## **Real Choice Real Freedom In American Education:**

**Real Choice, Real Freedom in American Education** Kerry L. Morgan, 1997 This book advances the idea that American education suffers from three underlying legal defects the rejection of parental rights domination by state laws that undermine parental rights and the devastating effects of an unconstitutional expansion of federal power The book advocates strengthening parents inalienable right to direct the education of their children in concert with state laws designed to secure these rights of parents and repeal those laws which hinder parental involvement Also the book encourages the idea that the federal government should disentangle itself from education altogether arguing that its current jurisdiction over education is contrary to the Constitution Real Choice Real Freedom is not about revitalizing the failing public school system but rather raises a more cardinal question Can our Republic maintain real freedom when the civil government uses law to control the education of its youngest citizens Consequently the work calls for the legal disestablishment of government interference regulation and control of American education

**The Politics of School Choice** Hubert Morken, Jo Renee Formicola, 1999 The Politics of School Choice is the first comprehensive examination of diverse efforts to promote tax credits public vouchers private scholarships and charter schools Morken and Formicola provide the most current national report on the burgeoning American school choice movement They analyze the strategies and tactics being used by a wide variety of individuals and organizations to leverage change pass laws win court cases and mobilize community support to build successful winning school choice coalitions Based largely on extensive interviews documentary research and surveys this book covers the spectrum of school choice options and shows how they are being promoted in the United States today It explains who the players are what types of programs they endorse and the various rationales behind them The authors report the views of the entrepreneurs religious leaders heads of think tanks and foundations public litigators scholars activists minority leaders and politicians who are in the forefront of providing parents with resources for educational alternatives Finally Morken and Formicola cover the strengths and weaknesses of the school choice issue concluding that the movement has a wide ranging membership that is uneven in its implementation and that it is taking different forms in various regions of the country As the pace of change accelerates and new school choice programs proliferate this study is a critical resource for all those concerned about the present and future status of American education

**Tyranny Through Public Education - Revised Edition** William F. Jr Cox, 2004-04 This book documents the inherently flawed nature of America's public school system as currently structured Contemporary recommendations for correcting the system invariably treat symptoms rather than the inherent problem of government control over parental and religious rights The book documents that education is a religious endeavor and that freedom of religion is guaranteed in the United States parents have an inalienable right to raise their children free from government constraints on education civil government is to protect and not deprive citizens of their inalienable rights the educational history of our country affirms that education has always had a religious function recent interpretations of the

First and Fourteenth Amendments are both misguided and opposite from their original meanings federal control of education and education taxation is outside the legitimate authority of the U S Constitution and government control of education at federal state and local levels is inherently tyrannical Addressed in separate chapters the above mentioned issues individually and collectively build a compelling case for the disestablishment of government control and the return of parental control to education To quote James Madison government should relate to education in the same way as it does to religion not to intermeddle with it

**Education and Capitalism** Joseph L. Bast, Herbert J. Walberg, 2013-09-01 The authors call on the need to combine education with capitalism Drawing on insights and findings from history psychology sociology political science and economics they show how if our schools were moved from the public sector to the private sector they could once again do a superior job providing K 12 education

**American Education**, 1965 **With All Your Mind** Michael L. Peterson, 2001-10-29 With All Your Mind makes a compelling case for the value of thinking deeply about education in America from a historically orthodox and broadly ecumenical Christian point of view Few people dispute that education in America is in a state of crisis But not many have posed workable solutions to this serious problem Michael Peterson contends that thinking philosophically about education is our only hope for meaningful progress In this refreshing book he invites all who are concerned about education in America to participate in his study which analyzes representative theories and practical strategies that reveal the power of Christian ideas in this vital area

*Restructuring American Education* Ray C. Rist, 2017-09-08 Structured schools free schools graded schools ungraded schools no schools at all the conflicts over public education in America rage on for contemporary schools have not lived up to our expectations The essence of the criticism reflected in the essays in this volume is that America's dual educational goals free inquiry and social mobility are not being met Instead of producing enlightened citizens capable of high social and economic mobility our schools have become warehouses of children stored as commodities docile and immobile

Rebuilding Schools for Students Darlene Leiding, 2013-10-30 America's educational system is in crisis Test

scores show us that students across America are performing at levels far below their peers overseas In addition graduation rates are shamefully low There is no doubt that America s students deserve better In a rapidly changing world our students are not being taught the basic knowledge and skills they need to succeed It s time for educators representing the conscience of society along with parents and community members to get to the root of the problem By addressing the current issues that contemporary school systems face including teacher unions school reforms the U S Department of Education technology NCLB teachers under scrutiny teacher tenure boosting parent engagement failing schools and the realities of what works and what doesn t in the charter school realm Rebuilding Schools for Students Let the Change Begin serves to promote change by taking risks and achieving results Educators should address schools in crisis develop strategies to go from failure to success and find common ground Our students deserve the best      **The Value of Education Choices for Low-income Families** United States.
