Fund, 2015-08-01 Humanity stands at the brink of global environmental and economic collapse We have pinned our future to an economic system that centralizes power in fewer and fewer hands and whose benefits increasingly flow to smaller and smaller numbers of people Our system of government is similarly medieval relying on a 1780s constitutional form of government written to guarantee the exploitation of the natural environment and elevate the endless production of more over the rights of people nature and their communities But right now people within the community rights movement aren't waiting for power brokers to fix the system They're beginning to envision a new sustainability constitution by adopting new laws at the local level that are forcing those ideas upward into the state and national ones In doing so they are directly challenging the basic operating system of this country one which currently elevates corporate rights above the rights of people nature and their communities and changing it into one which recognizes a right to local community self government that cannot be overridden by corporations or by governments wielded by corporate interests This short primer from the Community Environmental Legal Defense Fund explores and describes the philosophy and underpinnings of the community

rights movement that has emerged in the United States a movement of nonviolent civil disobedience based on municipal lawmaking

Rights and Demands Margaret Gilbert, 2018-04-19 Rights are often invoked in contemporary moral and political debates yet the nature of rights is contested Rights and Demands provides the first full length treatment of a central class of rights demand rights To have such a right is to have the standing or authority to demand a particular action of another person How are such rights possible Everyday agreements are generally acknowledged to be sources of demand rights but what is it about an agreement that accounts for this The central thesis of this book is that joint commitment is a ground of demand rights and that it may be the only ground In developing this thesis Margaret Gilbert argues in detail for joint commitment accounts of both agreements and promises The final chapter explains the relevance of its argument to our understanding of human rights Engaging where appropriate with contemporary rights theory Gilbert provides an accessible route into this area for those previously unfamiliar with it

POLITICAL THEORY RAMASWAMY, SUSHILA, 2010-10-01 Political theory and political philosophy are generally used interchangeably though sometimes a distinction is made between the two This book on political theory deals with the study of political institutions along with the theories of State Law Liberty and Equality In its second edition the book continues to analyse the key concepts like Authority Power Sovereignty Political obligation Civil disobedience Citizenship Rights Democracy and Justice The non western ideas including Indian and Chinese are incorporated to underline cultural plurality and shared values in an enterprise that tries to set universal standards The book is designed for the undergraduate and postgraduate students of Political Science The book will be equally beneficial for the students appearing for the civil services examinations

Gandhi and the Stoics Richard Sorabji, 2012-11-06 Was Gandhi a philosopher Yes So begins this remarkable investigation of the guiding principles that motivated the transformative public acts of one of the top historical figures of the twentieth century Richard Sorabji continuing his exploration of the many connections between South Asian thought and ancient Greek and Roman philosophy brings together in this volume the unlikely pairing of Mahatma Gandhi and the Stoics uncovering a host of parallels that suggests a deep affinity spanning the two millennia between them While scholars have long known Gandhi's direct Western influences to be Platonic and Christian Sorabji shows how a look at Gandhi's convergence with the Stoics works mutually throwing light on both of them Both emphasized emotional detachment which provided a necessary freedom a suspicion of universal rules of conduct that led to a focus not on human rights but human duties the personally determined paths each individual must make for his or her self By being indifferent paradoxically both the Stoics and Gandhi could love manifoldly In drawing these links to the fore Sorabji demonstrates the comparative consistency of Gandhi's philosophical ideas isolating the specific ideological strengths that were required to support some of the most consequential political acts and experiments in how to live

We the People Thomas Linzey, Anneke Campbell, 2016-11-24 *We the People* offers powerful portraits of communities across the United States that have faced threats from environmentally destructive corporate projects and responded by successfully banning those projects at a local level We hear the inspiring voices of ordinary citizens and activists practicing a cutting edge form of organizing developed by the nonprofit law firm the Community Environmental Legal Defense Fund CELDF Their methodology is an answer for the frustrations of untold numbers of activists who have been defeated time and again by corporate political power and legal entitlement Instead of fighting against what we don't want this book can teach us to create from the ground up what we do want basing our vision in local control and law By refusing to cooperate with the unjust laws that favor corporate profit over local sustainability communities can show the way forward driving their rights into state constitutions and eventually into the federal Constitution In communities from New Hampshire to Oregon new forms of local organizing have sprung up to fight fracking mining dumping of toxic waste and industrial agriculture among other environmental assaults These communities have recognized that the law has legalized the damaging actions of corporations while providing no recourse against harm and they have therefore decided to create a new system of law that makes local control and sustainability legal Starting small this process has spread from rural Pennsylvania to larger cities and towns and has resulted in the creation of state networks seeking to amend state constitutions This work is about finishing the American Revolution by giving up the illusion of democracy and forging a system of true self governance In addition this is about recognizing in law for the first time in history that nature possesses legally enforceable rights of its own
