The Rise and Fall of Industrial Productivity in Pakistan Shahida Wizarat, 2002 This is a pioneering work in the field of Industrial Economics in Pakistan based on empirical research The author has traced the changing patterns of industrial growth in Pakistan and analyses the causes behind the change This is a significant and original contribution to the study of economics in Pakistan a country which provides a number of precedents which can be profitably analysed by other developing economies Its style of writing makes this book accessible to general readers as well

Pakistan - the Political Economy of Growth, Stagnation and the State, 1951-2009 Matthew McCartney, 2011-06-07 This book provides a comprehensive reassessment of the development of the economy of Pakistan from independence to the present It argues that the factors which bring about economic development in countries with high levels of deprivation are best understood by considering changing overall approaches where shifts in approaches do not always coincide with changes in political regimes

New Perspectives on Pakistan's Political Economy Matthew McCartney, S. Akbar Zaidi, 2019-09-19 This volume makes a major intervention in the debates around the nature of the political economy of Pakistan focusing on its contemporary social dynamics This is the first comprehensive academic analysis of Pakistan's political economy after thirty five years and addresses issues of state class and society examining gender the middle classes the media the bazaar economy urban spaces and the new elite The book goes beyond the contemporary obsession with terrorism and extremism political Islam and simple civilian military relations and looks at modern day Pakistan through the lens of varied academic disciplines It not only brings together new work by some emerging scholars but also formulates a new political economy for the country reflecting the contemporary reality and diversification in the social sciences in Pakistan The chapters dynamically and dialectically capture emergent processes and trends in framing Pakistan's political economy and invite scholars to engage with and move beyond these concerns and issues

The Rise and Fall of the Shah Amin Saikal, 2021-07-13 On November 4 1979 when students occupied the American Embassy in Tehran and subsequently demanded that the United States return the Shah in exchange for hostages the deposed Iranian ruler's regime became the focus of worldwide scrutiny and controversy But as Amin Saikal shows this was far from the beginning of Iran's troubles Saikal examines the rule of Mohammad Reza Shah Pahlavi especially from 1953 to 1979 in the context of his regime's dependence on the United States and his dreams of transforming Iran into a world power Saikal argues that despite the Shah's early achievements his goals and policies were full of inherent contradictions and weaknesses and ultimately failed to achieve their objectives Based on government documents published and unpublished literature and interviews with officials in Iran Britain and the United States *The Rise and Fall of the Shah* critically reviews the domestic and foreign policy objectives as well as the behavior of the Shah to explain not only what happened but how and why In a new introduction Saikal reflects on what has happened in Iran since the fall of the Shah and relates Iran's past to its political present and future

Akbar Zaidi, 2005 This book is the main text for post graduate courses on South Asia's development economic history and on its political economy For researchers on Pakistan's economy it is the key source for reference and covers a huge and diverse array of data literature reviews commentary and analysis

Alternative to the Imf Shahida Wizarat, 2022-12-13 Different articles in the book reveal that Pakistan's policies are made abroad governments are made abroad and strategic routes and natural resources are given free or at nominal rates Nothing seems to have changed since 1947 when Pakistan gained independence And after giving our resources and routes for free we go to the IMF for budgetary support Excessive borrowing from the IMF started in the late 1980s causing decline in the growth of output investment and employment creating imbalances in income distribution increasing poverty with very adverse impact on the social and political fabric of the country The book brings to the fore how state power is being used to demolish the state to take us to the colonial world order that existed prior to 1945 *Alternative to the IMF* offers out of the box solutions to agriculture industry balance of payments public finance natural resources political economy education governance privatization and liberalization problems afflicting the state of Pakistan The strategies formulated for Pakistan are applicable to other countries in Asia Africa Latin America etc that are facing similar problems due to borrowings from the IMF I have also looked at the problems of Jammu and Kashmir and Afghanistan that have affected our economy politics and society very severely and offered solutions
