Dramaturgy Michael Evans, 2025-04-25 How are plays constructed Taking this essential question and looking at a broad range of Western plays from Greek tragedies through Ibsen we can discern a remarkably stable set of dramaturgical principles Some dramatists adhere to traditional principles to create meaning while others delight in bending or breaking these conventions seeking new ways to express meaning In this book Michael Evans discusses what he calls standard dramaturgy a set of seven principles upon which most plays from ancient Greek dramas to modern works are based He teases out seven traits found in most plays written before 1900 and many popular plays and

films since then The book then looks at these key traits and how the playwrights of the Modernist era deliberately subvert them to create new methods of meaning Examining each of these traits with well chosen examples from dramatic literature the book highlights these traits and illustrates how dramaturgs can understand instances of meaning within plays Part of the Routledge Focus on Dramaturgy series this book will interest scholars and students of dramaturgy directing and theatre studies *Nineteenth-century Literature Criticism* Laurie Lanzen Harris,1985-06 Excerpts from criticism of the works of novelists poets playwrights short story writers and other creative writers who lived between 1800 and 1900 from the first published critical appraisals to current evaluations *Absolute Hell* Rodney Ackland,2017-03-22 Condemned as a libel on the British people when it was first produced in 1951 Absolute Hell is set in a decaying West End drinking club at the end of the Second World War The 1995 production at the Royal National Theatre starred Judi Dench and was directed by Anthony Page **Structure and Theme in the Plays of John Whiting** David Roy Overton,1972
