Readings In Marketing Strategy:

Readings in Marketing Strategy Victor J. Cook, Jean-Claude Larréché, 1989 This text was assembled to provide students with a comprehensive set of readings useful in understanding and designing successful marketing strategies It reflects the thinking of its authors who believe that strategic marketing is taking a new direction in the 1990 s While strategic marketing continues to build on the solid foundations of customer and competitor analysis it now must also integrate all the functions of a business into a unified market led perspective 30 of the 38 readings in this text are new to this edition **Readings in**

Proactive Market Strategies Harald Brege, 2018-05-14 How can firms become more successful and achieve higher business performance How can they manage more complex and dynamic markets and maintain a high competitiveness The answer is through a more proactive approach to managing the market and creating customer value This thesis explores proactive market strategies which are firm s proactive strategies for creating communicating and delivering superior value to their customers thereby achieving superior business performance Prior literature in market orientation has touched the area of proactiveness in firms approach to the market but never properly defines proactiveness and lacks a clear connection to actual firm activities Thus in order to better understand how firms can gain the performance benefits from proactiveness this thesis sets out to explore what proactiveness in a market strategic context entails and what proactive activities firms perform in implementing their proactive market strategies The research is based on two papers each detailing one of the two complementary branches of the research The first paper presents the conceptual work focusing on a typology of marketoriented strategic behaviors which are important for understanding how firms can gain the potential performance benefits of market orientation and how they can achieve behavioral fit among their activities The second paper presents the

empirical work focusing on the qualitative case study performed and the themes of proactiveness that emerged from it These papers are then synthesized into a holistic view of proactive market strategies in the thesis The thesis finds that proactiveness at the firm level in a marketing context means a firm is future oriented initiative taking change inducing and creative With a basis in this definition and the extensive literature on market orientation the thesis presents conceptual developments that are important for understanding proactiveness in market strategy such as a framework for understanding market strategies through firm activities and one for identifying and categorizing different types of proactive activities Furthermore the thesis gives more detailed descriptions of the case firms and how their proactive activities help them achieve success This results in a thorough exploration of proactive market strategies which contributes to the marketing and strategic management literatures by clearly defining proactiveness conceptualizing and describing proactive market strategies and delineating proactive firm activities to better understand how firms are being proactive In doing so the thesis provides interesting directions for future research and presents interesting implications for managerial practice
