Independence period      **Creative Pasts** Prachi Deshpande,2007 The Maratha period of the seventeenth and eighteenth centuries when an independent Maratha state successfully resisted the Mughals is a defining era in the history of the region of Maharashtra in western India In this book Prachi Deshpande considers the importance of this period for a variety of political projects including anticolonial Hindu nationalism and the non Brahman movement as well as popular debates throughout the nineteenth and twentieth centuries concerning the meaning of tradition culture and the experience of colonialism and modernity Sampling from a rich body of literary and cultural sources Deshpande highlights shifts in history writing in early modern and modern India and the deep connections between historical and literary narratives She traces the reproduction of the Maratha period in various genres and public arenas its incorporation into regional political symbolism and its centrality to the making of a modern Marathi regional consciousness She also shows how historical memory provided

a space for Indians to negotiate among their national religious and regional identities pointing to history's deeper potential in shaping politics within thoroughly diverse societies. A truly unique study, *Creative Pasts* examines the practices of historiography and popular memory within a particular colonial context and illuminates the impact of colonialism on colonized societies and cultures. Furthermore, it shows how modern history and historical memory are jointly created through the interplay of cultural activities, power structures and political rhetoric.

**The Temple Road Towards a Great India** Marta Kudelska, Dorota Kamińska-Jones, Agnieszka Staszczuk, Agata Świerżowska, 2019-11-30. This book presents an analysis of the foundations organised by the Birla family in India. Several generations were involved in the renovation and establishment of sanctuaries, temples and other sacral buildings. As a result, between 1933 and 1998, nineteen Birla Mandirs were established mainly in northern and central India. All the temples have the capacity to surprise with their various decorative motifs not seen in other places which, apart from their aesthetic function, above all, bear important symbolic content. Therefore, is it possible to treat the Birla Mandirs as a specific medium, the carrier of a particular message that is not only religious but with a significance that permeates other layers of social and political discourse? This message, as the authors of the book claim, have a bearing on the socio-political thought of India, supported by the creation and propagation of ideas related to identity and a national art. It also conveys the idea of hierarchical Hindu inclusivism, which, although considering all religions as equal, treats Hinduism in a unique way, seeing within it the most perfect form of religion, giving man the opportunity to learn the highest truth. The book also examines whether the temples founded by the Birla family and the religious activities undertaken therein apply the concept of inventing tradition and whether traditions created or modernised in contemporary times are a way of enhancing the appeal of the message conveyed from temple to society. *The Vastness of Culture* is a series of publications presenting cultural studies and emphasizing the role of comparative research and analyses that reveal similarities, differences and intercultural influences. In our publications, cultures and civilizations are in a state of constant flux, engaging in dialogue, creating new understandings, competing for meaning under the influence of global content without any clear boundaries but with a vastness that forces questions to be raised.

The Positive Background of Hindu Sociology Benoy Kumar Sarkar, 1914

Western India in the Nineteenth Century Ravinder Kumar, 2013-11-05. Hinduism flourished in the districts around Poona in Bombay to a far greater extent than in the rest of India, hence the problems facing the British administrators of Maharashtra were quite different from those confronting them in other parts of India. The solutions they proposed and the policies which emerged determined the social changes which took place in the Maharashtra in the nineteenth century. This book analyses these changes by focussing on the rise of new social groups and the dissemination of new values and shows how these social groups and values interacted with the traditional order in Maharashtra to create a stable regional society.
