The Limits of Lockean Rights in Property Gopal Sreenivasan,1995-09-14 This book discusses Locke s theory of property from both a critical and an interpretative standpoint The author first develops a comprehensive interpretation of Locke s argument for the legitimacy of private property and then examines the extent to which the argument is really serviceable in defense of that institution He contends that a purified version of Locke s argument one that adheres consistently to the logic of Locke s text while excluding considerations extraneous to his logic actually does establish the legitimacy of a form of private property This version which is both defensible in contemporary secular terms and is essentially egalitarian should provoke a reassessment of the nature of Locke s relevance to contemporary discussions of distributive justice

Liberty, Desert and the Market Serena Olsaretti, 2004-09-23 Are inequalities of income created by the free market just In this book Serena Olsaretti examines two main arguments that justify those inequalities the first claims that they are just because they are deserved and the second claims that they are just because they are what free individuals are entitled to Both these arguments purport to show in different ways that giving responsible individuals their due requires that free market inequalities in incomes be allowed Olsaretti argues however that neither argument is successful and shows that when we examine closely the principle of desert and the notions of liberty and choice invoked by defenders of the free market it appears that a conception of justice that would accommodate these notions far from supporting free market inequalities calls for their elimination Her book will be of interest to a wide range of readers in political philosophy political theory and normative economics The SAGE Encyclopedia of Business Ethics and Society Robert W. Kolb, 2018-03-27 Spans the

analysis and critique of Neo liberal or economic liberal ideas on this issue The Conquest of Politics Benjamin R. Barber,1988 The description for this book The Conquest of Politics Liberal Philosophy in Democratic Times will be forthcoming The Grace of God, the Will of Man Clark H. Pinnock,1989 The Grace of God the Will of Man A Case for Arminianism was written by an impressive team of evangelical scholars from many traditions This work carries on the ancient debate about the scope of God s saving purposes and the manner of his effecting salvation in human beings It defends the proposition that God is a dynamic personal Agent who respects the freedom he chose to delegate to his human creatures and relates sensitively to us in the outworking of his plans for the whole of history God is love and expresses his power by working salvation among us under conditions of genuine mutuality The contributors to this volume are Christian scholars who are eager to present this evangelical model as an alternative to deterministic theology They do not claim to have said the last word on the subject but want at least to keep the ball of theological discussion in play *Equality and Liberty* Kai Nielsen,1985 Probably no issue is more confounding in the social policy arena or more closely argued among political philosophers than the question of the relationship between equality and liberty are they compatible in a just society In a systematic discussion that expands our understanding of what constitutes liberty equality and especially justice Professor Nielsen puts forth a vigorous defense of an uncompromising egalitarianism based on a commitment to the belief that the interests of everyone matter and matter equally Marshalling the most persistent arguments against egalitarianism the author presents accounts of Nietzschean elitism meritocracy and conservative libertarianism as well as various shades of egalitarianism and systematically responds to each opposing view Followers of contemporary debates will especially welcome Nielsen s searching critiques of the liberal egalitarianism of John Rawls and Ronald Dworkin and of the conservative libertarianism of Milton Friedman Frederich Hayek and particularly Robert Nozick *Champions of a Free Society* Edward W. Younkins,2008-08-25 This book is constructed around great thinkers of the past and present who have been influential in developing the philosophy of freedom Its main purpose is to provide a survey and overview of the ideas of leading individual philosophers and economists of capitalism who have contributed to developing what might be called the classical liberal or libertarian worldview Champions of a Free Society endeavors to provide a guide to political and economic thinking about the desirability and construction of a free society that is intelligible to the educated layperson Edward Younkins provides an historical perspective of the pursuit of political and economic truth The goal of this book is to present the development of ideas in language that permits generally educated readers to understand and appreciate their significance The book s chronological approach considers the thinkers and their ideas as they have developed over the course of time There is much unfulfilled illuminative potential to be found in the ideas of the past and Younkins successfully integrates the ideas of past and current thinkers into a logical contemporary worldview
