Foucault, Feminism, and Sex Crimes Chloë Taylor, 2018-10-08 This book brings together Foucault's writings on crime and delinquency on the one hand and sexuality on the other to argue for an anti carceral feminist Foucauldian approach to sex crimes The

author expands on Foucault's writings through intersectional explorations of the critical race decolonial critical disability queer and critical trans studies literatures on the prison that have emerged since the publication of *Discipline and Punish* and *The History of Sexuality*. Drawing on Foucault's insights from his genealogical period, the book argues that those labeled as sex offenders will today be constructed to re-offend twice over once in virtue of the delinquency with which they are inculcated through criminological discourses and in the criminal punishment system and second in virtue of the manners in which their sexual offense is taken up as an identity through psychological and sexological discourses. The book includes a discussion of non retributive responses to crime including preventative redistributive restorative and transformative justice. It concludes with two appendixes: the original 19th century medico legal report on Charles Jouy and its English translation by the author Foucault. *Feminism and Sex Crimes* will be of interest to feminist philosophers, Continental philosophers, Women's and Gender Studies scholars, social and political theorists, as well as social scientists and social justice activists. **One**

Night Cathy Winkler, 2002-05-07 One night anthropologist Cathy Winkler awoke from a deep sleep to discover a rapist standing by her bed. For the rest of that night she lived a woman's worst nightmare as she was repeatedly raped and beaten by the stranger. The event changed her life into something resembling a Kafka novel: a justice system that bungled the case then blamed the victim; a social service system that provided no services or comfort; uneasy and awkward friends; exploitative media; and insensitive university administrators and colleagues. The pain of those four hours was dwarfed by the frustration of her decade-long fight to find the rapist and bring him to justice, ultimately through one of the first successful uses of DNA evidence in a rape case. Winkler, a brilliant observer and ethnographer, chronicles this struggle here, including her own growing awareness of her power to stare down district attorneys to use the media to her own ends, including segments on 48 Hours and Court TV, and ultimately through her persistence to put the rapist behind bars for life. As a story of triumph over adversity, *One Night* is an inspirational work. And it provides a model of how researchers can turn the lens inward and incisively examine ourselves and our own world. **Haunting Violations** Wendy Hesford, Wendy Kozol, 2000-11-30

Feminist critics place a premium on the real stories told by the victimized and the oppressed. *Haunting Violations* offers a corrective to such uncritical acceptance of the real in confessional testimonial and ethnographic narratives. Through close readings of a wide variety of texts, contributors argue that depictions of the real are inherently performative, crafted within the limits and in the interests of specific personal, political, or social projects. *Haunting Violations* explores the inseparability of discourse and politics in quasi-autobiographical works such as *I Rigoberta Menchú* and *When Heaven and Earth Changed Places*. Contributors consider how the Sri Lankan Mother's Front movement exploits the sanctity of the maternal and how multiple political purposes on both sides bleed through government documentary photographs of Japanese American concentration camp internees. This volume also investigates how South Asian feminists use the authority of their personal experience to critique the film *Mississippi Masala* and how realist narratives such as Janet Campbell Hale's autobiographical *Bloodlines*

Margie Strosser's documentary film *Rape Stories* and Shekhar Kapur's film *Bandit Queen* reexamine how assumptions about power and trauma are embedded in the promise of the real

Mad, Bad, and Sad: A History of Women and the Mind Doctors Lisa Appignanesi, 2009-08-31 A work of wit wisdom and richness A grand tour of derangement from matricide to anorexia John Leonard Harper's This fascinating history of mind doctors and their patients probes the ways in which madness badness and sadness have been understood over the last two centuries Lisa Appignanesi charts a story from the days when the mad were considered possessed to our own century when the official psychiatric manual lists some 350 mental disorders Women play a key role here both as patients among them Virginia Woolf Sylvia Plath and Marilyn Monroe and as therapists Controversially Appignanesi argues that women have significantly changed the nature of mind doctoring but in the process they have also inadvertently highlighted new patterns of illness

Violence against Women under International Human Rights Law Alice Edwards, 2010-12-23 Since the mid 1990s increasing international attention has been paid to the issue of violence against women However there is still no explicit international human rights treaty prohibition on violence against women and the issue remains poorly defined and understood under international human rights law Drawing on feminist theories of international law and human rights this critical examination of the United Nations legal approaches to violence against women analyses the merits of strategies which incorporate women's concerns of violence within existing human rights norms such as equality norms the right to life and the prohibition against torture Although feminist strategies of inclusion have been necessary as well as symbolically powerful for women the book argues that they also carry their own problems and limitations prevent a more radical transformation of the human rights system and ultimately reinforce the unequal position of women under international law

Ordinary Violence Mary White Stewart, 2014-01-27 Addresses the many forms of global violence against women and shows how the psychology of individuals institutions and societies perpetuate the oppression of women In this eye opening study the author asserts that institutionalized definitions of masculinity and femininity along with the social and economic inequality among the sexes help perpetuate the daily and deadly violence against women all across the world This second edition of a classic work examines the latest discussions on gender relations including the current debate over whether prostitution and pornography should be deemed inherently violent and the role of western countries in the global response to violence against women
