The Eternity Beyond The Triple Helix Victor G. Henigan, 2011-01-05 Victor Henigan takes us on a unique journey from our world down into the micro world of the atom and beyond into the very realm of the architectural source of creation and on to Eternity The Triple Helix published in the year 2000 is reviewed and visionary corrections are made based on NASA's WMAP space probe Following he moves to define string theory at a level that is unique and quite understandable Presenting a number of proofs for his farsighted predictions he follows with a sacred visionary writing that was written some fifty years ago ending in eternity itself Author Henigan now in his eighties is retired following a sixty year career in church music during which he served many churches in the San Francisco bay area sometimes as choir director other times as organist and many times as tenor soloist For seven years in the sixties as choir director at the Woodside Road United Methodist Church he produced two beautiful recording albums of sacred music Revelation and Glory In addition to his church career he was a member of the Orpheum Male Chorus for ten years and tenor soloist for the Sonoma County Men's Chorus during the lifetime of the chorus under its founder His musical studies include nine years of piano one year of organ and seven years of voice In this effort we realize as stated in The Witness of The Animation that All creation is housed within and upon a structure which in its true and pure existence is not given to structural form The natural activity within and upon this existence is divine residence That which exists within it in a state of natural activity is so flexible that it no longer remains in structural form That which exists within it in a state of unnatural activity is in structural form Man is in the image or unnatural structural form while God is in the natural existence
