The thought leaders look at innovation from almost every angle; their statements offer an unparalleled view of innovation and provide a depth of insight that is extraordinary. Harrington and Voehl's reflection on each chapter and on the sections within the book provides useful links between themes and reinforces the relationships between many of the ideas. Anyone interested in innovation, practitioner or researcher, will benefit from this global thought collection. The contributors' multiple perspectives, models, practical examples, and stories provide a sense of innovation that no single writer could ever capture. A company's future growth will only come through successful innovation. This book is organized around Dr Harrington's innovation pyramid, which consists of the 16 building blocks required to bring about significant improvements in an organization's ability to deliver creative products. It highlights the principles and recommendations in ISO's new innovation standard 56002 and provides many new concepts that are not included in the standard. It includes a free, powerful and valuable online customized innovation maturity analysis. Following three unassailable facts will strike you as soon as you read this book:

1. Innovation is the new mantra, whether you're involved in a not-for-profit, for-profit service sector or governmental organization.
2. Understanding that innovation and creative activities penetrate into every part of an organization, requiring multiple perspectives that drive a new way of thinking and working that impacts the organization's culture, social operations, and commercial context that impacts the total organization and not just new products or services.
