

STUDENT'S RIGHTS

WHAT RIGHTS DO STUDENTS HAVE TO ACCESS BOOKS?

Students retain their First Amendment rights in schools. In **Tinker v. Des Moines** Independent Community School District, a 1969 decision, the U.S. Supreme Court held that **students do not “shed their constitutional rights to freedom of speech or expression at the schoolhouse gate.”**

“Thirteen years later, in **Board of Education, Island Trees Union Free School District v. Pico**, the Court noted the “special characteristics” of the school library, making it “especially appropriate for the recognition of the **First Amendment rights of students,**” including **the right to access information and ideas.**

The American Library Association’s **Library Bill of Rights** article V states: **“A person’s right to use a library should not be denied or abridged because of origin, age, background, or views.”** The bill of rights specifically states age as a reason patrons should not be denied access to books.

Even more than the Library Bill of Rights, the First Amendment protects the rights of students:

Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

Further, the **Fourteenth Amendment** extends the limits of the First Amendment by protecting the people’s **rights to public education**. Now, not only is it federal law, but state and local laws also ensure access to education and knowledge. **Public schools and school libraries are part of local government; they must follow the First Amendment.**

“[T]he school board’s non-curricular decision to remove a book well after it had been placed in the public school libraries evokes the question whether that action might not be an unconstitutional attempt to ‘strangle the free mind at its source.’”

Campbell v. St. Tammany Parish School Board (1995)

Human Rights and Citizenship Education Nektaria Palaiologou, Michalinos Zembylas, 2018-11-21 This volume examines different conceptualizations of human rights citizenship and interculturalism as well as their inter relationships in different national contexts This intersection in its various combinations is explored theoretically pedagogically and practically with the studies investigating whether certain human rights demands reveal patterns that are incompatible with citizenship and multiculturalist claims Contributions also explore the theoretical and practical bases on which human rights citizenship and intercultural education should be grounded as well as how human rights citizenship and intercultural education can join forces to make policy practice and research stronger and more robust The issues explored in this volume continue to feature on policy agendas at local national and international levels at a time when considerable changes are taking place within and across societies Particularly in Europe the current refugee and migration crisis complicates this situation further creating new complex challenges for countries and regions including how to respond productively and justly to the migration of peoples how to complement existing legal frameworks and modes of governance to face threats to social justice security and social cohesion of political and civil societies and how to develop new rights that increase participation in social and political life especially in groups that are vulnerable and marginalized As shown here however these challenges provide unique opportunities to re imagine the transformative potential of the intersection among intercultural human rights and citizenship education in different situations and contexts *Teachers, Human Rights and Diversity* Audrey Osler, 2005 How should we educate citizens in multicultural societies This question is receiving increasing attention in countries across the world In this volume authors from England Northern Ireland the Republic of Ireland and the United States report on recent research in this field and consider the implications for teachers teacher education and student teachers Case studies illustrate how young citizens can learn to apply the principles of human rights and equality in resolving complex and controversial issues The contributors include Hilary Claire Colm O Cuanachain Carole Hahn Anne Hudson Ulrike Neins and Jackie Reilly Jill Rutter Chris Wilkins This book will be of particular interest to student teachers and their tutors Resources in Education, 1978 **Rethinking Human Rights** Erika Jiménez, 2024-10-17 Palestinians have used the language of human rights to articulate their struggle against the Israeli occupation and internationalise the injustices they face Palestinian young people learning about human rights at school experience a dissonance between the aspirational and internationalised framework of those norms and the layers of injustice of their own lived experience Drawing on research in the occupied West Bank this book explores the three layers of marginalisation faced by Palestinian young people the Israeli occupation that denies them their humanity the Palestinian pseudo state that denies them a voice and patriarchal structures that deny them agency to

show how these barriers influence their understanding of and scepticism towards human rights Influenced by decolonial theories this book illuminates how space needs to be created for the counter narratives of the oppressed in human rights discourse which may not align with more conventional representations of human rights It contends that human rights and by extension human rights education in the Palestinian context and beyond needs to be critiqued decolonised and ultimately transformed
