Johnson,Michael Hallett,Sung Joon Jang,2021-09-05 Drawing on work from inside some of America s largest and toughest prisons this book documents an alternative model of restorative corrections utilizing the lived experience of successful inmates fast disrupting traditional models of correctional programming While research documents a strong desire among those serving time in prison to redeem themselves inmates often confront a profound lack of opportunity for achieving redemption In a system that has become obsessively and dysfunctionally punitive often fewer than 10% of prisoners receive any programming Incarcerated citizens emerge from

prisons in the United States to reoffend at profoundly high rates with the majority of released prisoners ending up back in prison within five years In this book the authors describe a transformative agenda for incentivizing and rewarding good behavior inside prisons rapidly proving to be a disruptive alternative to mainstream corrections and offering hope for a positive future The authors expertise on the impact of faith based programs on recidivism reduction and prisoner reentry allows them to delve into the principles behind inmate led religious services and other prosocial programs to show how those incarcerated may come to consider their existence as meaningful despite their criminal past and current incarceration Religious practice is shown to facilitate the kind of transformational identity work that leads to desistance that involves a change in worldview and self concept and which may lead a prisoner to see and interpret reality in a fundamentally different way With participation in religion protected by the U S Constitution these model programs are helping prison administrators weather financial challenges while also helping make prisons less punitive more transparent and emotionally restorative This book is essential reading for scholars of corrections offender reentry community corrections and religion and crime as well as professionals and volunteers involved in correctional counseling and prison ministry *Welcome* Jen Oshman,2023-01-01

Kling, 2020-05-05 Conversion has played a central role in the history of Christianity In this first in depth and wide ranging narrative history David Kling examines the dynamic of turning to the Christian faith by individuals families and people groups Global in reach the narrative progresses from early Christian beginnings in the Roman world to Christianity's expansion into Europe the Americas China India and Africa Conversion is often associated with a particular strand of modern Christianity evangelical and a particular type of experience sudden overwhelming However when examined over two millennia it emerges as a phenomenon far more complex than any one dimensional profile would suggest No single unitary paradigm defines conversion and no easily explicable process accounts for why people convert to Christianity Rather a multiplicity of factors historical personal social geographical theological psychological and cultural shape the converting process A History of Christian Conversion not only narrates the conversions of select individuals and peoples it also engages current theories and models to explain conversion and examines recurring themes in the conversion process divine presence gender and the body agency and motivation testimony and memory group and self identity authentic and nominal conversion and modes of communication Accessible to scholars students and those with a general interest in conversion Kling's book is the most satisfying and comprehensive account of conversion in Christian history to date this major work will become a standard must read in conversion studies **Text and Artifact in the Religions of Mediterranean Antiquity** Peter

Richardson, Canadian Corporation for Studies in Religion, 2000-05-19 North American and European scholars of archaeology and theology explore the issue of how primary religious texts of the ancient Mediterranean world and artifactual evidence can be mutually supportive and illuminating The essays are divided into those on early Christianity late antique Judaism and the Greco Roman world at large and include studies on the placing of Jesus celibacy and social deviancy in the Roman period and epigraphic evidence for Jewish defectors Canadian card order number C00 930959 4 Annotation copyrighted by Book News Inc Portland OR **Transformations of Religious Practices in Late Antiquity** Eric Rebillard, 2024-08-01 The eighteen papers collected in this volume fifteen of which are published in English for the first time explore the transformations of religious practices between the third and the fifth centuries in the Western part of the Roman Empire They share an approach that privileges the study of processes and interactions and does not take for granted the categories and roles traditionally ascribed to social actors A first group of papers focuses on the sermons and letters of Augustine of Hippo These texts are precious evidence for balancing the clerical perspective that characterizes most of our sources and can

thus shed a different light on the problem of Christianization The second group collects papers that propose to shift attention from the construction of heresies to that of orthodoxy through the case study of the controversy of Augustine against Pelagius and Julian of Eclanum A last group present studies that look at the complex relation between burial and religion with a particular focus on the role played by the church in the organization of the burial of Christians in Late Antiquity

Orthodoxy and Heresy in Early Christian Contexts Paul A Hartog, 2015-08-27 Eighty years ago Walter Bauer promulgated a bold and provocative thesis about early Christianity He argued that many forms of Christianity started the race but one competitor pushed aside the others until this powerful orthodox version won the day The victors rewrote history marginalizing all other perspectives and silencing their voices even though the alternatives possessed equal right to the title of normative Christianity Bauer's influence still casts a long shadow on early Christian scholarship Were heretical movements the original forms of Christianity Did the heretics outnumber the orthodox Did orthodox heresiologists accurately portray their opponents And more fundamentally how can one make any objective distinction between heresy and orthodoxy Is such labeling merely the product of socially situated power Did numerous valid forms of Christianity exist without any validating norms of Christianity This collection of essays each written by a relevant authority tackles such questions with scholarly acumen and careful attention to historical cultural geographical and socio rhetorical detail Although recognizing the importance of Bauer's critical insights innovative methodologies and fruitful suggestions the contributors expose numerous claims of the Bauer thesis in both original and recent manifestations that fall short of the historical evidence
