Interpreting the Gospel of John in Antioch and Alexandria Miriam DeCock, 2020-12-28 A nuanced study of early Christian exegesis Miriam DeCock analyzes four important early Christian treatments of the Gospel of John including commentaries by Origen and Cyril from the Alexandrian tradition and the homilies of John Chrysostom and the commentary of Theodore of Mopsuestia which represent Antiochian traditions DeCock maintains that the traditional distinction between nonliteral and literal interpretations in these two early Christian centers remains helpful despite recent challenges to the paradigm She argues that a major and abiding distinction between the two schools lies in the manner in which Alexandrian and Antiochian authors apply the gospel text to their respective communities DeCock demonstrates that the Antiochenes find primarily literal moral examples and doctrinal teachings in John's Gospel whereas the Alexandrians find both these and nonliteral teachings concerning the immediate situation of the church and of its individual members Features An examination of each author's interpretations of a selection of texts Focused explorations of John 2:4 and 9:11 in early Christian exegesis A study of early literal non literal interpretations of John's Gospel

and teachers of courses in history and church history the world of late antiquity and religious studies Christ Circumcised Andrew S. Jacobs, 2012-05-28 In the first full length study of the circumcision of Jesus Andrew S Jacobs turns to an unexpected symbol the stereotypical mark of the Jewish covenant on the body of the Christian savior to explore how and why we think about difference and identity in early Christianity Jacobs explores the subject of Christ s circumcision in texts dating from the first through seventh centuries of the Common Era Using a diverse toolkit of approaches including the psychoanalytic postcolonial and poststructuralist he posits that while seeming to desire fixed borders and a clear distinction between self Christian and other Jew pagan and heretic early Christians consistently blurred and destabilized their own religious boundaries He further argues that in this doubled approach to others Christians mimicked the imperial discourse of the Roman Empire which exerted its power through the management not the erasure of difference For Jacobs the circumcision of Christ vividly illustrates a deep seated Christian duality the fear of and longing for an other at once reviled and internalized From his earliest appearance in the Gospel of Luke to the full blown Feast of the Divine Circumcision in the medieval period Christ circumcised represents a new way of imagining Christians and their creation of a new religious culture *Gender Differences and the Making of Liturgical History* Teresa Berger, 2020-03-26 Mapping uncharted territory in the study of liturgy s past this book offers a history to contemporary questions around gender and liturgical life Teresa Berger looks at liturgy s past through the lens of gender history understood as attending not only to the historically prominent binary of men and women but to all gender identities including inter sexed persons ascetic virgins eunuchs and priestly men Demonstrating what a gender attentive inquiry is able to achieve Berger explores both traditional fundamentals such as liturgical space and eucharistic practice and also new ways of studying the past for example by asking about the developing link between liturgical presiding and priestly masculinity Drawing on historical case studies and focusing particularly on the early centuries of Christian worship this book ultimately aims at the present by lifting a veil on liturgy s past to allow for a richly diverse notion of gender differences as these continue to shape liturgical life The Reception and Interpretation of the Bible in Late Antiquity Lorenzo DiTommaso, Lucian Turcescu, 2008-08-31 The volume is a Festschrift offered to Charles Kannengiesser on the occasion of his 80th birthday and honours him for his numerous scholarly accomplishments Its twenty five contributions discuss some of the major issues pertaining to the reception and interpretation of the Bible in late antique Christianity and Judaism They focus on the ways in which communities and individuals understood the Bible and interpreted its traditions to address their historical social and theological requirements Since the Bible was by far the most important book during these centuries a discussion of its influence in such contexts will illuminate significant aspects of the formation of western civilisation **The Bible and Early Trinitarian Theology** Christopher A. Beeley, Mark E. Weedman, 2018-02-09 The past thirty years have seen an unprecedented level of interest in early Christian biblical interpretation from major scholarly initiatives to more popular resources aimed at pastors and general readers The fields of

Biblical Studies and Patristics Early Christian Studies each arrived at the study of early Christian biblical interpretation largely from their own standpoints and they tend to operate in relative isolation from one another This books aims to bring the two fields into closer conversation in order to suggest new avenues into the study of the deeply biblical dimension of patristic theology as well as the contribution that patristic exegesis can make to contemporary views of how best to interpret the Bible Based on a multi year consultation in the Society of Biblical Literature The Bible and Early Trinitarian Theology features leading scholars from both fields who bring new insights to the relationship between patristic exegesis and current strategies of biblical interpretation specifically with reference to the doctrine of the Trinity Following an account of how each field came to study patristic exegesis the book offers new studies of Trinitarian theology in Old Testament Johannine and Pauline biblical texts and the patristic interpretation of them combining the insights of modern historical criticism with classical historical theology It promises to make a valuable contribution to both fields suggesting several new avenue into the study of early biblical literature and the development of Trinitarian theology
