Quantification in Cultural Anthropology Allen W. Johnson, 1978-06-01      **Ibss: Anthropology: 1978** International Committee for Social Science Information and Documentation, 1990-12-31 First published in 1981 Routledge is an imprint of Taylor Francis an informa company      *Fieldnotes* Roger Sanjek, 2019-06-30 Thirteen distinguished anthropologists describe how they create and use the unique forms of writing they produce in the field They also discuss the fieldnotes of seminal figures Frank Cushing Franz Boas W H R Rivers Bronislaw Malinowski and Margaret Mead and analyze field writings in relation to other types of texts especially ethnographies Unique in conception this volume contributes importantly to current debates on writing texts and reflexivity in anthropology      **Mixed Methods Research Outside the Box** Joseph A. Maxwell, 2024-11-22 In *Mixed Methods Research Outside the Box* Joseph A Maxwell shows readers how to carry out unconventional yet effective mixed methods research Providing a new way to think about and combine qualitative and quantitative research this readable text takes a broad view of mixed methods revealing the largely unrecognized early history of mixed methods research and its current diversity across disciplines Maxwell brings together work on combining qualitative and quantitative methods from a variety of disciplines and puts them in conversation with one another He identifies mixed methods philosophical bases presenting an interactive model of design that more closely integrates qualitative and quantitative elements and emphasizes the complementarity of qualitative and quantitative methods for understanding causation and generalization Drawing from recent works on causation integration and philosophy of science this text promotes innovations in mixed methods such as process tracing in political science and design based research in education This groundbreaking book provides readers with a new way of thinking about developing and conducting mixed methods research      The Psychosocial Wellness of Refugees Frederick L. Ahearn, Jr., 2000-04-01 In recent years scholars in the fields of refugee studies and forced migration have extended their areas of interest and research into the phenomenon of displacement human response to it and ways to intervene to assist those affected increasingly focusing on the emotional and social impact of displacement on refugees and their adjustment to the traumatic experiences In the process the positive concept of psychosocial wellness was developed as discussed in this volume In it noted scholars address the strengths and limitations of their investigations citing examples from their work with refugees from Afghanistan Cambodia Vietnam Palestine Cuba Nicaragua Haiti Eastern Europe Bosnia and Chile The authors discuss how they define psychosocial wellness as well as the issues of sample selection measurement reliability and validity refugee narratives and voices and the ability to generalize findings and apply these to other populations The key question that has guided many of these investigations and underlies the premise of this book is what happens to an ordinary person who has experienced an extraordinary event This volume also highlights the fact that those involved in such research must also deal with their own emotional responses as they hear victims tell of killing torture humiliation and dispossession The volume will therefore appeal to practitioners of

psychology psychiatry social work nursing and anthropology However its breadth and the evaluation of the strengths and disadvantages of both qualitative and quantitative methods also make it an excellent text for students *The Broken Hoe* David Uru Iyam,1995-06-15 In this study of the Biase a small ethnic group living in Nigeria s Cross River State David Uru Iyam attempts to resolve a long standing controversy among development theorists must Third World peoples adopt Western attitudes practices and technologies to improve their standard of living or are indigenous beliefs technologies and strategies better suited to local conditions The Biase today face social and economic pressures that seriously strain their ability to cope with the realities of modern Nigeria Iyam an anthropologist and a Biase examines the relationship between culture and development as played out in projects in local communities Western technologies and beliefs alone cannot ensure economic growth and modernization Iyam shows and should not necessarily be imposed on poor rural groups who may not be prepared to incorporate them neither however is it possible to recover indigenous coping strategies given the complexities of the postcolonial world A successful development strategy Iyam argues needs to strengthen local managerial capacity and he offers suggestions as to how this can be done in a range of cultural and social settings **The Social World of Jesus and the Gospels** Bruce J. Malina,2002-11 The Social World of Jesus and the Gospels provides the reader with a set of possible scenarios for reading the New Testament How did first century persons think about themselves and others Did they think Jesus was charismatic *The Emperor's Mirror* Russell J. Barber,Frances Berdan,1998-10 Russell J Barber and Frances F Berdan have created the ultimate guide for anyone doing cross cultural and or document driven research Presenting the essentials of primary source methodology The Emperor s Mirror includes nine chapters on paleography calendrics source and quantitative analysis and the visual interpretation of artifacts such as pictographs illustrations and maps As an introduction to ethnohistory this book clearly defines terminology and provides practical and accessible examples effectively integrating the concerns of historians and anthropologists as well as addressing the needs of anyone using primary sources for research in any academic field A leading theme throughout the book is the importance of a researcher s awareness of the inherent biases of documents while doing research on another culture Documents are the result of people interpreting reality through the filter of their own experience personality and culture Barber and Berdan s reality mediation model shows students how to analyze documents to detect the implicit biases or subtexts inherent in primary source materials Students and scholars working with primary sources will particularly appreciate the case studies that Barber and Berdan use to illustrate the practical implications of using each methodology These case studies not only apply method to actual research but also are fascinating in their own right they range from a discussion of the debate over Tupinamba cannibalism to the illustration of Nahuatl Spanish and hybrid place names of Tlaxcala Mexico Ethnosyntax : Explorations in Grammar and Culture N. J. Enfield,2002-07-04 This book provides a fresh and original approach to the ethnosyntax concept the proposition that the grammar of a language is intimately linked to the culture of its speakers It focuses on three related questions how

far culture accounts for linguistic variation how culture and grammar are connected and to what extent one may constitute the other It looks for example at the ways in which grammatical including semantic resources may be constrained by social values and at the possible sociocultural significance of grammatical devices The chapters add up to an important and timely contribution to the renewed debate among linguists and anthropologists on the relationship between grammar culture and cognition The authors represent a wide range of research traditions some of which have not until now explicitly addressed the grammar and culture issue They consider the subject in the context of a wide range of cultures in North America Europe and Australasia The clarity and accessibility of their writing together with Dr Enfield s introduction to the field make this not only a work of original value and impeccable scholarship but an excellent modern textbook on a subject of enduring fascination in linguistics and anthropology

**The Economics of Ecology, Exchange, and Adaptation** Donald C. Wood, 2016-09-08 This book consists of three sections The first concentrating on ecology further explores the theme of climate change The second section focuses on exchange transactions and relations in a variety of situations and settings Finally papers in the third section share a concern with individual and group adaptations to certain conditions of life

**Diasporas and Exiles** Howard Wettstein, 2002-10-07 Rarely have I encountered a collection of essays that coheres so well around an overarching theme This will be an important resource Hillel J Kieval author of *Languages of Community*

*Ethnography in Today's World* Roger Sanjek, 2014 In *Ethnography in Today's World* anthropologist Roger Sanjek addresses the essential practice and purpose of ethnography in ethnically diverse settings Drawing on decades of globe spanning fieldwork he examines how ethnographic fieldwork is and can be conceived conducted and communicated in today s interconnected world

**Money be Man** Kodjo Amedjorteh Senah, 1997 **Quantitative Anthropology** Leslie Lea Williams, Kylie Quave, 2019-03-21 *Quantitative Anthropology A Workbook* contributes an anthropological perspective to quantitative methods The book s authors address characteristics of quantitative data entering and manipulating data in SPSS graphical displays distributions and measures of central tendency and dispersion and including hypothesis testing with both parametric and nonparametric statistical tests Increasingly complex exercises build on cumulative learning from chapter to chapter and stress the application of methods beyond coursework The focus of the manual is on univariate statistical analysis and the book is written to be accessible to higher level undergraduate students and graduate students in all fields of anthropology

**Cultural Anthropology** Carol R. Ember, 1993 **Mushrooms in Forests and Woodlands** Anthony B. Cunningham, Xuefei Yang, 2012-06-25 Many mushrooms or the fruits of fungi are extremely valuable wild gathered products which are utilised for both their medicinal properties and as food In many of the world s tropical and temperate forests they are the primary source of income for the people who live there These forests range from temperate woodlands and small forests to high altitude forests in the Himalaya and tropical miombo woodlands in south central Africa In south west China over 200 species of wild fungi in 64 genera are commercially traded while in Europe and North America woodlands and small

forests are the source of many highly prized mushrooms and an essential resource for many small enterprises and collectors. Yet the increased demand for timber has resulted in the rapid expansion of forestry which in turn has destroyed the natural habitat of many fungi unbalancing both forest economics and ecology. Despite the economic, social and cultural values of fungi, there is a general lack of understanding of their importance to local livelihoods and forest ecology. This book aims to fill this gap and extends the People and Plants Conservation Series beyond the plant kingdom into the related world of fungi and mushrooms. It demonstrates the crucial roles that fungi play in maintaining forest ecosystems and the livelihoods of rural people throughout the world while providing good practice guidelines for the sustainable management of this resource and an assessment of economic value. It brings together the perspectives of biologists, anthropologists and forest and woodland managers to provide a unique interdisciplinary and international overview of the key issues.

**Handbook of Methods in Cultural Anthropology** H. Russell Bernard, Clarence C. Gravlee, 2014-07-08. The Handbook of Methods in Cultural Anthropology now in its second edition maintains a strong benchmark for understanding the scope of contemporary anthropological field methods. Avoiding divisive debates over science and humanism, the contributors draw upon both traditions to explore fieldwork in practice. The second edition also reflects major developments of the past decade, including the rising prominence of mixed methods, the emergence of new technologies and evolving views on ethnographic writing. Spanning the chain of research from designing a project through methods of data collection and interpretive analysis, the Handbook features new chapters on ethnography of online communities, social survey research and network and geospatial analysis. Considered discussion of ethics, epistemology and the presentation of research results to diverse audiences round out the volume. The result is an essential guide for all scholars, professionals and advanced students who employ fieldwork.

**Introduction to Social Research** Keith F. Punch, 2013-11-19. In the new edition of Introduction to Social Research, Keith Punch takes a fresh look at the entire research process from formulating a research question to writing up your research. Covering qualitative, quantitative and mixed methods, the book focuses on matching research questions to appropriate methods. Offering concise, balanced coverage, this book clearly explains the underlying principles of social research and shows you how to put this understanding into practice. The third edition includes a new chapter on literature searching and reviewing. Expanded coverage of ethics. A new section on using the internet in research. A range of additional student learning features. A brand new companion website including full text journal articles, additional case studies and video tutorials. Using a range of examples from student research and published work, the book is an ideal introduction for any social science student taking a research methods course or embarking on their own undergraduate or postgraduate research project.
