**Rapanui A Descriptive Grammar:**

*Rapanui* Veronica du Feu,2012-11-12 Rapanui the language of Easter Island is in danger of extinction A Polynesian language closely related to Maori it is spoken by less than 2000 people This description based on recordings made in the 1980s and on information provided by the islanders represents Veronica De Feu s determination to recored the language before it dies out All linguistic aspects are covered the syntax morphology phonology and lexicon of the language Just as importantly it has been structured in such a way as to facilitate cross language comparisons There are over 800 illustrative sentences each accompanied by interlinear grammatical analysis and translation It also contains a Rapanui folk tale in both the original and English This descriptive grammar provides a new look at the whole structure of Rapanui As a source of vocabulary it goes beyond any previously available dictionaries **A Grammar of Rapa Nui** Paulus Kieviet, This book is a comprehensive description of the grammar of Rapa Nui the Polynesian language spoken on Easter Island After an introductory chapter the grammar deals with phonology word classes the noun phrase possession the verb phrase verbal and nonverbal clauses mood and negation and clause combinations The phonology of Rapa Nui reveals certain issues of typological interest such as the existence of strict conditions on the phonological shape of words word final devoicing and reduplication patterns motivated by metrical constraints For Polynesian languages the distinction between nouns and verbs in the lexicon has often been denied in this grammar it is argued that this distinction is needed for Rapa Nui Rapa Nui has sometimes been characterised as an ergative language this grammar shows that it is unambiguously accusative Subject and object marking depend on an interplay of syntactic semantic and pragmatic factors Other distinctive features of the language include the existence of a neutral aspect marker a serial verb construction the emergence of copula verbs a possessive relative construction and a tendency to maximise the use of the nominal domain Rapa Nui s relationship to the other Polynesian languages is a recurring theme in this grammar the relationship to Tahitian which has profoundly influenced Rapa Nui especially deserves attention The grammar is supplemented with a number of interlinear texts two maps and a subject index Words Out of Wood M. de Laat,2009 Two dozen or so wooden tablets discovered on Easter Island late in the nineteenth century are all that remain of rongorongo a series of glyphs thought to be the writing system of the island s lost people In Words Out of Wood M de Laat explores the construction and use of these enigmatic figures and makes a compelling case that rongorongo despite its resistance to decipherment constitutes nothing less than a fully developed script Reproduced here in clear full page illustrations the glyphs stand alongside the great moai statues as lasting monuments of the inventiveness and artistry of the remote Pacific island **The World Atlas of Language Structures** Martin Haspelmath,2005-07-21 The World Atlas of Language Structures is a book and CD combination displaying the structural properties of the world s languages 142 world maps and numerous regional maps all in colour display the geographical distribution of features of pronunciation and grammar such as number of vowels tone systems gender plurals tense word

order and body part terminology Each world map shows an average of 400 languages and is accompanied by a fully referenced description ofthe structural feature in question The CD provides an interactive electronic version of the database which allows the reader to zoom in on or customize the maps to display bibliographical sources and to establish correlations between features The book and the CD together provide an indispensable source of information for linguists and others seeking to understand human languages The Atlas will be especially valuable for linguistic typologists grammatical theorists historical and comparative linguists and for those studying a region such as Africa Southeast Asia North America Australia and Europe It will also interest anthropologists and geographers More than fifty authors from many different countries have collaborated to produce a work that sets new standards in comparative linguistics No institution involved in language research can afford to bewithout it     Popular Controversies in World History Steven L. focuses on the latest era of Pacific history examining the period from 1800 to the present day This volume discusses advances and emerging trends in the historiography of the colonial era before outlining the main themes of the twentieth century when the idea of a Pacific centred century emerged It concludes by exploring how history and the past inform preparations for the emerging challenges of the future These essays emphasise the importance of understanding how the postcolonial period shaped the modern Pacific and its historians **Educación Intercultural en Chile** Ernesto Treviño,Liliana Morawietz,Cristóbal Villalobos,Esteban Villalobos,2017 Es la condici n tnica un factor relevante en la configuraci n de la inequidad y desigualdad en el sistema escolar chileno C mo dicho sistema se est transformando para reconocer incluir y valorar las diferencias culturales Qu relaci n est n estableciendo las poblaciones ind genas con las pol ticas y programas educativos C mo est n evolucionando los procesos de ense anza en estos espacios interculturales Hoy somos testigos de vertiginosos cambios culturales y sociales en la sociedad chilena los que sin lugar a dudas han promovido importantes reformas a la educaci n y los sistemas educativos Es en ese escenario donde las preguntas planteadas adquieren una relevancia clave en la construcci n de un sistema escolar de calidad inclusivo y justo Adem s la implementaci n de diversas pol ticas educativas centradas en pueblos ind genas en las ltimas d cadas hacen necesario examinar c mo se relacionan los modelos educativos sus programas y pol ticas con estas nuevas din micas y perspectivas multiculturales Con una visi n multidisciplinaria multi tnica y multidimensional de este fen meno Educaci n Intercultural en Chile Experiencias pueblos y territorios busca ser un aporte en la discusi n acad mica pol tica y social para el desarrollo de mejoras al sistema educativo A trav s de un examen y revisi n cr tica de los contextos hist ricos el desarrollo de pol ticas p blicas la segregaci n de estudiantes ind genas y la revisi n de experiencias nacionales e internacionales sobre el tema el libro invita a una profunda reflexi n sobre c mo nos estamos relacionando desde una perspectiva educativa con los pueblos ind genas **The Oceanic Languages** John Lynch,Malcolm Ross,Terry Crowley,2002 The volume contains five background chapters The Oceanic Languages Sociolinguistic Background Typological Overview Proto Oceanic and Internal Subgrouping Part of 2 vol set Author Ross from ANU **Linguistic Analysis** Annarita Puglielli,Mara Frascarelli,2011-03-29 This book reconsiders the classic topics of linguistic analysis and reflects on universal aspects of language from a typological and comparative perspective The aim is to show the crucial interactions which occur at the different levels of grammar phonology morphology lexicon syntax and pragmatics illustrating their various roles in the structural organization of the sentence and exploring how interface relations contribute to yield interpretation in typologically different languages The structural analysis is set within the Generative framework of grammar though theoretical tenets are the outcome rather than the starting point of a study based on the observation of data As the basic intent is to show different phenomena across a wide range of languages a semi guided method has been adopted in order to facilitate comprehension and assist the reader in the identification of language universals For every topic the discussion of previous literature is followed by cross linguistic evidence so that theory can be

checked against data and the relevant generalizations drawn Ultimately this approach reveals that grammar is based on a very limited number of universal principles which operate yielding different effects at the different levels of the grammar It implies that a real understanding of the language system can only be derived from a comparative analysis in which the notion of interface plays a crucial role The seven chapters in the volume deal with categories and functions argument structure syntactic functions the structure of noun phrases adverbial modification information structure and illocutive force Throughout the observation of data from 74 languages is a crucial element in the formulation and understanding of theoretical tenets This book is highly recommended for researchers and students interested in formal analysis from a typological comparative perspective *Exploring Structures in Languages and Language Contact* Nataliya Levkovych,Julia Nintemann,Maike Vorholt,2025-06-02 The contributions of this volume offer fresh insights into different aspects of grammatical structures Language contact is the primary focus of several contributions addressing various aspects of this topic including lexical borrowings creole languages and other contact effects Ranging from typological perspectives on grammatical structures to individual case studies the volume sheds light on the complex processes underlying linguistic diversity worldwide *Language and Political Subjectivity* Miki Makihara,Juan L. Rodríguez,2025-07-01 Politics and power are understood as interconnected yet opposed forms of agency that do not exist without each other and depend on transgressions and the upholding of social boundaries Language and Political Subjectivity is an ethnographic and historical piece of research that considers how Indigenous and diasporic communities with their political subjectivities expand over significant sociohistorical changes debates and struggles in the transformation of Chilean democracy and Venezuela s Bolivarian Revolution It offers an innovative approach to stancemaking as a rhetorical semiotic process that produces truth beliefs and certainties about social realities and relations **The polyfunctionality of 'still' expressions** Bastian Persohn,2024-06-28 Expressions from the semasiological domain of phasal polarity still already etc tend to be highly polyfunctional with their various uses often extending into a wide range of other linguistic domains both time related and non temporal Yet these patterns have hitherto been investigated mostly for individual languages or smaller groups This volume presents the first ever larger scale survey of the numerous functions of expressions whose meanings include the notion of still making use of a global sample of 76 varieties from 45 distinct phyla It is aimed at semanticists typologists and descriptive grammarians alike **Pacific Linguistics** Margaret Mutu,Ben Teìkitutoua,2002 **Standard Negation** Matti Miestamo,2008-08-22 This book is the first cross linguistic study of clausal negation based on an extensive and systematic language sample Methodological issues especially sampling are discussed at length Standard negation the basic structural means languages have for negating declarative verbal main clauses is typologized from a new perspective paying attention to structural differences between affirmatives and negatives In symmetric negation affirmative and negative structures show no differences except for the presence of the negative marker s whereas in asymmetric negation there are further structural

differences i e asymmetries A distinction is made between constructional and paradigmatic asymmetry in the former the addition of the negative marker s is accompanied by further structural differences in comparison to the corresponding affirmative and in the latter the correspondences between the members of verbal etc paradigms used in affirmatives and negatives are not one to one Cross cutting the constructional paradigmatic distinction asymmetric negation can be further divided into subtypes according to the nature of the asymmetry Standard negation structures found in the 297 sample languages are exemplified and discussed in detail The frequencies of the different types and some typological correlations are also examined Functional motivations are proposed for the structural types symmetric negatives are language internally analogous to the linguistic structure of the affirmative and asymmetric negatives are language externally analogous to different asymmetries between affirmation and negation on the functional level Relevant diachronic issues are also discussed The book is of interest to language typologists descriptive linguists and to all linguists interested in negation **Word** ,2005
