Storytime in India Helen Priscilla Myers, Umesh Chandra Pandey, 2019-06-14 An American ethnomusicologist and her Indian collaborator recount their experiences researching Bhojpuri wedding songs in India Stories are the backbone of ethnographic research During fieldwork subjects describe their lives through stories Afterward ethnographers come home from their journeys with stories of their own about their experiences in the field Storytime in India is an exploration of the stories that come out of ethnographic fieldwork Helen Priscilla Myers and Umesh Chandra Pandey examine the ways in which their research collecting Bhojpuri wedding songs became interwoven with the stories of their lives their work together and their shared experience reading The Eustace Diamonds by Anthony Trollope Moving through these intertwined stories the reader learns about the complete Bhojpuri wedding tradition through songs sung by Gangajali and access to the original song recordings and their translations In the interludes Pandey reads and interprets The Eustace Diamonds confronting the reader with the ever present influence of colonialism both in India and in ethnographic fieldwork Interwoven throughout are stories of the everyday highlighting the ups and downs of the ethnographic experience Storytime in India combines the style of the Victorian novel with the structure of traditional Indian village tales in which stories are told within stories This book questions how we can and should present ethnography as well as what we really learn in the field As Myers and Pandey ultimately conclude writers of scholarly books are storytellers themselves and scholarly books are a form of art just like the traditions they study

Numbered Sheet Music for 8-Note Steel Drum with Simple Traditional African Songs: Beginner's Level Helen Winter, The steel tongue drum and the handpan are percussion musical instruments designed to help you focus on your feelings sensations and body No previous training or skills are necessary to enjoy these fascinating instruments Playing drums can relieve stress and disappointment Because most tongue drums include and are tuned to involve the notes of the main octave all songs from this book are possible to play in one octave If you have less than one octave of keys on your drum you may need to skip some songs If you have more than 8 keys for example an 11 or 15 note handpan this book would be a great start to your drum experience Yet each tongue drum is very different and it is impossible to accommodate songs for all kinds of tongue drums in one music book This songbook was written to help the absolute beginner whether child or adult learn to play in a simple and easy way that requires no knowledge of reading music If you are a beginner playing by note can be difficult It is easier to follow number coded circles with note numbers In Africa singing always involves dancing so the emphasis is placed more firmly on rhythms than on melody or harmony Due to their clear rhythmic patterns African songs are an ideal material for any musician Its main task is not to be reproduced but to get everyone involved since music by definition is the expression of emotional states with the help of sounds of a certain frequency and rhythm An indication of the country of origin of the song in this tongue drum meditation music book is an approximation because many traditional cultures cross current national borders The language in which the song is sung is more important and it can be used in various countries Most songs have been simplified for adult beginners Since African music assumes improvisation and variation we recommend using this sheet music only as a guide The most important thing is to listen and repeat the recordings linked to the QR code
