Ray Smith,2024-06-11 The bombing of Pearl Harbor set off a chain of events that included the race to beat German scientists to build the atomic bomb A tiny hamlet tucked away in the southern Appalachians proved an unlikely linchpin to win the race The Manhattan Project required the combination of four secret sites Clinton Laboratories Y 12 K 25 and S 50 75 000 workers and the nation s finest scientists to create the Secret City Oak Ridge From the beginning the effort was aided by the nearby University of Tennessee which provided expertise to make the weapon possible Following World War II it was not clear what role this huge research and development program would play but pioneering scientists and administrators were determined that one option dismantling the whole thing would not happen **Critical Connections** chronicles how Oak Ridge National Laboratory ORNL the Y 12 National Security Complex and their partners became outstanding examples of the military industrial educational complex from the Cold War to the present day At the beginning of the 1950s Oak Ridge became a flourishing less secret city and the authors show how decade by decade ORNL became the source of major breakthroughs in physics biology computing and other fields and how these achievements required ever closer connections with UT By the mid 1990s after many successful joint initiatives between UT and ORNL UT was poised to compete to become the manager of ORNL In 2000 UT Battelle LLC won the bid from the Department of Energy UT was charged with providing scientific direction and key personnel its partner Battelle would oversee ORNL s operations and chart its technology direction The authors highlight the scientific developments these connections have brought from nanotechnology to nuclear fission from cryogenic experiments on mice to the world s fastest supercomputer The partnerships between a university a city and federal facilities helped solve some of the greatest challenges of the twentieth century and point toward how to deal with those of the twenty first *Critical Connections* ,1990
