Poetry and Power of Judgment Song Ye, 2024-07-25 This book examines Chinese traditional poetry with an emphasis on the sources of pleasure in creating and appreciating classical Chinese poems and the basis for valid aesthetic judgments about poetry. ancient China and ancient Greece have exerted immeasurable influence on later civilizations The texts and cultural values of classical China spread throughout East Asia and became the foundation of learning in Korea Japan and Vietnam Greek learning and culture receive credit for many of the intellectual paradigms of the West Probably the one which is most distinctly Western is the tradition of logical proof and the related assumption that as Aristotle put it in Metaphysics 980 we all desire to know In contrast the Chinese tradition as exemplified by Laozi s Dao de jing cautions that through our desire to know we may forfeit wisdom thus engendering a split between knowledge and wisdom The Siren and the Sage is a comparative study of what some of the most influential writers of ancient China and ancient Greece thought it meant to know and whether they distinguished knowledge from wisdom It surveys selected works of poetry history and philosophy from roughly the eighth through the second centuries BCE focusing on the Odyssey the ancient Chinese Classic of Poetry Thucydides History of the Peloponnesian War Sima Qian's Records of the Historian Plato's Symposium Laozi's Dao de jing and the writings of Zhuangzi The intention through such juxtaposition is to introduce foundational texts of each tradition texts which continue to influence most of the world's peoples It is intriguing to ask what awareness if any these distinctive cultures had of each other A considerable body of scholarship comparing ancient Greece and ancient China now exists Scholars are presenting evidence that the two cultures may actually have been aware of each other's presence even though that awareness was presumably indirect perhaps mediated by the nomadic peoples of Central Asia While not directly contributing evidence the authors argue that comparing the cultures of Greece and China will continue to be an irresistible and important scholarly debate The book offers a provocative study which is accessible to students and general readers and at the same time contributes to the debate Fusion of Critical Horizons in Chinese and Western Language, Poetics, **Aesthetics** Ming Dong Gu, 2021-07-07 This book begins with a reflection on dichotomies in comparative studies of Chinese and Western literature and aesthetics Critiquing an oppositional paradigm Ming Dong Gu argues that despite linguistic and cultural differences the two traditions share much common ground in critical theory aesthetic thought metaphysical conception and reasoning Focusing on issues of language writing and linguistics metaphor metonymy and poetics mimesis and representation and lyricism expressionism creativity and aesthetics Gu demonstrates that though ways of conception and modes of expression may differ the two traditions have cultivated similar aesthetic feelings and critical ideas capable of fusing critical and aesthetic horizons With a two way dialogue this book covers a broad spectrum of critical discourses and uncovers fascinating connections among a wide range of thinkers theorists scholars and aestheticians thereby making a significant contribution to bridging the aesthetic divide and envisioning world theory and global aesthetics The Bloomsbury Research Handbook of Chinese Aesthetics and Philosophy of Art Marcello Ghilardi, Hans-Georg Moeller, 2021-07-15 For anyone working in aesthetics interested in understanding the richness of the Chinese aesthetic tradition this handbook is the place to start Comprised of general introductory overviews critical reflections and contextual

analysis it covers everything from the origins of aesthetics in China to the role of aesthetics in philosophy today Beginning in early China 1st millennium BCE it traces the Chinese aesthetic tradition exploring the import of the term aesthetics into Chinese thought via Japan around the end of the 19th century It looks back to early practices of art and craftsmanship showing how the history of Chinese thought provides a multitude of artefacts and texts that give rise to a wide range of aesthetic creations and notions Introducing various perspectives on traditional arts in China including painting ceramics calligraphy poetry music and theatre it explores those aesthetic traditions not included in canonic art forms such as martial arts rock gardening and ritual performance Written by Chinese European and American theoreticians and practitioners this authoritative research resource enhances contemporary aesthetics by revealing the possibilities of a Chinese philosophy of **Love and Emotions in Traditional Chinese Literature** Halvor Eifring, 2021-09-13 Do all cultures and historical periods have a concept corresponding to the English word emotion This collection of essays is concerned with the closest candidate within the Chinese language namely the term q ng What is the meaning of this term in different periods and genres What are the types of discourse in which it is typically found This volume contains two essays on the notion of q ng in classical sources two on Chan Buddhist usage and two on fiction and drama from the Ming and Qing dynasties An introductory essay discusses the complex historical development of the term Together the essays may be read as a first step towards a conceptual history of one of the key terms in traditional Chinese culture The Lyrical in Epic Time David Der-wei Wang, 2015-01-20 In this book David Der wei Wang uses the lyrical to rethink the dynamics of Chinese modernity Although the form may seem unusual for representing China's social and political crises in the mid twentieth century Wang contends that national cataclysm and mass movements intensified Chinese lyricism in extraordinary ways Wang calls attention to the form s vigor and variety at an unlikely juncture in Chinese history and the precarious consequences it brought about betrayal self abjuration suicide and silence Despite their divergent backgrounds and commitments the writers artists and intellectuals discussed in this book all took lyricism as a way to explore selfhood in relation to solidarity the role of the artist in history and the potential for poetry to illuminate crisis They experimented with poetry fiction film intellectual treatise political manifesto painting calligraphy and music Western critics Wang shows also used lyricism to critique their perilous epic time He reads Martin Heidegger Theodor Adorno Cleanth Brooks and Paul de Man among others to complete his portrait The Chinese case only further intensifies the permeable nature of lyrical discourse forcing us to reengage with the dominant role of revolution and enlightenment in shaping Chinese and global modernity Wang's remarkable survey reestablishes Chinese lyricism's deep roots in its own native traditions along with Western influences and realizes the relevance of such a lyrical calling of the past century to our time **Reading Tao Yuanming** Wendy Swartz, 2020-03-17 Tao Yuanming 365 427 although dismissed as a poet following his death is now considered one of China's greatest writers Over the centuries portrayals of his life some focusing on his eccentricity others on his exemplary virtue have elevated him to

iconic status This study of the posthumous reputation of a central figure in Chinese literary history the mechanisms at work in the reception of his works and the canonization of Tao himself and of particular readings of his works sheds light on the transformation of literature and culture in premodern China It focuses on readers interpretive negotiations with Tao s works and on changes in hermeneutical practices critical vocabulary and cultural demands as well as the intervention of interested and influential readers in order to trace the construction of Tao Yuanming Driven by a dialogue on categories at the very heart of literati culture reclusion personality and poetry this cumulative process spanning fifteen centuries the author argues helps explain the very different pictures of Tao Yuanming and the divergent ways of reading his works across time and illuminates central issues animating premodern Chinese culture Liu Zaifu: Selected Critical Essays Zaifu Liu, 2021-06-17 Liu Zaifu is a name that has already been ingrained within contemporary Chinese literary history This landmark volume presents Anglophone readers with Liu s profound reflections on Chinese literature and culture at different times The essays collected here demonstrate Liu s historical experience and trajectory as an exiled Chinese intellectual who persistently safeguards the individuality and the autonomy of literature refusing to succumb to political manipulation Liu s theory of literary subjectivity has opened ways for Chinese writers to thrive and innovate His panoramic view not only unravels the intricate interplay between literature and politics but also firmly regards the transcendental value of literature as a significant ground to subvert revolutionary dogmatism and criticize Chinese modernity Rather than drawing upon the existing paradigm he reinvents his own unique theoretical conceptions in order to exile the borrowed gods Interpretations of Wang Wei's Poetry Jingging Yang, 2007 Wang Wei 698 759 a High Tang poet is widely known as Poet Buddha The book is an attempt to criticize the assumptions about Chan Buddhist implications in Wang's nature poetry While other research investigates how Wang intentionally imparted Chan significance into his poetry this book shows why this is not so and how it lacks evidence Written at Imperial Command Fusheng Wu,2009-01-08 Explores both the literary features and historical context of poetry written for imperial rulers during China's early medieval period
