Reading German: Music Jörg Matthias-Roche, 2000 The Reading German texts and CD ROM materials were developed to aid students in acquiring a reading knowledge of German Through the use of these materials students are expected to obtain a level of proficiency sufficient for understanding scientific and scholarly material written in German The course is divided into two levels Reading German Introduction is an introductory course that covers reading strategies reading grammar resources and basic vocabulary It leads to a second year reading knowledge of German in 12 weeks The Humanities Business Economics Chemistry and Music books lead to a reading knowledge of German comparable to fourth year language courses and teach highly specialised language skills in the student

s individual area of interest The CD ROM incorporates guided and independent study sections that deal with topics from Reading German Introduction and fosters autonomous learning The programs are designed to make efficient use of the students subject matter knowledge thus enabling them to deal with challenging and highly relevant topics from the beginning without the prerequisite 2 3 years of very basic language commonly taught in introductory courses As well the programs accommodate five different levels of text difficulty to suit the German language skills of individual students The course materials encourage students to learn at their own pace and progress faster to higher levels of proficiency than is otherwise achieved through traditional reading courses

German Music Criticism in the Late Eighteenth Century

Mary Sue Morrow,1997-09-18 Music aesthetics in late eighteenth century Germany has always been problematic because there was no aesthetic theory to evaluate the enormous amount of high quality instrumental music produced by composers like Haydn and Mozart This book derives a practical aesthetic for German instrumental music during the late eighteenth century from a previously neglected source reviews of printed instrumental works At a time when the theory of mimesis dominated aesthetic thought leaving sonatas and symphonies at the very bottom of the aesthetic hierarchy a group of reviewers were quietly setting about the task of evaluating instrumental music on its own terms The reviews document an intersection with trends in literature and philosophy and reveal interest in criteria like genius the expressive power of music and the necessity of unity several decades earlier than has previously been supposed
