Foundations of our Faith B. Lightsey, 2019-08-14 I am part of a vast ocean of Christians that view the Word of God through a different set of eyes than those of many pastors professors and church staff members I have interest in the deep theology of scripture and recognize my need to be exposed to and covered by the Word of God similar to that of my called brothers in Christ Yet I want it delivered to me in a simple worker s language Recent translations have strived toward this end and have made headway Yet the finished product is still from scholars that often describe the original transcripts from a theological standpoint rather than a worker s standpoint The Eastern Standard Version ESV published in 2001 was written to carefully weigh accuracy against the original Hebrew Aramaic and Greek scrolls It stands as one of the better accepted of sound English Bible Translations Because of its wide acceptance I have used this translation for my resource I have certainly considered a host of opinions and writings of a host of scholars but my source of authenticity has always been God s Word In writing this book I strongly encourage our religious leaders to go back to the reading writing and arithmetic basics of God s Word Just as I believe we need to get back to the basics in educating our children in school in reading writing and arithmetic we also need to get back to the reading writing and arithmetic basics in educating God s people in church Perhaps such consideration is out of touch with the advanced theology of today As a layman not an ordained or seminary graduate I might be considered a doctrine dummy This book entitled *Doctrine for Dummies* is written for this vast ocean of people We are not dummy people but we are somewhat hindered in our study by deep theological doctrine This book tries to take us back to reading writing and arithmetic doctrine

Rapture Christopher Hamilton, 2024-04-16 What is it like to experience rapture For philosopher Christopher Hamilton it is a loss of self that is also a return to self an overflowing and emptying out of the self that also nourishes and fills the self In this inviting book he reflects on the nature of rapture and its crucial yet unacknowledged place in our lives Hamilton explores moments of rapture in everyday existence and aesthetic experience tracing its disruptive power and illuminating its philosophical significance Rapture is found in sexual love and other forms of intense physical experience such as Philippe Petit s nerve defying wire walk between the Twin Towers Hamilton also locates it in quieter but equally joyous moments such as contemplating a work of art or the natural world He considers a range of examples in philosophy and culture Nietzsche and Weil Woolf and Chekhov the extremes of experience in Werner Herzog s films as well as aspects of ordinary life from illness to gardening Conversational and evocative this book calls on us to ask how we might make ourselves more open to experiences of rapturous joy and freedom
