Rampersad, Cindy B. Katz, 2023-05-25 A concise guide for clinicians and nurses offering real life replicable strategies to ensure the success of quality improvement projects Quality & Safety In

Anaesthesia Jonathan Secker-Walker, 1994-05-09 Audit was a buzz word of the late 80s and early 90s but in anaesthetic practice the important issues are quality of service and safety of the patient and audit is used to monitor and agree standards for these two. With contributions from leading figures in anaesthetic audit *Quality and Safety in Anaesthesia* describes the important work already done and addresses vital aspects such as risk management, resource management, standards and postgraduate training, critical incidents and human error, use of computers, design of equipment for safety and managing a department of anaesthesia. This book relates the process of quality assurance to the drive to improve the quality of anaesthetic practice. It should be useful for all those working or thinking about working in anaesthetic departments and will be revealing to all those with an interest in quality and audit.

Patient Safety and Quality Improvement in Anesthesiology and Perioperative Medicine Sally E. Rampersad, Cindy B. Katz, 2023-05-25 An accessible and richly illustrated guidebook to the most important methodologies and frameworks for improving safety and quality, written specifically for clinicians in anaesthesia and perioperative medicine. The book begins with chapters on design and the use of simulation to set the stage for successful quality improvement (QI) efforts, before providing an in-depth look at the individual tools, reporting and use of databases. The following chapters then discuss the use of these tools and theories in practical projects. Finally, the book considers the difficult topic of people communication and behaviour, importantly addressing the human factors that can make or break QI efforts. The book skilfully blends expert knowledge and valuable examples from years of experience and trials from varied providers to demonstrate the successful paths to improve patient outcomes. For clinicians, nurses and trainees in anaesthesia and perioperative medicine seeking tools and strategies to lead and participate in QI projects.

**Quality of Anesthesia Care, An Issue of Anesthesiology Clinics** Mark Neuman, Elizabeth Martinez, 2011-03-28 This issue on sex and gender comes at an opportune time as the DSM IV is being revised and in particular sex and gender issues are being reconsidered. This issue focuses on research in the area of gender variant children and transgender adolescents, assessment of several scenarios and clear information on practice parameters. Therapy for gender variant children and transgender adolescents is discussed in detail, as well as parents' perspectives, ethical, legal and non-discrimination issues, and education on these subjects. International standards of care are also discussed.
