**Jennifer Lees-Marshment**

## **Rational Advance For The Labour Party:**

The Labour Party's Economic Strategy, 1979-1997 R. Hill, 2001-09-26 The book considers Labour's economic strategy as it developed through the party's long period of opposition between 1979 and 1997. This history argues strongly that accounts of Labour's recent past which claim that the Party was driven by a combination of Thatcherism and opinion polls are flawed. It offers an alternative account which stresses the importance of debates within and around the Party about how the economy should be understood, the role of markets and the state, and British industrial decline. **Labour's Renewal?**

Gerald R. Taylor, 2016-07-27 This is an important critical assessment of Labour's periods of renewal and modernisation. Beginning with an in-depth analysis of the Policy Review of 1987-92, the author then considers how the lessons of this period influenced the Commission on Social Justice instigated by John Smith and Tony Blair's reform of Clause IV. These events are considered as attempts to resolve traditional problems facing the Labour Party; the abiding legacy and importance of these fundamental problems is assessed. **Futures of Socialism** Colm Murphy, 2023-06-08 The transformation of the Labour Party by 1997 is among the most consequential political developments in modern British history. *Futures of Socialism* overhauls the story of Labour's modernisation and provides an innovative new history. Diving into the tumultuous world of the British left after 1973, rocked by crushing defeats, bitter schisms, and ideological disorientation, Colm Murphy uncovers competing intellectual agendas for modern socialism. Responding to deindustrialisation, neoliberalism, and constitutional agitation, these visions of modernisation ranged across domestic and European policy and the politics of class, gender, race, and democracy. By reconstructing the sites and networks of political debate, the book explains their changing influence inside Labour. It also throws new light on New Labour, highlighting its roots in this social democratic intellectual maelstrom. *Futures of Socialism* provides an essential analysis of social democracy in an era of market liberalism and of the ideas behind a historic political reconstruction that remains deeply controversial today. Psychological socialism Jeremy

Nuttall, 2013-07-19 To Labour's first Prime Minister Ramsay MacDonald, socialism meant not only satisfactory figures of death rates and improved houses, but also the mental cleanliness, the moral robustness of our people. This book explores the neglected theme of individual character and mental qualities in British social democratic thought and Labour Party history. How important was it for the centre left that citizens be good people? What was the relationship between socialism and psychology in the 1930s? Did Labour's technocratic statist socialism of the 1950s and 1960s downgrade moral and mental progress? Why was the party often more concerned to produce a rationally planned economy than rational, independent-minded citizens? Does New Labour represent a sidelining of ethical socialism, or a re-birth of the pre-war left's belief in improvement through education and self-control? **Labour and the left in the 1980s** Jonathan Davis, Rohan

McWilliam, 2017-12-11 This volume of essays constitutes the first history of Labour and left-wing politics in the decade when Margaret Thatcher reshaped modern Britain. Leading scholars explore aspects of left-wing culture, activities, and ideas at a

time when social democracy was in crisis There are articles about political leadership economic alternatives gay rights the miners strike the Militant Tendency and the politics of race The book also situates the crisis of the left in international terms as the socialist world began to collapse Tony Blair s New Labour disavowed the 1980s left associating it with failure but this volume argues for a more complex approach Many of the causes it championed are now mainstream suggesting that the time has come to reassess 1980s progressive politics despite its undeniable electoral failures With this in mind the contributors offer ground breaking research and penetrating arguments about the strange death of Labour Britain

*For the Sake of Argument* Christopher Hitchens,1993 For the sake of argument one must never let a euphemism or a false consolation pass uncontested The truth seldom lies but when it does lie it lies somewhere in between The global turmoil of the last few years has severely tested every analyst and commentator Few have written with such insight as Christopher Hitchens about the large events or with such discernment and with about the small tell tale signs of a disordered culture For the Sake of Argument ranges from the political squalor of Washington as a beleaguered Bush administration seeks desperately to stave off disaster and Clinton prepares for power to the twilight of Stalinism in Prague from the Jewish quarter of Damascus in the aftermath of the Gulf War to the embattled barrios of Central America and the imperishable resistance of Saralevo as a difficult peace is negotiated with ruthless foes Hitchens unsparing account of Western realpolitik in the end shows it to rest on delusion as well as deception The reader will find in these pages outstanding essays on political assassination in America as well as a scathing review of the evisceration of politics by pollsters and spin doctors Hitchens knowledge of the tortuous history of revolutions in the twentieth century helps him to explain both the New York intelligentsia s flirtation with Trotskyism and the frailty of Communist power structures in Eastern Europe Hitchens pointed reassessments of Graham Greene P G Wodehouse and C L R James or his riotous celebration of drinkiness and smoking display an engaging enthusiasm and an acerbic wit Equally entertaining is his unsparing rogues gallery which gives us unforgettable portraits of the lugubrious Dr Kissinger the comprehensively reactionary Mother Teresa the preposterous Paul Johnson and the predictable P J O Rourke

**Rethinking Labour's Past** Nathan Yeowell,2022-01-13 The Labour Party after Jeremy Corbyn is charting a new direction Here Nathan Yeowell has brought together a remarkable array of contributors to provide expert insight into twentieth century British history and Labour politics and how they might shape thinking about Labour s future Reframing the span of Labour history and its effects on contemporary British politics the book provides fresh thinking and analysis of various traditions themes and individuals These include the shifting significance of 1945 the need for more grounded interpretations of Tony Blair s legacy and the enduring importance of place identity and aspiration to the evolution of the party Contributions from leading historians such as Patrick Diamond Steven Fielding Ben Jackson Glen O Hara and Florence Sutcliffe Braithwaite are supplemented by those with experience of Labour electoral politics such as Rachel Reeves and Nick Thomas Symonds The result is an intellectually rich and politically relevant roadmap for Labour s future

**The Labour**

**Party B.** Brivati,R. Heffernan,2000-05-08 On 27 February 1900 the Labour Representation Committee was formed to campaign for the election of working class representatives to parliament One hundred years on Labour is in government with an overwhelming majority This book is a unique opportunity both to celebrate and assess critically the Labour Party's role in shaping events of the twentieth century It brings together academics from a variety of disciplines to examine the history of the Party's development Each chapter includes contributions in the form of commentary and analysis from former Labour leaders cabinet ministers and backbench MPs Contributors include Michael Foot Denis Healey David Owen Keith Laybourn Robert Taylor Steve Ludlam Nick Ellison Clare Short and Austin Mitchell among others

**The British National Bibliography** Arthur James Wells, 1968

**The Labour Church** Jacqueline Turner, 2018-02-28 The Labour Church was an organisation fundamental to the British socialist movement during the formative years of the Independent Labour Party ILP and Labour Party between 1891 and 1914 It was founded by the Unitarian Minister John Trevor in Manchester in 1891 and grew rapidly thereafter Its political credentials were on display at the inaugural conference of the ILP in 1893 and the Labour Church proved a formative influence on many pioneers of British socialism This book provides an analysis of the Labour Church its religious doctrine its socio political function and its role in the cultural development of the early socialist arm of the labour movement It includes a detailed examination of the Victorian morality and spirituality upon which the life of the Labour Church was built Jacqui Turner challenges previously held assumptions that the Labour Church was irreligious and merely a political tool She provides a new cultural picture of a diverse and inclusive organisation committed to individualism and an individual relationship with God As such this book brings together two major controversies of late Victorian Britain the emergence of independent working class politics and the decline of traditional religion in a work which will be essential reading for all those interested in the history of the labour movement

**Introducing Comparative Politics** Stephen Orvis, Carol Ann Drogus, 2020-01-07 The graphics in the book are extremely reader friendly The language is clear and easy for students to follow Instructor resources are quite helpful and a key part of my decision making Overall this is the best comparative politics text for undergrads that I have found It covers all the important topics in the field and presents them in a way that is accessible to students

Laura N Bell West Texas A M University Organized thematically around important questions in comparative politics who rules what explains political behavior where and why

**Introducing Comparative Politics Fifth Edition** integrates a set of extended case studies of 11 countries that vividly illustrate issues in cross national context Serving as

touchstones the cases are placed within the chapters where they make the most sense not separated from the theory or in a separate volume helping students make connections between the two earlier in the semester The book's hybrid organization gives students a more holistic view of comparative politics A Complete Teaching Learning Package LMS Cartridge formally known as SAGE Coursepacks Import this title's instructor resources into your school's learning management system LMS and save time Don't use an LMS You can still access all of the same online resources for this title via the password protected Instructor Resource Site SAGE Edge FREE online resources for students that make learning easier SAGE course outcomes Measure Results Track Success Outlined in your text and mapped to chapter learning objectives SAGE course outcomes are crafted with specific course outcomes in mind and vetted by advisors in the field See how SAGE course outcomes tie in with this book's chapter level objectives

**Advanced Macroeconomics** Patrick Minford, David Peel, 2019 This is a newly revised second edition of a key macroeconomic textbook After explaining the historical development of the subject they show how rational expectations are handled in macro models The importance of structural micro founded models is explained with key examples of such structural models examined in detail and with extensions to the open economy policy implications are highlighted throughout Methods for testing these models against macro data behaviour are explained detailing the latest evidence on these models success

**Political Marketing and British Political Parties** Jennifer Lees-Marshment, 2001 Demonstrates how British political parties have begun to use comprehensive political marketing in order to gain electoral success They conduct focus groups and opinion polls in an attempt to elicit what voters want from them and then try to adjust their behaviors accordingly

**Statecraft and Liberal Reform in Advanced Democracies** Nils Karlson, 2017-09-04 This book explains how advanced democracies and welfare states can achieve welfare enhancing liberal institutional reform It develops a general theory based on an extended comparative case study of Sweden and Australia over the last 25 years and offers an in depth contribution to the field of institutional change explaining how to govern a country well and how to overcome different barriers to reform such as special interests negativity biases and media logic It develops the concepts of the reform cycle reform strategies and polycentric experiential learning in order to explain successful reforms and the key role of policy entrepreneurs who introduce and develop new ideas The book further examines why these reforms came to an end Karlson also applies the ideas of Popperian Kuhnian and Machiavellian reform strategies and explains why they are needed for reform to come about The theory of modern statecraft presented here involves a combination of knowing what and knowing how It has the potential to be generally applicable in any advanced democracy with the ambition to improve its economy and society This book is of interest for anyone who is concerned about budget deficits slow growth over regulation lack of structural reforms and the rise of populism It will appeal to scholars of political science public policy and political economy
