettors have tried these and from the emails I receive they state they are their favorite Baccarat strategies Many readers of these strategies prefer using intelligent bet selections when enjoying the game The benefits of the strategies concentrate on gaining unit wins without exposure to chasing losses by doubling down In this respect the strategies can be used by flat betting only or with a limited number of double down attempts Of course the strategies do work but like with all strategies in a 50 50 game of chance they go through winning and losing phases or waves of wins and losses and it s up to a bettor thus to exit a session when in profit and not increase his her level of flat betting wagers too early

Stephen R. Tabone, 2017-02-19 As a Baccarat Gambler you might be asking yourself the following questions Why it is that no matter how hard I try to win I never get to see any real profits when gambling over the long term This means that by the end of a week month a year or many years even I m not up in profit I m just not winning Because if you don t have the winning monies to show for your time gambling at Baccarat when you re trying to win then clearly the reality is you re not winning And why am I losing money when Baccarat is more or less just a 50 50 game of chance We know the Banker has a slight edge but that is only true over many hundreds of shoes As the Author of this book I understand the problems you face in trying to win I had written this book to show you how you can become a better Baccarat gambler and therefore a Baccarat Winner It isn t rocket science but it had taken me a lot of time and research in order to conclude what is ultimately the best way of Winning at Baccarat If you re ready to start winning on a regular basis then this book The Ultimate Bullet Proof Baccarat

Baccarat and roulette players all over the Globe and I've even consulted with the number one best and greatest Baccarat player in the world. They've said that no one has ever been able to do this. Except this System. Forget ALL Other Systems. Don't Waste Your Time or Money. Other Systems can be very Difficult, Complicated, Expensive, and Not even work very well or produce that much. Don't worry about the money. You will make all your money back 10 fold. Quick and Easy. You've heard the saying: The house always wins. Yes. Until Now. You will play at EXPERT level in about five minutes to only about a day or two. The System wins two out of three, one out of three, and three out of three 100% of the time. Making for a Strong Consistent One win out of every Two every single time. It works on EVERYTHING. Also, No one knows the system. Just you. Get it and play it while you can. Before the whole world finds out. This is a brand new system. I've been testing it in casinos and online casinos and old scorecards, to tester books, to 25 different practice apps for six months. It's all totally consistent on everything. Everyone always says that they wish they were there in the very beginning. The challenge people have with that is that most people don't have enough faith to be there in the beginning. If Jeff Bezos came up to you along time ago before you knew who he was and said he wanted to start a website selling books, Everyone would say OK good luck with that. Jeff. Or Steve Jobs saying that he would like to start a new computer company with you called Apple. We would've said the same thing. NOW is your chance to be there. Here in the beginning with This. Don't Blow This. This is One of the reasons why it's worth so much. In this system, I will teach you everything you need to know. You no longer need to worry about Long runs of opposites, long streaks of repeats, terrible twos, or jumbled scrambled sporadic ones, twos, or threes. In fact, you don't need to worry about any possible probable or potential neurotic pattern that Baccarat or Roulette will throw at you. Whatsoever in every way, shape, fashion, and form, because this WINS on Everything. There's one big huge extra special trick that Every Baccarat or Roulette Player doesn't know that every Baccarat Roulette Player is missing out on. I have it. Here in this System, I'm the only one in the Whole World who's ever Created it and Discovered it. There's actually a couple really extra special tricks. But there's one in particular that everyone's missing. This system wins two out of three, one out of two, three out of three, and one out of three about 99.9% of the time, with occasional winning on the fourth or the fifth for a Strong Consistent 1 win out of every 2. It wins long runs of 10 in a row. Regularly. It's tested, tried, and true. A system strategy or method of playing is proven when tested on 500 to 650 games or shoes. This system has been tested on 25,000 games, shoes, and tens of thousands of Hands or Spins in Baccarat or Roulette. IT HAS NOT LOST ONE SINGLE TIME. *FIVE-STAR BACCARAT Vegas Special.
