***Uprisings in Eighteenth-Century Britain*** Monika Barget, 2023-10-19 This study examines how the British Empire of the 18th century contained revolution by integrating opposition agents as new spaces of power opened up Monika Barget convincingly argues that this process of constitutionalisation meant that groups from the aristocracy to religious communities from the army to the people at large were brought into the system in a way that balanced the obvious serious challenges that the Glorious Revolution the Jacobite Rebellion the American Revolution and Jacobin threats of the late 18th century posed to the Empire Barget highlights the lasting political and legal repercussions of this process The structure of the chapters each focussing on specific agents and conflict media also links the history of political agency and political institutions with an expanding European and even trans continental media market

society The 1780s were exciting years for science and for its applications and experimental philosophy and industrial development were closely interwoven This coffee house society provided a group of natural philosophers with the opportunity to discuss the topics that most interested them The minutes themselves unique in their completeness constitute a continuous record of the fortnightly meetings of a group of leading natural philosophers instrument makers physicians and industrialist entrepreneurs They are an important resource for historians of politics and society including the industrial revolution as well as for historians of science and technology In addition to a fully edited edition of the Minute book and brief biographies of all the members the book includes essays by Jan Golinski on the members discussion about phlogiston and other issues relating to the chemical revolution and by Larry Stewart on the reforming radical and industrial contexts of the networks to which the members belonged One of the standard criticisms of English science in the late eighteenth century is its isolation from the rest of Europe These minutes offer a very different picture The members the Irish chemist Richard Kirwan taking the most active role discussed current issues in science and reported on scientific and industrial advances from all Europe and even from Hudson s Bay showing early English awareness of the latest developments The Minute Book gives a sense of history at a particular period and is invaluable to all historians whatever their specialism Everyday Revolutions Diane E. and female travel writers alike In turn gender intersects with class most obviously in the tendency to denigrate aristocratic travellers as effeminate and celebrate the more manly activities of the middle class traveller These then national identity authorship and gender are the central preoccupations of the study

Tague, 2015-06-17 *Animal Companions* explores how eighteenth century British society perceived pets and the ways in which conversation about them reflected and shaped broader cultural debates While Europeans kept pets long before the eighteenth century many believed that doing so was at best frivolous and at worst downright dangerous Ingrid Tague argues that for Britons of the eighteenth century pets offered a unique way to articulate what it meant to be human and what society ought to look like With the dawn of the Enlightenment and the end of the Malthusian cycle of dearth and famine that marked previous eras England became the wealthiest nation in Europe with a new understanding of religion science and non European cultures and unprecedented access to consumer goods of all kinds These transformations generated excitement and anxiety that were reflected in debates over the rights and wrongs of human animal relationships Drawing on a broad array of sources including natural histories periodicals visual and material culture and the testimony of pet owners themselves *Animal Companions* shows how pets became both increasingly visible indicators of spreading prosperity and catalysts for debates about the morality of the radically different society emerging in eighteenth century Britain
