Women and Work Christine Leiren Mower, Susanne Weil, 2010-08-11 While issues surrounding women and work may be more subtle today than in the past problems of workplace equity child rearing and domestic labor pose problems of balance that continue to evade solution as women today face substantial shifts in the meanings and practices of marriage work and reproduction amid a globalized economy The essays in *Women and Work The Labors of Self Fashioning* explore how nineteenth and twentieth century US and British writers represent the work of being women where work is defined broadly to encompass not only paid labor inside and outside the home but also the work of performing femininity and domesticity How did nineteenth and twentieth century US and British writers revise then contemporary social assumptions about who should be performing work and for what purpose How fully did these writers perceive the class implications of their arguments for taking jobs outside the home How does work both inside and outside the home contribute to female identity and conversely how does it promote what legal theorist Kenji Yoshino terms the demands of covering women's strategic use of stereotypes of femininity and masculinity to succeed in the marketplace In articles appropriate for both upper level undergraduate and graduate students in literature and literary history women's studies feminist and gender studies contributors engage these questions covering both canonical and popular middlebrow nineteenth and twentieth century writers such as Gilman Cather Alcott Schreiner Wharton Le Sueur Gissing Wood Lewis and Mitchell *Women and Work* will also interest scholars concerned with this developing discourse

inspiration in the ongoing fight for justice Better Red Constance Coiner,1995-03-30 Better Red is an interdisciplinary study addressing the complicated intersection of American feminism and the political left as refracted in Tillie Olsen's and Meridel Le Sueur's lives and literary texts The first book length study to explore these feminist writers ties to the American Communist Party it contributes to a reenvisioning of 1930s U S Communism as well as to efforts to promote working class writing as a legitimate category of literary analysis At once loyal members of the male dominated Communist party and emerging feminists Olsen and Le Sueur exhibit in their writing tendencies both toward and away from Party tenets and attitudes at points subverting formalist as well as orthodox Marxist literary categories By producing working class discourse Olsen and Le Sueur challenge the bourgeois assumptions often masked as classless and universal of much canonical literature and by creating working class women's writing they problematize the patriarchal nature of the Left and the masculinist assumptions of much proletarian literature anticipating the concerns of second wave feminists a generation later

Community of Suffering and Struggle Elizabeth Faue, 2016-08-01 Elizabeth Faue traces the transformation of the American labor movement from community forms of solidarity to bureaucratic unionism Arguing that gender is central to understanding this shift Faue explores women's involvement in labor and political organizations and the role of gender and family ideology in shaping unionism in the twentieth century Her study of Minneapolis the site of the important 1934 trucking strike has broad implications for labor history as a whole Initially the labor movement rooted itself in community organizations and networks in which women were active both as members and as leaders This community orientation reclaimed family relief and education as political ground for a labor movement seeking to re-establish itself after the losses of the 1920s But as the depression deepened women perceived as threats to men seeking work lost their places in union leadership in working class culture and on labor's political agenda When unions exchanged a community orientation for a focus on the workplace and on national politics they lost the power to recruit and involve women members even after World War II prompted large numbers of women to enter the work force In a pathbreaking analysis Faue explores how the iconography and language of labor reflected ideas about gender The depiction of work and the worker as male the reliance on sport military and familial metaphors for solidarity and the ideas of women's place these all reinforced the representation of labor solidarity as masculine during a time of increasing female participation in the labor force Although the language of labor as male was not new in the depression the crisis of wage earning as a crisis of masculinity helped to give psychological power to male dominance in the labor culture By the end of the war women no longer occupied a central position in organized labor but a peripheral one

Protest and Possibility in the Writing of Tillie Olsen Mara Faulkner, 1993 Tillie Olsen's fiction and nonfiction portray with all their harsh contours the lives of people who cannot speak for themselves or whose words have been forgotten or ignored. Olsen's writing is neither serene nor despairing. In this sensitive thematic reading, Mara Faulkner shows that its most subversive function is the assertion that human life can be other than and more than it is. Olsen's promise of full creative life aims to make her readers forever dissatisfied with physical, emotional, and intellectual starvation. Faulkner finds in Olsen's writing a triple-layered pattern combining protest against oppression, blight, celebration of courage and strength, fruit, and the heartening dream of a radically transformed future world possibility. She focuses on four of Olsen's main themes: motherhood, the relationship between men and women, community and language, and shows how because of social and economic circumstances, potentially creative tensions become destructive contradictions: motherhood stifles women's lives, patriarchy and poverty turn men into enemies of women, and children's communities force their members into betrayal, and language distorts or erases human experience. Olsen reveals, according to Faulkner, the overlapping oppressions of class, race, gender, nationality, education, and age that both link people and set them apart. Yet she refuses to exalt suffering and deprivation. In this comprehensive examination of a literature of social consciousness, Faulkner approaches Olsen's works within their historical, social, and political contexts without treating them as propaganda. In fact, she shows that it is Olsen's compressed poetic style that gives her writing its revolutionary power. She illuminates both the author's individual talent and the traditions in which her works were created: traditions of women writers, of color writers, of the working class, and writers who were immigrants or children of immigrants.

Guardian Angel and Other Stories Margery Latimer, 1984 Margery Latimer (1899-1933) and Meridel Le Sueur (1900-1996) were close friends, both protegee-figures of Zona Gale. Latimer married Jean Toomer in 1931 and died in 1933. The stories in this volume are from the two collections of stories published in her lifetime. Critic Louis Kampf describes the general effect of Latimer's anatomy of small-town life as always vivid, often funny, but invariably grim. She has been called a Midwestern Nathalie Sarraute and a feminist Sherwood Anderson. In a distinctly modern idiom, she explores women's often repressed dreams and desires.
