**Military Institutions and Coercion in the Developing Nations** Morris Janowitz, 1988-02-29 This book includes Janowitz's seminal work *The Military in the Political Development of New Nations* with additional new analysis of Latin American nations and of the increasing significance of paramilitary and police forces in authoritarian regimes in developing nations

**The Postcolonial State in Africa** Crawford Young, 2012-11-20 A highly readable sweeping and yet detailed analysis of the African state in all its failures and moments of hope Crawford Young manages to touch upon all the important issues in the discipline and crucial developments in the recent history of the African continent This book will be a classic Pierre Englebert author of *Africa Unity Sovereignty and Sorrow*

**State-Directed Development** Atul Kohli, 2004-08-30 Why have some developing country states been more successful at facilitating industrialization than others An answer to this question is developed by focusing both on patterns of state construction and intervention aimed at promoting industrialization Four countries are analyzed in detail South Korea Brazil India and Nigeria over the twentieth century The states in these countries varied from cohesive capitalist mainly in Korea through fragmented multiclass mainly in India to neo patrimonial mainly in Nigeria It is argued that cohesive capitalist states have been most effective at promoting industrialization and neo patrimonial states the least The performance of fragmented multiclass states falls somewhere in the middle After explaining in detail as to why this should be so the study traces the origins of these different state types historically emphasizing the role of different types of colonialisms in the process of state construction in the developing world

*Coups from Below* J. Kande, 2004-11-26 *Coups from Below* represents the first major effort at studying coups carried out by the lumpen section or the subalterns of the armed forces of African states No previous study has attempted to examine coup making by those in the bottom ranks of the military as a distinct pattern of intervention in African studies Kande examines this pattern as broadly symptomatic of state failure especially the inability of political leaders to institutionalize power eradicate mass poverty and promote socioeconomic development

**Korea's Development Under Park Chung Hee** Hyung-A Kim, 2004-08-02 Based on personal interviews with the principal policy makers of the 1970s Korea's Development under Park Chung Hee examines how the president sought to develop South Korea into an independent autonomous sovereign state both economically and militarily Kim provides a new narrative in the complex task of exploring the paradoxical nature and effects of Korea's rapid development which maintains that any judgement of Park must consider his achievements in the socio economic cultural and political context in which they took place Aspects of Park's government analyzed include his abhorrence of Korea's reliance on the US presence the Korean model of state guided industrialization Park's rapid development strategy the role of the ruling elites Park's clandestine nuclear development program the heavy chemical industrialisation of the 1970s The prevailing popularity of Park in the eyes of the Korean public is significant and relevant to their acceptance of how their national development was achieved This book tells that story while simultaneously

recognizing the flaws in the process With a great deal of material never before published scholars of Korean politics and history at all levels will find this book a stimulating account of South Korea in the 1960s and 1970s **Kyrgyzstan Country Study Guide Volume 1 Strategic Information and Developments** IBP USA,2013-08 Kyrgyzstan Country Study Guide Strategic Information and Developments **Challenges to Democratic Governance in Developing Countries** Gedeon Mudacumura,Göktuğ Morçöl,2014-01-04 Despite the large amounts of human and financial resources invested to foster democratic governance in developing countries statistics show that the majority of these countries have not yet achieved significant improvements in living standards While some regions make strides towards improving the living conditions of their citizens Sub Saharan Africa for instance is still trapped in poverty with more than 40% of its 600 million people living below the internationally recognized absolute poverty line of one US dollar per day Poor governance and corruption should be highlighted as the most important systemic factors contributing to poverty in developing countries As a result the institutional foundations of these countries are weakened public funds are misappropriated and policies and programs aimed at reducing poverty and fostering sustainable economic growth are undermined It is therefore not surprising that a 2008 Transparency International report found a direct link between corruption and the failure of the societal institutions designed to achieve the Millennium Development Goals in the majority of developing countries This book investigates the problems of democratic governance particularly as they relate to corruption and also whether democracy should be based on universal principles or local context and historical factors It also analyses the rule of law in promoting democratic governance and curbing corruption and if governmental non governmental organizations and civil societies are effective in promoting democratic governance and curbing corruption This book will go beyond identifying the challenges and offer plausible solutions that could be adapted to various developing countries It is premised on the importance of bridging theory and practice which has been lacking in most local and international development publications making of interest to scholars and policy makers alike concerned with public administration in developing countries **Rank and Privilege** Linda A. Rodriguez,1997-08-01 Dr Linda A Rodr\_guez has assembled a new collection of essays that finally provides the historical context necessary to understand the Latin American military The articles included here examine a variety of time periods and nations from the counterinsurgency army of New Spain to the nineteenth century War of the Pacific to the modern relationship between the military and development The contributors look at the ways in which Latin America s armed forces have changed over time and how external threats as well as internal rivalries have shaped the military Together these essays trace the roots of the military s power and the growth of its political influence *Introduction to the Sociology of Development* Andrew Webster,1990-03-01 This text provides a comprehensive introduction to the latest debates in the sociology of development linking theoretical and empirical issues of social change primarily though not exclusively through reference to the Third World This book covers general conceptions of modernisation and underdevelopment and points to

new attempts at their synthesis as well as exploring the policy implications of different development models

Socio-Economic Development Adam Szirmai, 2015-06-18 Taking a comparative and multidisciplinary approach this textbook offers a non technical introduction to the dynamics of socio economic development and stagnation *Pakistan Intelligence, Security Activities and Operations Handbook - Strategic Information and Developments* IBP, Inc., 2013-08

*Pakistan Intelligence Security Activities Operations Handbook* **Political Fragility: Coups D'État and Their Drivers**

Aliona Cebotari, Enrique Chueca-Montuenga, Yoro Diallo, Yunsheng Ma, Ms. Rima A Turk, Weining Xin, Harold Zavarce, 2024-02-16 The paper explores the drivers of political fragility by focusing on coups d'état as symptomatic of such fragility. It uses event studies to identify factors that exhibit significantly different dynamics in the runup to coups and machine learning to identify these stressors and more structural determinants of fragility as well as their nonlinear interactions that create an environment propitious to coups. The paper finds that the destabilization of a country's economic political or security environment such as low growth high inflation weak external positions political instability and conflict set the stage for a higher likelihood of coups with overlapping stressors amplifying each other. These stressors are more likely to lead to breakdowns in political systems when demographic pressures and underlying structural weaknesses especially poverty exclusion and weak governance are present or when policies are weaker through complex interactions. Conversely strengthened fundamentals and macropolicies have higher returns in structurally fragile environments in terms of staving off political breakdowns suggesting that continued engagement by multilateral institutions and donors in fragile situations is likely to yield particularly high dividends. The model performs well in predicting coups out of sample having predicted a high probability of most 2020-23 coups including in the Sahel region. Soldiers and Students Rob Kroes, 2023-08-18

*Soldiers and Students* 1975 adopts an original approach to the confrontation of deprived and possessing parties under conditions of scarcity. With reference to the course of conflict the actions of the competing parties are shown to be interlinked yet the difference between their strategies are clearly defined. Right wing radicalism is treated through a study of military intervention in domestic politics left wing radicalism through analysis of student radicalism. The case studies are centred on recent Dutch history but the theoretical perspective underlying the argument is essentially comparative. Thus Dutch military responses to the decolonisation of Indonesia serve to illustrate the strategies of a military apparatus on the brink of politicisation radicalism among Dutch students in the sixties offers the empirical reference for the analysis of left wing radicalism. *Indonesia Country Study Guide Volume 1 Strategic Information and Developments* IBP, Inc, 2013-08-01
