Minding the Modern Thomas Pfau, 2015-02-15 In this brilliant study Thomas Pfau argues that the loss of foundational concepts in classical and medieval Aristotelian philosophy caused a fateful separation between reason and will in European thought Pfau traces the evolution and eventual deterioration of key concepts of human agency will person judgment action from antiquity through Scholasticism and on to eighteenth century moral theory and its critical revision in the works of Samuel Taylor Coleridge Featuring extended critical discussions of Aristotle Gnosticism Augustine Aquinas Ockham Hobbes Shaftesbury Mandeville Hutcheson Hume Adam Smith and Coleridge this study contends that the humanistic concepts these writers seek to elucidate acquire meaning and significance only inasmuch as we are prepared positively to engage rather than historicize their previous usages Beginning with the rise of theological and eventually secular voluntarism modern thought appears increasingly reluctant and in time unable to engage the deep history of its own underlying conceptions thus leaving our understanding of the nature and function of humanistic inquiry increasingly frayed and incoherent One consequence of this shift is to leave the moral self expression of intellectual elites and ordinary citizens alike stunted which in turn has fueled the widespread notion that moral and ethical concerns are but a special branch of inquiry largely determined by opinion rather than dialogical reasoning judgment and practice A clear sign of this regression is the present crisis in the study of the humanities whose role is overwhelmingly conceived and negatively appraised in terms of scientific theories methods and objectives The ultimate casualty of this reductionism has been the very idea of personhood and the disappearance of an adequate ethical language *Minding the Modern* is not merely a chapter in the history of ideas it is a thorough phenomenological and metaphysical study of the roots of today's predicaments **The Palgrave Handbook on the Economics of Manipulation in Sport** Markus Breuer, David Forrest, 2018-04-12 Sport has enjoyed steadily increasing prominence and economic importance since the Millennium But threats to its integrity appear to have grown in parallel undermining the very sense of innocence and fun which is an important part of its appeal Threats to the spirit of sport come from internal external and even state actors who seek either to manipulate events on the field or to exploit the institutions of sport for their own ends As the reputation of sport becomes more tarnished as a result its sustainability as a significant part of the entertainment industry is called into question and loss of reputation may even result in decline in recreational play In

this wide ranging collection of essays the international team of contributors explores the structural economic sources of the problems that beset sport and address the question of what is to be done through economic reasoning Specific topics covered include doping match fixing for betting or sporting gain the role of forensic statistics in detecting nefarious activity issues related to club ownership corruption in the awarding of mega events and within sports governing bodies and the role of the law and the Court of Arbitration for Sport In the final chapter the Editors pull together the various strands and propose that policy to mitigate the threat to fair play should be built around two themes improving sports governance and designing incentives to help actors in sport choose honest over manipulative behaviour The book will appeal to practitioners from sport management as well as to academics including students and researchers **The Publishers Weekly**, 1910 **Postal**

British Operations on the Western Front, 1914-1918 Brian N. Hall, 2017-06-07 This book reveals the impact of communications on the military operations of the British Expeditionary Force during the First World War Theodore Roosevelt in the Field Michael R. Canfield, 2022-12-22 Never has there been a president less content to sit still behind a desk than Theodore Roosevelt When we picture him he s on horseback or standing at a cliff s edge or dressed for safari And Roosevelt was more than just an adventurer he was also a naturalist and campaigner for conservation His love of the outdoor world began at an early age and was driven by a need not to simply observe nature but to be actively involved in the outdoors to be in the field As Michael R Canfield reveals in *Theodore Roosevelt in the Field* throughout his life Roosevelt consistently took to the field as a naturalist hunter writer soldier and conservationist and it is in the field where his passion for science

and nature his belief in the manly strenuous life and his drive for empire all came together Drawing extensively on Roosevelt's field notebooks diaries and letters Canfield takes readers into the field on adventures alongside him From Roosevelt's early childhood observations of ants to his notes on ornithology as a teenager Canfield shows how Roosevelt's quest for knowledge coincided with his interest in the outdoors We later travel to the Badlands after the deaths of Roosevelt's wife and mother to understand his embrace of the rugged freedom of the ranch lifestyle and the Western wilderness Finally Canfield takes us to Africa and South America as we consider Roosevelt's travels and writings after his presidency Throughout we see how the seemingly contradictory aspects of Roosevelt's biography as a hunter and a naturalist are actually complementary traits of a man eager to directly understand and experience the environment around him As our connection to the natural world seems to be more tenuous Theodore Roosevelt in the Field offers the chance to reinvigorate our enjoyment of nature alongside one of history's most bold and restlessly curious figures

Behavioural Sports Economics Hannah Josepha Rachel Altman, Morris Altman, Benno Torgler, 2021-12-19 Economists have entered into the realm of sports to provide what they believe to be more cogent explanations for sport related behaviour and to suggest ways in which incentives can improve sports outcomes But prices and income the traditional workhorses of conventional economics can only provide partial explanations and understandings Drawing on a bounded rationality approach to behavioural economics this book demonstrates the analytical insights to be gained by supplementing the conventional economics toolbox with psychological cognitive sociological and institutional factors The international cast list of contributors cover a wide range of sports topics on which a behavioural approach can reveal new insights These include preferences managerial efficiency choking doping favouritism athlete well being and spectator behaviour Throughout the book there is an emphasis on the cognitive limits to smart decision making as well as the critical role played by the decision making environment This volume demonstrates that adopting a bounded rationality approach complimented with other behaviouralist approaches helps to better explain sport related behavioural sub optimal behavioural and market failures It also provides insights that could be used to improve sports outcomes and the well being of those involved in sports and to better configure policy to enhance sports performance This groundbreaking book will be an indispensable reference to students and scholars of sports economics sports management and sports science

Cavalryman of the Lost Cause Jeffrey D. Wert, 2009-09-22 Now in paperback this major biography of J E B Stuart the first in two decades uses newly available documents to draw the fullest most accurate portrait of the legendary Confederate cavalry commander ever published Major figure of American history James Ewell Brown Stuart was the South's most successful and most colorful cavalry commander during the Civil War Like many who die young Stuart was thirty one when he succumbed to combat wounds he has been romanticized and popularized One of the best known figures of the Civil War J E B Stuart is almost as important a figure in the Confederate pantheon as Robert E Lee and Stonewall Jackson Most comprehensive biography to date Cavalryman of the Lost Cause is based on manuscripts and unpublished letters as well as

the latest Civil War scholarship Stuart's childhood and family are scrutinized as is his service in Kansas and on the frontier before the Civil War The research in this biography makes it the authoritative work **Red Riding Hood and the Wolf in Bed** Ann Martin,2006-01-01 Drawing on theoretical paradigms from gender and cultural studies Martin develops a participatory model of modernist literature and culture **Teddy Roosevelt at San Juan** Peggy Samuels,Harold Samuels,1997 Termed a Southern gothic musical Ghost Brothers of Darkland County was scripted by novelist Stephen King with the music coming from maverick heartland rocker John Mellencamp a collaboration a bit left field for both artists This set includes Mellencamp's songs interspersed with key dialogue from King's libretto and while the story might be too complex essentially it's the tale of two brothers involved in a murder suicide whose ghosts haunt an isolated cabin and whose tragic deeds and consequent fate seems about to be repeated by their living nephews to be truly appreciated in single disc form like this so it's Mellencamp's songs sung by the likes of Elvis Costello Neko Case Sheryl Crow Dave and Phil Alvin real life brothers whose estrangement with each other ended while working on this project Taj Mahal Ryan Bingham Clyde Mulroney Rosanne Cash and Kris Kristofferson Mellencamp only sings on one song here the summing it up last track Truth that are really left to carry things They certainly work as songs and may well be among the best Mellencamp has ever written while the overall sound of the whole musical suite crafted by T Bone Burnett is kind of like a sparse and shined up version of a late period Tom Waits album due in part to the presence of multi instrumentalist Marc Ribot on most of the tracks and the tight spare rhythm section of Jay Bellerose on drums and David Piltch on bass The performances Elvis Costello sounds gleeful and sinful on That's Me identity and fulfillment are key themes of Ghost Brothers of Darkland Country that and history's tendency to repeat itself Neko Case is sassy and sure on That's Who I Am Kris Kristofferson sounds old wise and weary on How Many Days Taj Mahal rages through Tear This Cabin Down and Sheryl Crow is confident and cocky on Jukin while Rosanne Cash turns in a delicately worn and wise reading of You Don't Know Me and for a story that spans decades and generations it's obvious that everyone is singing about who they are who they ought to be and who they ended up becoming It's difficult to say how good this musical is just from the songs and pieces of dialogue presented here but the songs have a weary inevitable flow to them as if fate forced them into a dark room with little light or air or chance of redemption Redemption comes with acceptance of who one is the songs and story here seem to say and only then can the real truth about what has happened to anyone really be revealed It's a ghost story after all Cheyennes and Horse Soldiers William Y. Chalfant,2002-10-01 In July 1857 the first major battle between the U S Army and the Cheyenne Indians took place in present day northwest Kansas The Cheyennes had formed a grand line of battle such as was never again seen in Plains Indians wars But they had not seen sabres before and when the cavalry charged sabres drawn they panicked William Y Chalfant re-creates the human dimensions of a battle that was as much a clash of cultures as it was a clash of the U S cavalry and Cheyenne warriors *Riding in Circles J.e.b. Stuart and the Confederate Cavalry 1861-1862* ,
